**INFORMATION PAPER SERIES –**

**RE-BASING AND REVISION OF  
THE QUARTERLY BUSINESS RECEIPTS INDEX  
(2008 = 100)**

The Singapore Department of Statistics releases an information paper on **“Re-basing and Revision of the Quarterly Business Receipts Index (2008 = 100)”**.

The Quarterly Business Receipts Index measures the performance of the Services Sector on a quarterly basis. The Services Sector here excludes wholesale and retail trade, hotels and restaurants. To reflect changes in the structure of services industries in the index, the coverage and weighting patterns are revised at regular intervals. This paper reports the re-basing of the Quarterly Business Receipts Index to reference year 2008, the second revision of the series. Details on the data sources, coverage and methodology adopted are provided in the report.

The Information Paper will be available from **1 Jun 2009**, at SingStat website (<http://www.singstat.gov.sg>).
