

PRESS RELEASE

Business Receipts Index Third Quarter 2025

The Business Receipts Index (BRI) for the services industries (excluding Wholesale Trade, Retail Trade, Accommodation and Food Services) is compiled quarterly and measures how well the services industries are doing based on quarterly business receipts. The BRI provides insights on the short-term performance of the services industries, which can guide business decisions and policy choices.

BUSINESS RECEIPTS OF SERVICES INDUSTRIES¹

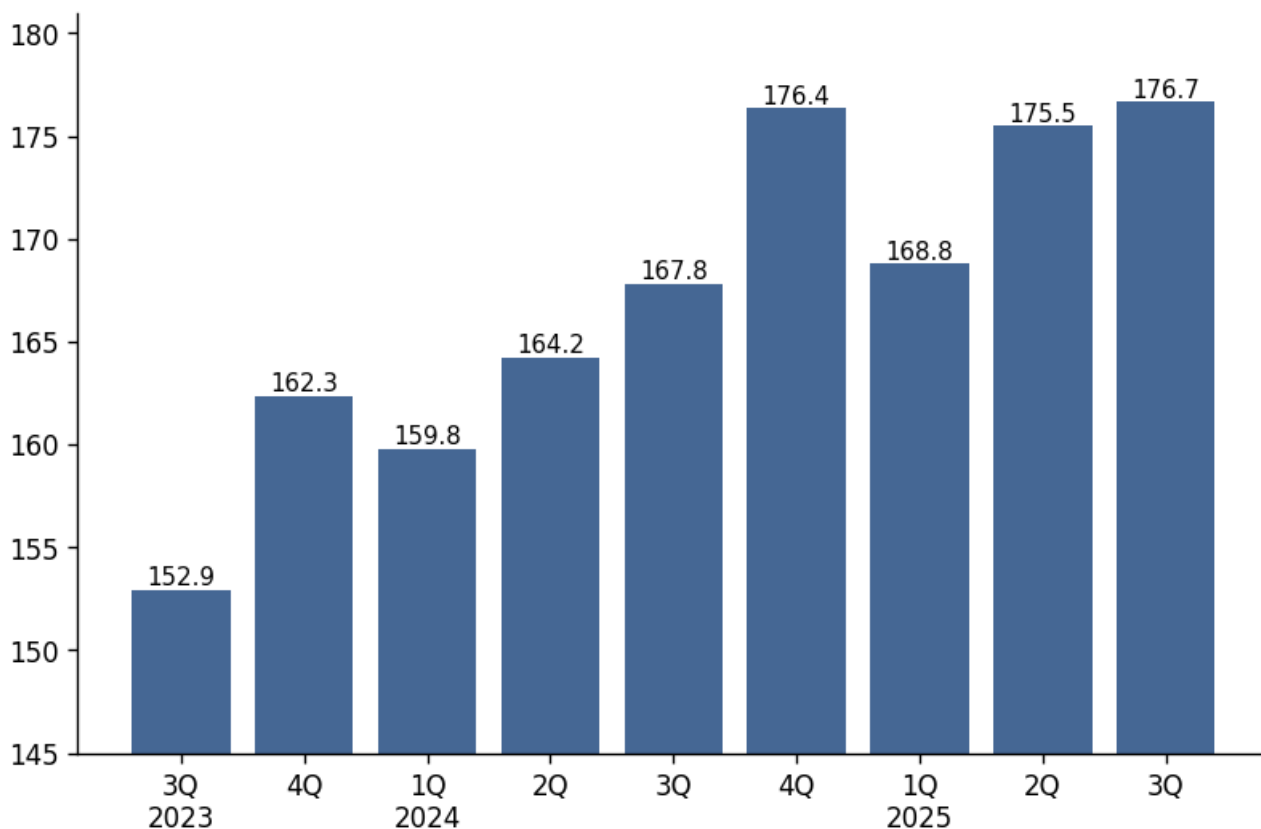

Year-on Year

▲ **+5.3%**

▲ **+0.7%**

Business Receipts Index¹, 3Q 2023 - 3Q 2025

¹Excludes Wholesale Trade, Retail Trade, Accommodation and Food Services.

OVERVIEW – SERVICE INDUSTRIES

Overall business receipts of the services industries (excluding Wholesale Trade, Retail Trade, Accommodation and Food Services) increased 5.3% on a year-on-year basis in the third quarter of 2025. All industries, except for Transportation & Storage and Administrative & Support Services, registered higher business receipts.

Compared to the previous quarter, overall business receipts (non-seasonally adjusted) rose 0.7% in the third quarter of 2025. All industries, except for Administrative & Support Services, Information & Communications, and Recreation & Personal Services, registered higher business receipts.

Year-on-Year Change

The Recreation & Personal Services industry recorded a 17.7% increase in revenue, primarily driven by the gaming segment.

Meanwhile, the Information & Communications industry registered a 12.0% growth in receipts, mainly attributed to the games publishing, data analytics processing, hosting & related activities and internet search engines sub-sectors.

Conversely, the Transportation & Storage industry experienced a 7.5% decline in receipts, reflecting lower earnings from shipping lines and freight transport arrangement service providers.

Quarter-on-Quarter Change (Non-Seasonally Adjusted)

The Professional Services industry registered a 3.4% increase in receipts, with most of its sub-sectors showing growth, such as advertising & market research, research & development and architectural & engineering services.

Similarly, the Health & Social Services industry reported an increase of 3.0% in turnover, mainly driven by the increase in earnings of the hospitals.

On the other hand, the Administrative & Support Services industry contracted 3.7% mainly due to the rental & leasing segment which saw a slowdown in business activities.

¹ Excludes Wholesale Trade, Retail Trade, Accommodation and Food Services.

² Comprises land transport, water transport, air transport, warehousing & support activities for transport and postal & courier activities.

³ Comprises arts, entertainment & recreation, activities of membership organisations (e.g., business and professional membership organisations, religious organisations and interest groups), repair of computers, personal and household goods and vehicles and other personal services activities.

EXPLANATORY NOTES

Introduction

The Business Receipts Index (BRI) for the services industries (excluding Wholesale Trade, Retail Trade, Accommodation and Food Services) measures the short-term changes in the amount of business or operating revenue on a quarterly basis. The BRI is compiled at current prices.

Business or operating revenue is the income earned from business operations (i.e., includes income from services rendered, sale of goods, commission fees as well as rental of premises and machinery & equipment).

To reflect the changes in the structure of the services industries over the years, the weighting pattern of the index series is revised regularly. The BRI series have been re-based from base year 2008 to 2014. The new BRI series (2014=100) has been released with effect from 1Q2015 report.

Data Collection

Data for the compilation of the index is sourced from administrative data as well as the Quarterly Survey of Services (QSS) and Survey of Quarterly National Income Estimates conducted by the department.

The 2014-based BRI is compiled based on survey and administrative records of more than 11,000 enterprises.

Index Compilation

To derive the BRI at detailed industry level, the quarterly business receipts for that industry is divided by the average quarterly business receipts for the same industry in the base year.

The overall BRI is then computed by combining the indices of the detailed industries, using weights which measure each industry's relative importance in the overall services sector.
