

Advance Estimates of Foreign Direct Investment in Singapore (Stock as at end 2024)

Foreign Direct Investment (FDI) in Singapore plays an important role in driving economic growth. By attracting new companies and helping existing businesses to expand, FDI enhances the overall productivity and competitiveness of the economy. FDI can also have a positive impact on individuals by creating job opportunities and facilitating the transfer of skills and knowledge. FDI usually occurs through the establishment of new subsidiaries, mergers and acquisitions, or expansion of existing enterprises in Singapore.

FDI IN SINGAPORE BY COMPONENT, 2024

The stock of FDI in Singapore's corporate sector stood at \$3,154 bil as at end 2024. Foreign Direct Equity Investment formed 90.8% of the total FDI stock, while Net Inter-Company Lending accounted for the remaining 9.2%.

TOP 10 SOURCE ECONOMIES, 2024

Collectively, the top 10 source economies contributed 72.0% of the total FDI stock in Singapore as at end 2024. The United States of America (USA), Japan, the United Kingdom, and Hong Kong were among the top source economies.
