Statistical activities conducted by the Singapore Department of Statistics are governed by the provisions of the Statistics Act (Cap. 317). The Act guarantees the confidentiality of information collected from individuals and companies. It spells out the legislative authority and responsibility of the Chief Statistician. The Act is available in the Department's Website (www.singstat.gov.sg).

Import Price Index (2018 = 100)

April 2019

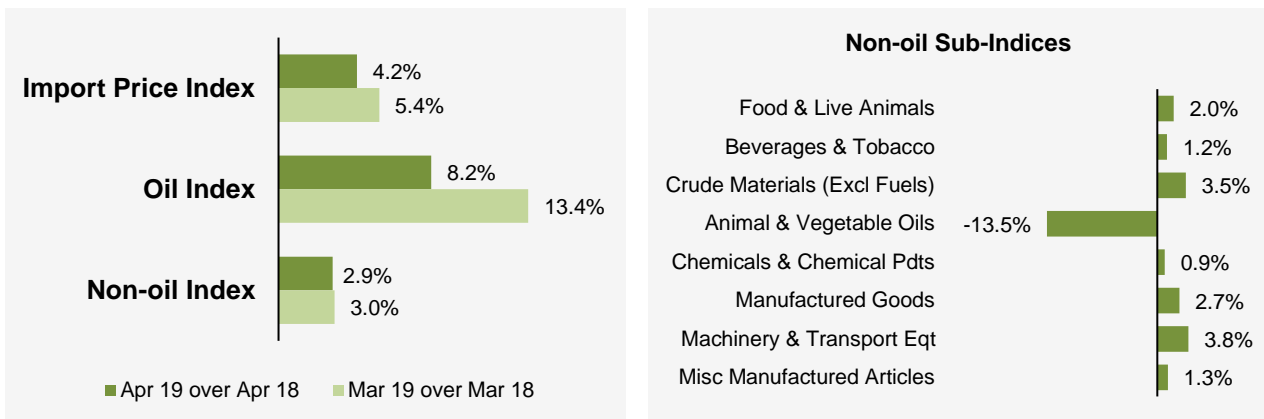

Month-on-Month Change

The Import Price Index rose 0.3% in April 2019, following the 1.2% increase in March 2019. The Oil index increased 1.1%, lower than the 4.4% gain in the previous month. The Non-oil index was unchanged, after increasing 0.2% in March 2019.

Among the Non-oil sub-indices, increases led by the Manufactured Goods (1.2%) and Chemicals & Chemical Products (0.5%) indices were offset by decreases in the Machinery & Transport Equipment (-0.2%) and Miscellaneous Manufactured Articles (-0.1%) indices.

Year-on-Year Change

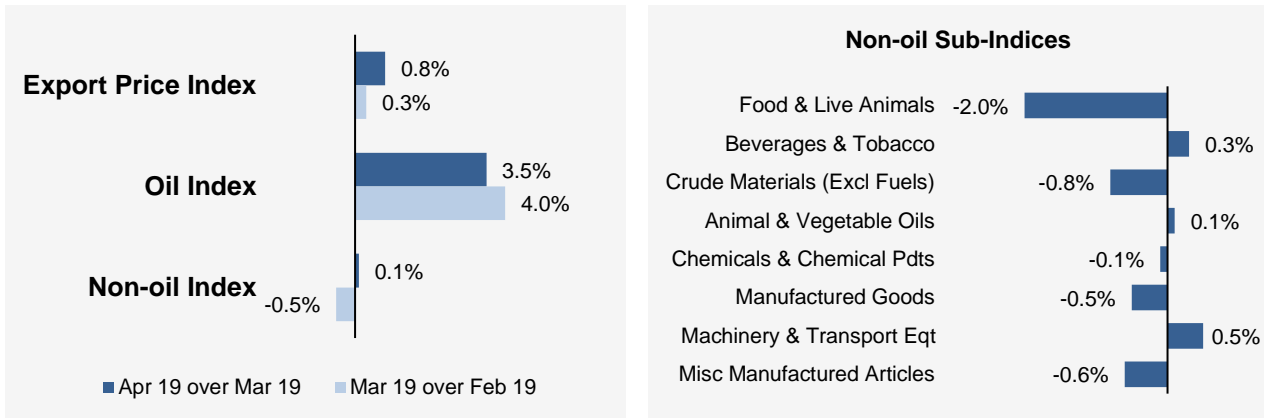

The Import Price Index rose 4.2% in April 2019 from a year ago, following the 5.4% increase in March 2019. The Oil and Non-oil indices increased 8.2% and 2.9% respectively.

All Non-oil sub-indices increased with the exception of the Animal & Vegetable Oils (-13.5%) index. Higher prices were registered for the Machinery & Transport Equipment (3.8%), Crude Materials (3.5%), Manufactured Goods (2.7%), Food & Live Animals (2.0%), Miscellaneous Manufactured Articles (1.3%), Beverages & Tobacco (1.2%), and Chemicals & Chemical Products (0.9%) indices.

Export Price Index (2018 = 100) April 2019

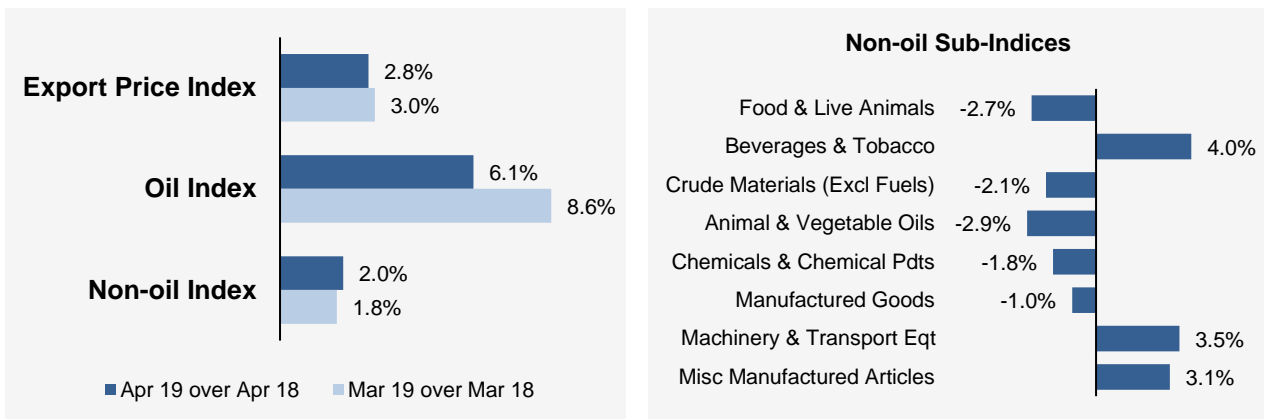

Month-on-Month Change

The Export Price Index rose 0.8% in April 2019, extending the 0.3% increase in March 2019. The Oil index increased 3.5%, following the 4.0% gain in the previous month. The Non-oil index increased 0.1% in April 2019, after decreasing 0.5% in the previous month.

Among the Non-oil sub-indices, increases led by the Machinery & Transport Equipment (0.5%) and Beverages & Tobacco (0.3%) indices were partially offset by decreases in the Miscellaneous Manufactured Articles (-0.6%) and Manufactured Goods (-0.5%) indices.

Year-on-Year Change

The Export Price Index rose 2.8% in April 2019 over the previous year, after the 3.0% increase in March 2019. The Oil and Non-oil indices climbed 6.1% and 2.0% respectively.

For the Non-oil sub-indices, increases in the Beverages & Tobacco (4.0%), Machinery & Transport Equipment (3.5%) and Miscellaneous Manufactured Articles (3.1%) indices were partially moderated by decreases in the Animal & Vegetable Oils (-2.9%), Food & Live Animals (-2.7%), Crude Materials (-2.1%), Chemicals & Chemical Products (-1.8%) and Manufactured Goods (-1.0%) indices.

Technical Note

The **Import Price Index (IPI)** is used primarily as an indicator to track the price trends of imported goods into Singapore. Prices of imports, valued at cif (cost, insurance and freight) are obtained monthly from major importers. The weighting pattern of the index is derived from import statistics for 2018.

The **Export Price Index (EPI)** measures changes in the price of all exports of merchandise from Singapore, including re-exports. In general, prices are obtained from major exporters of the selected commodities. Prices used in the index computation, are the prices of goods that physically leave Singapore's main ports of export; also termed as free on board prices. The weights of the index are derived from the distribution of export by commodity in 2018.

Index Formula

The 2018-based series is compiled using the Laspeyres formula where the price and weight reference periods are aligned to the year 2018. The geometric mean formula has been adopted in the computation of unweighted elementary aggregate price indices. The arithmetic mean formula is applied in compiling indices at higher levels of aggregation where weights of specific sub-indices are available.

Measurement of Changes in Price Indices

Change over previous month compares the index of the month with that of the preceding month. Such comparisons measure the change in the price index between two consecutive months. They serve as useful short-term indicators of the price movements.

Change over same period of previous year measures change in the index over a twelve-month period. Such comparisons compare the movement in the price index between similar months in two consecutive years.

Index Revision

The indices may be revised when late returns and amendments received from respondents are incorporated.

Dissemination of Data

The Import and Export Price Indices are available on the SingStat Website (www.singstat.gov.sg/tablebuilder). Excel tables for this month's report are available at <https://www.singstat.gov.sg/publications/economy/import-export-price-indices> or through the QR code below:

- nes not elsewhere specified
- nil or negligible

NOTES

The Import and Export Price Indices report contains statistics that are the most recent available at the time of its preparation.

Some statistics, particularly those for the most recent time periods, are provisional and may be subject to revision in later issues.
