

SINGAPORE DEPARTMENT OF STATISTICS

NOTICE OF PUBLICATION

POPULATION TRENDS 2009

Population Trends 2009 provides a statistical analysis of Singapore's changing population profile. It is the fifth edition of an annual series that puts together different aspects of demographic statistics in one volume. The report comprises four sections, namely, 'Population and Households', 'Family Formation and Dissolution', 'Fertility' and 'Mortality'. Time series of commonly used indicators are included in the Statistical Appendix.

Singapore's total population as at end June 2009 was 4.99 million. There were 3.73 million Singapore residents and 1.25 million non-residents.

Interested readers can access the publication online at the Statistics Singapore website (<http://www.singstat.gov.sg>).
