MAJOR GROUP 1 LEGISLATORS, SENIOR OFFICIALS AND MANAGERS

Occupation(s) in this Major Group are classified into the following Sub-major Group(s):

- 11 LEGISLATORS, SENIOR OFFICIALS AND CHIEF EXECUTIVES
- 12 ADMINISTRATIVE AND COMMERCIAL MANAGERS
- 13 PRODUCTION AND SPECIALISED SERVICES MANAGERS
- 14 HOSPITALITY, RETAIL AND RELATED SERVICES MANAGERS

Notes:

In distinguishing between managers classified in Major Group 1 'Legislators, Senior Officials and Managers' and supervisors classified in other major groups, it should be noted that both managers and supervisors may plan, organise, coordinate, control and direct the work done by others. In addition, managers usually have responsibility for and make decisions about: the overall strategic and operational direction of a business or organisational unit (for example about the kinds, quantity and quality of goods to be produced); budgets (how much money is to be spent and for what purposes); and the selection, appointment and dismissal of staff. Supervisors may provide advice and assistance to managers on these matters, especially in relation to staff selection and dismissal, but do not have authority to make decisions.

It should be noted that it is not a necessary condition that managers have responsibility for all three areas (strategic and operational direction, budgets and staff selection and dismissal). The degree of autonomy they exercise may also vary. The critical difference is that supervisors are responsible only for the supervision of the activities of other workers, whereas managers have overall responsibility for the operations of an organisational unit.

Operators of small shops for whom the management and supervision of staff is not a significant component of the work and staff who control and direct the activities of shop sales assistants, checkout operators and other workers, but who do not take responsibility for determining product mix, overall setting of prices, budgets and staffing levels, selection and recruitment, are classified in Unit Group 5220 'Shop Salespersons'.

Occupation(s) in this Unit Group:

- 14201 Retail manager
- 14202 Wholesale trade manager

Occupation 14201 Retail manager

Retail manager plans, organises, coordinates and controls the operations of establishments that sell goods on a retail basis. He/she oversees the budgets, staffing, and strategic and operational direction of retail shops.

Example(s) of job classified under this code:

- E-commerce retail sales manager
- Chain store manager
- Departmental store manager
- Mail order store manager

Example(s) of job not classified under this code:

- Sales manager, see 12211
- Sales supervisor, see 52201

- Shop sales assistant, see 52202

Occupation 14202 Wholesale trade manager

Wholesale trade manager plans, organises, coordinates and controls the operations of establishments that sell goods on a wholesale basis. He/she oversees the budgets, staffing, and strategic and operational direction of wholesale shops.

Example(s) of job classified under this code:

- Wholesale trade director

Example(s) of job not classified under this code:

- Showroom supervisor (wholesale trade), see 52201
- Wholesale trade salesman, see 52202

MINOR GROUP 143 OTHER SERVICES MANAGERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 1431 Sports Centre Managers
- 1432 Recreation Centre Managers
- 1433 Arts and Cultural Centre Managers
- 1439 Other Services Managers Not Elsewhere Classified

Unit Group 1431 Sports Centre Managers

Sports centre managers plan, organise and control the operations of establishments that provide sporting services.

Tasks include:

- planning and organising the range and mix of sports and fitness programmes to be offered by the centre
- ensuring that facilities are kept clean and in good condition
- advising on the facilities available and promoting publicity in relation to events, shows and activities
- establishing and managing budgets, controlling expenditure and ensuring the efficient use of resources for sports activities

Occupation(s) in this Unit Group:

- 14310 Sports centre manager

Occupation 14310 Sports centre manager

Sports centre manager plans, organises and controls the operations of establishments that provide sporting services.

Example(s) of job classified under this code:

- Sport hall manager
- Swimming pool manager
- Fitness centre manager

Unit Group 1432 Recreation Centre Managers

Recreation centre managers plan, organise and control the operations of establishments that provide recreational and amenity services.

Tasks include:

- planning and organising the range and mix of entertainment programmes to be offered by the recreation centre
- ensuring that facilities are kept clean and in good condition
- advising on the facilities available and promoting publicity in relation to events, shows and activities

Occupation(s) in this Unit Group:

- 14321 Casino operations manager
- 14322 Attractions manager
- 14323 Discotheque/Karaoke/Nightclub manager
- 14324 Wellness centre manager (e.g. hair/beauty/slimming/spa/manicure/massage)
- 14325 Community/country club manager
- 14329 Other recreation centre managers

Occupation 14321 Casino operations manager

Casino operations manager oversees the day-to-day operations of gaming facilities. He/she ensures that all gaming rules are followed, and monitors compliance with regulatory requirements.

Example(s) of job classified under this code:

- Gaming director
- Sports betting manager

Occupation 14322 Attractions manager

Attractions manager plans, directs and manages the operations of places of interest, such as theme parks, nature parks, art galleries, museums, monuments and public places. He/she maintains and develops the attractions in accordance with strategic plan, nature conservation objectives, individual site management plans. He/she may manage outreach programmes to create greater public awareness of the attractions.

Example(s) of job classified under this code:

- Arcade manager
- Theme park director
- Zoo manager
- Park manager

Example(s) of job not classified under this code:

- Attractions guide, see 51132

Occupation 14323 Discotheque/Karaoke/Nightclub manager

Discotheque/Karaoke/Nightclub manager plans and organises a bar and/or nightclub on behalf of the proprietors to provide beverages and entertainment for guests. He/she directs and controls staff to ensure efficient and profitable operation.

Example(s) of job classified under this code:

- Nightclub manager

Occupation 14324 Wellness centre manager (e.g. hair/beauty/slimming/spa/manicure/massage)

Wellness centre manager oversees the daily operations and staff management in a wellness centre. He/she ensures customer satisfaction, budget control and inventory management.

Example(s) of job classified under this code:

- Beauty parlour director
- Hair salon manager

Occupation 14325 Community/country club manager

Community/Country club manager ensures the entire facility is sanitary according to accepted standards and that all equipment are in good working condition. He/she sets long-term goals for overall business improvement; as well as plans, develops, and executes programs for his/her patrons.

Example(s) of job classified under this code:

- Marina club manager

Occupation 14329 Other recreation centre managers

This group includes recreation centre managers not elsewhere classified.

Example(s) of job classified under this code:

- Cinema manager
- Library manager

Unit Group 1433 Arts and Cultural Centre Managers

Arts and cultural centre managers plan, organise and control the operations of establishments that provide artistic and theatrical services.

Tasks include:

- planning and organising the range and mix of entertainment, attractions and cultural activities programmes to be offered by the centre
- ensuring that facilities are kept clean and in good condition
- keeping abreast of new trends and developments in the creative arts and arranging theatrical productions and performances by bands and orchestras
- advising on the facilities available and promoting publicity in relation to events, shows and activities

Occupation(s) in this Unit Group:

- 14330 Arts and cultural centre manager (including gallery and museum manager)

Occupation 14330 Arts and cultural centre manager (including gallery and museum manager)

Arts and cultural centre manager plans, organises and controls the operations of establishments that provide artistic and theatrical services.

Example(s) of job classified under this code:

- Arts center director
- Cultural facilities director

Unit Group 1439 Other Services Managers Not Elsewhere Classified

This unit group covers jobs responsible for planning, directing and coordinating the provision of services not classified in Minor Group 143 'Other Services Managers'. For instance, travel agency manager is classified here.

Tasks include:

- planning and organising the range and mix of services or activities provided
- ensuring that facilities are kept clean and in good condition
- establishing and managing budgets
- controlling expenditure and ensuring the efficient use of resources

Occupation(s) in this Unit Group:

- 14391 Event manager
- 14392 Travel agency manager
- 14399 Other services managers n.e.c.

Occupation 14391 Event manager

Event manager plans, directs and oversees venue operations and events such as festivals, conferences, ceremonies, cultural events, exhibitions, formal parties, concerts, or conventions.

Example(s) of job classified under this code:

- Functions manager
- Event operations director
- Exhibition director
- Director of events

Example(s) of job not classified under this code:

- Event planner, see 33320
- Exhibition co-ordinator, see 33320

Occupation 14392 Travel agency manager

Travel agency manager manages employees and activities of a travel agency. He/she organises, advertises and sells travel related products such as travel packages, air tickets and admission tickets to attractions.

Example(s) of job classified under this code:

- Tourism sales manager
- Travel sales manager

Example(s) of job not classified under this code:

- Travel consultant, see 42210

Occupation 14399 Other services managers n.e.c.

This group includes services managers not elsewhere classified.

Example(s) of job classified under this code:

- Automotive repair shop manager
- Crematorium manager

MAJOR GROUP 2 PROFESSIONALS

Occupation(s) in this Major Group are classified into the following Sub-major Group(s):

- 21 SCIENCE AND ENGINEERING PROFESSIONALS
- 22 HEALTH PROFESSIONALS
- 23 TEACHING AND TRAINING PROFESSIONALS
- 24 BUSINESS AND ADMINISTRATION PROFESSIONALS
- 25 INFORMATION AND COMMUNICATIONS TECHNOLOGY (ICT) PROFESSIONALS
- 26 LEGAL, SOCIAL, RELIGIOUS AND CULTURAL PROFESSIONALS

SUB-MAJOR GROUP 21 SCIENCE AND ENGINEERING PROFESSIONALS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 211 PHYSICAL AND EARTH SCIENCE PROFESSIONALS
- 212 MATHEMATICIANS, ACTUARIES, STATISTICIANS AND OTHER RELATED PROFESSIONALS
- 213 LIFE SCIENCE PROFESSIONALS
- 214 ENGINEERING PROFESSIONALS I
- 215 ENGINEERING PROFESSIONALS II (Con'td)
- 216 ARCHITECTS, PLANNERS, SURVEYORS AND DESIGNERS
- 217 SHIP AND AIRCRAFT RELATED PROFESSIONALS

MINOR GROUP 211 PHYSICAL AND EARTH SCIENCE PROFESSIONALS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2111 Physicists and Astronomers
- 2112 Meteorologists
- 2113 Chemists
- 2114 Geologists, Geophysicists and Other Physical Science Professionals

Unit Group 2111 Physicists and Astronomers

Physicists and astronomers conduct research, improve or develop concepts, theories and operational methods concerning matter, space, time, energy, forces and fields and the interrelationship between these physical phenomena. They apply scientific knowledge relating to physics and astronomy in industrial, medical, military or other fields.

Tasks include:

- conducting research and improving or developing concepts, theories, instrumentation, software and operational methods related to physics and astronomy
- conducting experiments, tests and analyses on the structure and properties of matter in such fields as mechanics, thermodynamics, electronics, communications, power generation and distribution, aerodynamics, optics and lasers, remote sensing, medicine, sonics, magnetism, and nuclear physics
- evaluating results of investigations and experiments and expressing conclusions, mainly using mathematical techniques and models
- applying principles, techniques and processes to develop or improve industrial, medical, military and other practical applications of the principles and techniques of physics or astronomy
- ensuring accurate measurement and characterisation of radiation doses delivered to patients in medical applications of nuclear technology
- testing, commissioning and evaluating equipment used in applications such as imaging, medical treatment and dosimetry
- advising and consulting with medical practitioners and other healthcare professionals in optimising the balance between the beneficial and deleterious effects of radiation
- observing, analysing and interpreting celestial phenomena and developing methods, numerical models and techniques to extend knowledge of such fields as navigation, satellite communication, space exploration, celestial bodies and cosmic radiation
- maintaining and developing standards and protocols for measurement of physical phenomena and for the use of nuclear technology in industrial and medical applications
- preparing scientific papers and reports

Occupation(s) in this Unit Group:

- 21110 Physicist/Astronomer

Occupation 21110 Physicist/Astronomer

Physicist/Astronomer conducts research, improves or develops concepts, theories and operational methods concerning matter, space, time, energy, forces and fields and the interrelationship between these physical phenomena. He/she applies scientific knowledge relating to physics and astronomy in industrial, medical, military or other fields.

Example(s) of job classified under this code:

- Electronics physicist
- Nuclear physicist
- Medical physicist

Example(s) of job not classified under this code:

- Geophysicist, see 21142
- Medical scientist, see 21346
- Aerodynamics engineer, see 21471
- Aeronautical engineer, see 21471
- Optics engineer, see 21497
- Electronics engineer, see 21521
- Nuclear medicine physician, see 22129
- Radiologist, see 22142
- Radiation oncologist, see 22150
- Medical diagnostic radiographer, see 22693

Notes:

While medical physicist is classified within this group, medical physicist is considered to be an integral part of the health workforce alongside occupations classified in Sub-major Group 22 'Health Professionals' and others classified in a number of other unit groups in Major Group 2 'Professionals'.

Unit Group 2112 Meteorologists

Meteorologists prepare short-term or long-term weather forecasts used in aviation, shipping, agriculture and other areas and for the information of the general public. They conduct research related to the composition, structure and dynamics of the atmosphere.

Tasks include:

- investigating direction and speed of air movements, pressures, temperatures, humidity, physical and chemical transformation of pollutants and other phenomena such as cloud formation and precipitation, electrical disturbances or solar radiation
- studying data collected from meteorological stations, radar and satellite imagery and computer model output to plot and forecast weather conditions
- preparing and reporting short-term or long-term weather maps, forecasts and warnings relating to atmospheric phenomena such as cyclones, storms and other hazards to life and property and disseminating information about atmospheric conditions through a variety of media including radio, television, print and the Internet
- conducting experiments in fog dispersal, cloud seeding, rain enhancement and other types of weather modification programmes
- developing and testing mathematical computer models of weather and climate for experimental or operational use
- participating in studies of the effect of weather on the environment

- analysing the impact of industrial projects and human activity on the climate and air quality and working with the social science, engineering and economic communities to develop appropriate mitigation strategies
- engaging in the design and development of new equipment and procedures for meteorological data collection, remote sensing, or for related applications
- conducting research on and improving or developing concepts, theories and operational methods related to the composition, structure and dynamics of the atmosphere
- preparing scientific papers and reports

Occupation(s) in this Unit Group:

- 21120 Meteorologist

Occupation 21120 Meteorologist

Meteorologist prepares short-term or long-term weather forecasts used in aviation, shipping, agriculture and other areas and for the information of the general public. He/she conducts research related to the composition, structure and dynamics of the atmosphere.

Example(s) of job classified under this code:

- Climatologist
- Weather forecaster
- Atmospheric scientist

Example(s) of job not classified under this code:

- Air pollution analyst, see 21339

Unit Group 2113 Chemists

Chemists conduct research, improve or develop concepts, theories and operational methods, or apply scientific knowledge relating to chemistry, to develop new knowledge or products and for quality and process control.

Tasks include:

- conducting research and improving or developing concepts, instruments, theories and operational methods related to chemistry
- conducting experiments, tests and analyses to investigate chemical composition and energy and chemical changes in various natural or synthetic substances, materials and products
- developing procedures for environmental control, quality control and various other procedures for manufacturers or users
- conducting programmes of sample and data collection and analysis to identify and quantify environmental toxicants

- participating in interdisciplinary research and development projects working with chemical engineers, biologists, microbiologists, agronomists, geologists or other professionals
- using micro-organisms to convert substances into new compounds
- determining ways to strengthen or combine materials or develop new materials
- reproducing and synthesising naturally occurring substances and creating new artificial substances
- preparing scientific papers and reports

Occupation(s) in this Unit Group:

- 21130 Chemist

Occupation 21130 Chemist

Chemist conducts research, improves or develops concepts, theories and operational methods, or applies scientific knowledge relating to chemistry, to develop new knowledge or products and for quality and process control.

Example(s) of job classified under this code:

- Food chemist
- Food toxicologist
- Petroleum chemist
- Cosmetics formulation chemist

Example(s) of job not classified under this code:

- Toxicologist, see 21341
- Biochemist, see 21343
- Chemical engineer, see 21451
- Chemical engineer (petroleum), see 21452
- Metallurgist, see 21460
- Glass technologist, see 21499
- Food technologist, see 21454
- Pharmacist, see 22621

Unit Group 2114 Geologists, Geophysicists and Other Physical Science Professionals

Geologists, geophysicists and other physical science professionals conduct research, improve or develop concepts, theories and operational methods, or apply scientific knowledge relating to geology and geophysics in such fields as oil, gas and mineral exploration and extraction, water conservation,

civil engineering, telecommunications and navigation. They assess and mitigate the effects of development and waste disposal projects on the environment.

Tasks include:

- conducting research and improving or developing concepts, theories and operational methods related to geology and geophysics
- studying composition and structure of the Earth's crust, examining rocks, minerals, fossils and other materials, to determine processes affecting the development of the Earth, trace evolution of past life, establish nature and chronology of geological formations and assess their commercial applications
- interpreting research data and preparing geological reports, maps, charts and diagrams, reports and papers
- using various remote sensing programmes to investigate and measure seismic, gravitational, electrical, thermal, and magnetic forces affecting the Earth
- estimating weight, size and mass of the Earth and composition and structure of its interior, and studying the nature, activity and predictability of volcanoes, glaciers and earthquakes
- charting the Earth's magnetic field and applying this and other collected data for broadcasting, navigation and other purposes
- studying and measuring physical properties of seas and the atmosphere and their inter-relationship, such as the exchange of thermal energy
- locating and determining the nature and extent of oil, gas and mineral deposits using seismological, gravimetric, magnetic, electrical or radiometric methods
- identifying deposits of construction materials and determining their characteristics and suitability for use as concrete aggregates, road fill or other applications
- researching the movement, distribution and physical properties of ground and surface waters
- advising in areas such as waste management, route and site selection and the restoration of contaminated sites

Occupation(s) in this Unit Group:

- 21141 Geologist
- 21142 Geophysicist
- 21149 Other physical science professionals

Occupation 21141 Geologist

Geologist conducts research into the nature and history of the Earth's crust to increase scientific knowledge and to develop practical applications in such fields as mineral exploitation and civil engineering. He/she applies theoretical knowledge and research data to locate and assess the development potential of mineral, gas, and oil deposits and underground water resources, and applies geological knowledge to problems encountered in civil engineering

projects such as construction of dams, bridges, tunnels and large buildings. He/she prepares geological maps and diagrams of regions studied, using aerial photographs where available.

Example(s) of job classified under this code:

- Geological oceanographer
- Palaeontologist
- Geochemist

Example(s) of job not classified under this code:

- Geophysical oceanographer, see 21142
- Mineralogist, see 21149
- Geotechnical engineer, see 21421

Occupation 21142 Geophysicist

Geophysicist conducts research into the physical nature of the Earth, including its atmosphere and hydrosphere, to increase scientific knowledge and to develop practical applications in such fields as radio communications, navigation, flood control, soil and water conservation, water supply and power, drainage and irrigation, volcanology and mineral exploration. He/she investigates and measures seismic, gravitational, electrical, thermal and magnetic forces affecting Earth and optical and acoustic phenomena in the atmosphere. He/she studies the structure of rock formations to locate mineral, gas and oil deposits using physical and electrical testing instruments such as seismograph and magnetometer.

Example(s) of job classified under this code:

- Geodesist
- Hydrologist
- Seismologist

Example(s) of job not classified under this code:

- Physicist, see 21110
- Geological oceanographer, see 21141

Occupation 21149 Other physical science professionals

This group includes physical science professionals not elsewhere classified.

Example(s) of job classified under this code:

- Mineralogist

Example(s) of job not classified under this code:

- Petrologist, see 21141
- Minerals engineer, see 21460

MINOR GROUP 212 MATHEMATICIANS, ACTUARIES, STATISTICIANS AND OTHER RELATED PROFESSIONALS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2121 Mathematicians, Operations Research Analysts and Actuaries
- 2122 Statisticians and Data Scientists
- 2123 Other Statistical, Mathematical and Actuarial Professionals

Unit Group 2121 Mathematicians, Operations Research Analysts and Actuaries

Mathematicians, operations research analysts and actuaries conduct research and improve or develop mathematical and actuarial concepts, theories and operational methods and techniques and advise on or engage in their practical application in such fields as engineering, business, social and other sciences.

Tasks include:

- studying, improving and developing mathematical and actuarial theories and techniques
- advising on or applying mathematical principles, models and techniques to a wide range of tasks in the fields of engineering, natural, social or life sciences
- conducting logical analyses of management problems, especially in terms of input-output effectiveness, and formulating mathematical models of each problem usually for programming and solution by computer
- designing and putting into operation pension schemes and life, health, social and other types of insurance systems
- preparing scientific papers and reports
- supervising the work of mathematical, operations research analysts and actuarial assistants

Occupation(s) in this Unit Group:

- 21211 Mathematician
- 21212 Operations research analyst
- 21213 Actuary

Occupation 21211 Mathematician

Mathematician applies mathematical principles and methods to solve problems. He/she researches on new or improved methods for the application of mathematical theory or

analysis. He/she may act as the adviser or consultant on various applications of mathematical research.

Example(s) of job classified under this code:

- Applied maths scientist
- Algebraist
- Cryptanalyst

Example(s) of job not classified under this code:

- Operations research analyst, see 21212
- Actuary, see 21213
- Statistician, see 21221
- Statistical officer, see 21231
- Cryptography researcher, see 25112

Occupation 21212 Operations research analyst

Operations research analyst conducts quantitative analytics, data modelling and data analysis to address problems faced by organisations. He/she formulates mathematical models, assembles data relating to or representative of variables in the model, directs computations and other data preparation to test models and solve equations. He/she prepares reports for management describing the solution to the problem and the alternative solutions. He/she may help with the deployment of quantitative models and guide others in the use of analytics to support business needs.

Example(s) of job classified under this code:

- Business intelligence consultant (non-IT)
- Business operations analyst
- Operation process analyst
- Quantitative strategist

Example(s) of job not classified under this code:

- Mathematician, see 21211
- Business analyst, see 24212
- Systems analyst, see 25111
- ICT system analyst, see 25112

Occupation 21213 Actuary

Actuary deals with statistical, mathematical and financial calculations mainly involving the probability of future payments or contingencies in pension or insurance plans. He/she evaluates risks, calculates premium rates and constructs tables of probability for contingencies such as mortality, disability, sickness and accidents and prepares contract provisions of insurance and pension plans. He/she determines proper bases and methods for evaluating liabilities of insurance and pension organisations and equitable bases for distributing surplus earnings under profit-sharing insurance and annuity contracts.

Example(s) of job classified under this code:

- Actuarial consultant
- Insurance actuary

Example(s) of job not classified under this code:

- Mathematician, see 21211
- Statistician, see 21221
- Statistical officer, see 21231
- Actuarial officer, see 21239
- Insurance underwriter, see 24160
- Insurance adjuster, see 33152
- Statistical assistant, see 43141

Unit Group 2122 Statisticians and Data Scientists

Statisticians and data scientists conduct research and improve or develop statistical concepts, theories and operational methods and techniques and advise on or engage in their practical application in such fields as engineering, business and social and other sciences.

Tasks include:

- studying, improving and developing statistical theories and techniques
- applying statistics, probability and risk theory to assess potential financial impacts of future events
- planning and organising surveys and other statistical collections, and designing questionnaires
- evaluating, processing, analysing, and interpreting statistical data and preparing them for publication
- advising on or applying various data collection methods and statistical methods and techniques, and determining reliability of findings, especially in such fields as business or medicine as well as in other areas of natural, social or life sciences
- preparing scientific papers and reports, including those in the form of visualisations such as graphs, charts, and dashboards

- supervising the work of statistical assistants and statistical clerks

Occupation(s) in this Unit Group:

- 21221 Statistician
- 21222 Data scientist

Occupation 21221 Statistician

Statistician conducts research and improves or develops statistical concepts, theories and methods. He/she advises on the applicability and efficiency of statistical methods in their practical application in such fields as engineering, business and social and other sciences. He/she evaluates, organises, analyses and interprets data and presents them in forms suitable for users.

Example(s) of job classified under this code:

- Biometrician
- Economics statistician
- Survey statistician

Example(s) of job not classified under this code:

- Mathematician, see 21211
- Actuary, see 21213
- Data analyst, see 21231
- Statistical officer, see 21231
- Econometrician, see 26310
- Statistical assistant, see 43141

Occupation 21222 Data scientist

Data scientist develops and implements techniques and analytics applications to transform raw data into meaningful information using data-oriented programming languages and visualisation software. He/she applies data mining, data modelling, natural language processing, and machine learning to extract and analyse information from large structured and unstructured datasets. He/she also visualises, interprets, and reports data findings and may create dynamic data reports as well.

Example(s) of job classified under this code:

- Chief data scientist

Unit Group 2123 Other Statistical, Mathematical and Actuarial Professionals

Other statistical, mathematical and actuarial professionals assist in planning the collection, processing and presentation of statistical, mathematical or actuarial data and in carrying out these operations, usually working with statisticians, mathematicians and actuaries.

Tasks include:

- assisting in planning and performing statistical, mathematical, actuarial and related calculations
- preparing detailed estimates of quantities and costs of materials and labour required for statistical census and survey operations
- performing technical tasks connected with establishing, maintaining and using registers and sampling frames for census and survey operations
- performing technical tasks connected with data collection and quality control operations in censuses and surveys
- using standard computer software packages to perform mathematical, actuarial, statistical and related calculations
- preparing statistical, mathematical, actuarial and other results for presentation in graphical or tabular form
- applying knowledge of statistical, mathematical, actuarial and related principles and practices in order to identify and solve problems arising in the course of their work
- supervising the work of statistical clerks

Occupation(s) in this Unit Group:

- 21231 Statistical officer/Data analyst
- 21239 Other statistical, mathematical and actuarial professionals

Occupation 21231 Statistical officer/Data analyst

Statistical officer/Data analyst performs technical tasks connected with data collection and quality control operations in census and survey operations. He/she collects, inspects, cleans, transforms, validates and models collections of data with regard to the requirements of the project. He/she performs mathematical, actuarial, statistical and related calculations using different IT tools and algorithms as demanded by the situation and data, and prepares these results in graphical or tabular form. He/she ensures that data sources and repositories provide consistent and reliable data.

Example(s) of job classified under this code:

- Data quality officer

Example(s) of job not classified under this code:

- Mathematician, see 21211

- Actuary, see 21213
- Statistician, see 21221
- Statistical assistant, see 43141

Occupation 21239 Other statistical, mathematical and actuarial professionals

This group includes statistical and mathematical professionals not elsewhere classified.

Example(s) of job classified under this code:

- Actuarial officer

Example(s) of job not classified under this code:

- Mathematician, see 21211
- Actuary, see 21213
- Statistician, see 21221
- Statistical assistant, see 43141

MINOR GROUP 213 LIFE SCIENCE PROFESSIONALS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2131 Biologists, Botanists, Zoologists and Related Professionals
- 2132 Farming, Forestry and Fishery Advisers
- 2133 Environmental Protection and Related Professionals
- 2134 Pharmacologists and Related Professionals

Unit Group 2131 Biologists, Botanists, Zoologists and Related Professionals

Biologists, botanists, zoologists and related professionals study living organisms and their interactions with each other and with the environment, and apply this knowledge to solve human health and environmental problems. They work in diverse fields such as biology, botany, zoology, plant taxonomy and marine biology.

Tasks include:

- undertaking research in laboratories and in the field to increase scientific knowledge of living organisms
- designing and conducting experiments and tests to discover new information and test hypotheses

- gathering human, animal, insect and plant specimens and data, and studying their origin, development, chemical and physical form, structure, composition, and life and reproductive processes
- examining living organisms using a variety of specialised equipment, instruments, technologies and techniques such as electron microscopes, telemetry, global positioning systems, biotechnology, satellite imaging, genetic engineering, digital imaging analysis, polymerase chain reaction and computer modelling
- identifying, classifying, recording and monitoring living organisms and maintaining databases
- writing scientific papers and reports detailing research and new findings which are made available to the scientific community in scientific journals or at conferences for scrutiny and further debate

Notes:

Medical research professionals who participate in biomedical research using living organisms and do not engage in clinical practice are classified in this unit group. Those who undertake clinical practice are classified in Minor Group 221 'Medical Doctors'.

Occupation(s) in this Unit Group:

- 21311 Biologist
- 21312 Zoologist
- 21319 Other biologists, botanists, zoologists and related professionals

Occupation 21311 Biologist

Biologist conducts research into all forms of life to increase scientific knowledge and develop practical applications in fields such as medicine and agriculture. He/she plans field and laboratory studies of origin, development, functions, structure, distribution, environment, interrelationships and other aspects of life-forms, and observes characteristics and behaviour of life-forms. He/she identifies, classifies and preserves specimens, studies and experiments with biological specimens in laboratories. He/she coordinates, analyses and evaluates results obtained and prepares scientific reports of the findings and conclusions.

Example(s) of job classified under this code:

- Biology biotechnologist
- Biology research scientist

Example(s) of job not classified under this code:

- Hydrobiologist, see 21319
- Marine biologist, see 21319
- Microbiologist, see 21319
- Ecologist, see 21332

- Biochemist, see 21343
- Medical geneticist, see 21346
- Bacteriologist, see 21349

Occupation 21312 Zoologist

Zoologist conducts research into all forms of animal life to increase scientific knowledge. He/she may specialise in a particular branch of zoology, such as entomology, ornithology or animal ecology, marine biology and fisheries, and be designated accordingly.

Example(s) of job classified under this code:

- Animal physiologist
- Animal taxonomist

Example(s) of job not classified under this code:

- Animal scientist, see 21345

Occupation 21319 Other biologists, botanists, zoologists and related professionals

This group includes biologists, botanists, zoologists and related professionals not elsewhere classified.

Example(s) of job classified under this code:

- Botanist
- Limnologist
- Microbiologist

Example(s) of job not classified under this code:

- Biologist, see 21311
- Soil scientist, see 21329
- Plant geneticist, see 21329

Unit Group 2132 Farming, Forestry and Fishery Advisers

Farming, forestry and fishery advisers study and provide assistance and advice on farm, forestry and fishery management, including cultivation, fertilisation, harvesting, soil erosion and composition, disease prevention, nutrition, crop rotation and marketing. They develop techniques for increasing productivity, and study and develop plans and policies for land and fishery management.

Tasks include:

- collecting and analysing data and samples related to produce, feed soil, water quality and other production options
- advising on techniques for improving the production of crops, livestock and fish, and alternative production options
- advising on livestock and crop disease, control of pests and weeds, soil improvement, animal husbandry and feeding programmes
- studying the environmental factors affecting commercial crop production, pasture growth, animal breeding, fish stocks and the growth and health of forest trees
- studying the effects of cultivation techniques, soils, insects, diseases and fisheries' practices on animal, crop, forestry and fisheries' yield
- studying fish migration, growth, feeding and spawning and devising methods of collecting fertilising, incubating and hatching fish eggs
- researching into characteristics, use capability and productivity of soils and applying findings to development of improved agricultural, horticultural and forestry practices
- developing procedures and techniques for solving agricultural problems and improving the efficiency of production
- managing forest and fisheries' resources to maximise their long-term commercial, recreational and environmental benefits
- studying the propagation and culture of forest trees, methods for improving the growth of stock, and the effects of thinning on forest yields
- investigating, planning and implementing management procedures to cope with the effects of fires, floods, droughts, soil erosion, pests and diseases
- preparing scientific reports and conducting advisory information sessions and lectures for farming, forestry and fishing communities and other groups

Occupation(s) in this Unit Group:

- 21321 Horticulturist/Arborist
- 21329 Other farming, forestry and fishery advisers

Occupation 21321 Horticulturist/Arborist

Horticulturalist/Arborist conducts research into horticultural crops and develops new and improved production methods. He/she performs experiments to improve plant growth, resistance to diseases and insect pests, adaptability to different soils or climates, yields, quality of harvest, etc. He/she studies planting, cultivating and harvesting methods and effects of rotation, drainage, irrigation and climatic conditions and develops improved methods of storage, transportation and processing of horticultural products. He/she advises farmers on selection of horticultural crops and methods of production.

Example(s) of job classified under this code:

- Arboricultural consultant

Example(s) of job not classified under this code:

- Agronomist, see 21329
- Horticultural technical officer, see 31421

Occupation 21329 Other farming, forestry and fishery advisers

This group includes farming, forestry and fishery advisers not elsewhere classified.

Example(s) of job classified under this code:

- Agronomist
- Soil scientist
- Forestry adviser
- Plant biotechnologist
- Urban forester

Example(s) of job not classified under this code:

- Botanist, see 21319

- Soil botanist, see 21319

Unit Group 2133 Environmental Protection and Related Professionals

Environmental protection and related professionals study and assess the effects on the environment of human activity such as air, water and noise pollution, soil contamination, climate change, toxic waste and depletion and degradation of natural resources. They develop plans and solutions to protect, conserve, restore, minimise and prevent further damage to the environment.

Tasks include:

- conducting research, performing tests, collecting samples, performing field and laboratory analysis to identify sources of environmental problems and recommending ways to prevent, control and remediate the impact of environmental problems
- assessing the likely impact that potential or proposed activities, projects and developments may have on the environment, and recommending whether such developments should proceed
- developing and coordinating the implementation of environmental management systems to enable organisations to identify, monitor and control the impact of their activities, products and services on the environment

- conducting audits to evaluate environmental impact of existing activities, processes, wastes, noise and substances
- assessing an organisation's compliance with government and internal environmental regulations and guidelines, identifying violations and determining appropriate remedial action
- providing technical advice and support services to organisations on how best to deal with environmental problems in order to reduce environmental damage and minimise financial loss
- developing environmental and resource conservation plans

Occupation(s) in this Unit Group:

- 21331 Environmental officer (environmental protection)
- 21332 Environment research scientist (e.g. ecologist)
- 21339 Other environmental protection and related professionals

Occupation 21331 Environmental officer (environmental protection)

Environmental officer (environmental protection) identifies, assesses and advises on ways to prevent, control and remediate the impact of environmental problems. He/she formulates environmental protection policies and procedures and implements advanced environmental protection policies and procedures. He/she reviews environmentally friendly trends in industry for implementation and develops measures to enhance organisational awareness of environmental protection.

Example(s) of job classified under this code:

- Environmental auditor
- Environmental impact analyst

Example(s) of job not classified under this code:

- Environmental engineer, see 21430
- Occupational health professional, see 22631
- Environmental officer (environmental public health), see 22632
- Environmental health inspector, see 32571

Occupation 21332 Environment research scientist (e.g. ecologist)

Environment research scientist conducts research or performs investigations for the purpose of identifying, abating, or eliminating sources of pollutants or hazards that affect either the environment or public health. He/she uses knowledge of various scientific disciplines and may collect, synthesise, study, report, and recommend action based on data derived from measurements or observations of air, food, soil, water, and other sources.

Example(s) of job classified under this code:

- Conservationist scientist
- Environmental toxicologist

Example(s) of job not classified under this code:

- Biologist, see 21311
- Toxicologist, see 21341

Occupation 21339 Other environmental protection and related professionals

This group includes environmental protection and related professionals not elsewhere classified.

Example(s) of job classified under this code:

- Conservation officer
- Water quality analyst
- Sustainability specialist

Example(s) of job not classified under this code:

- Atmospheric scientist, see 21120

Unit Group 2134 Pharmacologists and Related Professionals

Pharmacologists and related professionals study the structure, composition, and life processes of humans, animals and micro-organisms and apply this knowledge to prevent disease in humans and animals, promote health and physical fitness and develop animals for economic exploitation. They work in diverse fields such as anatomy, genetics, pharmacology, physiology, bacteriology and virology.

Tasks include:

- undertaking research in laboratories and in the field to increase scientific knowledge of living organisms
- designing and conducting experiments and tests to discover new information to solve problems in areas such as the environment, agriculture and health, and to develop new products, processes and techniques for pharmaceutical, agricultural and environmental use
- gathering human, animal, insect and plant specimens and data, and studying their origin, development, chemical and physical form, structure, composition, and life and reproductive processes
- examining living organisms using a variety of specialised equipment, instruments, technologies and techniques such as electron microscopes, telemetry, global positioning systems, biotechnology, satellite imaging, genetic engineering, digital imaging analysis, polymerase chain reaction and computer modelling

- writing scientific papers and reports detailing research and new findings which are then made available to the scientific community in scientific journals or at conferences for scrutiny and further debate
- designing and carrying out environmental impact assessments to identify changes caused by natural or human factors
- providing advice to governments, organisations and businesses in areas such as conservation, management of natural resources, the effects of climate change and pollution
- assisting researchers in their conduct and implementation of clinical research projects
- performing monitoring activities in accordance with standard operating procedures (sop), which include investigator/site selection as well as management and coordination of site related activities
- developing systems to track projects including all study, investigator and ethical review board information, patient recruitment activity and financial management

Occupation(s) in this Unit Group:

- 21341 Pharmacologist
- 21342 Medical laboratory scientist
- 21343 Biochemist
- 21344 Physiologist
- 21345 Animal scientist
- 21346 Medical scientist
- 21347 Clinical research professional
- 21349 Other pharmacologists and related professionals

Occupation 21341 Pharmacologist

Pharmacologist conducts research into effects of drugs and other substances on humans and animals, and develops new and improved medicinal drugs. He/she performs experiments, tests and analyses to determine effects of drugs and other substances on human tissues, organs, metabolism, cell growth and reproduction, circulation, respiration, digestion and other life processes. He/she may collaborate with medical doctors and pharmacists in the testing of drugs on human beings and standardise drug dosages for treatment of illnesses. He/she may collaborate with industrial pharmacists in development of drugs and standardisation of production methods and drug potency.

Example(s) of job classified under this code:

- Pharmacology research analyst
- Toxicologist

Example(s) of job not classified under this code:

- Food toxicologist, see 21130
- Biologist, see 21311
- Environmental toxicologist, see 21332
- Pharmacist, see 22621

Occupation 21342 Medical laboratory scientist

Medical laboratory scientist performs clinical tests on bodily fluids and tissues to obtain information about the health status of a patient or cause of death. He/she operates, calibrates and maintains equipment used in analysis, such as mass spectrophotometers and automated analysers. He/she establishes, monitors and reviews quality management programmes to ensure the accuracy of laboratory results. He/she develops, standardises, modifies and evaluates procedures, techniques and tests used in the analysis of specimens. He/she cultures, isolates and identifies micro-organisms and viruses.

Example(s) of job classified under this code:

- Epidemiologist

Occupation 21343 Biochemist

Biochemist conducts research into chemical composition processes of living organisms to increase scientific knowledge and develop industrial, medical and other practical applications. He/she performs experiments, tests and analyses to determine chemical composition of living organisms, chemistry of their vital processes such as breathing, digestion, growth and aging, chemical action of foods, drugs, serums, hormones and other substances on their tissues and vital processes, chemical aspects of formation of antibodies in the blood, and other biochemical phenomena. He/she develops new or improved applications of biochemistry in industry, medicine, public health and other fields.

Example(s) of job classified under this code:

- Biochemistry technologist
- Biochemistry research scientist

Example(s) of job not classified under this code:

- Chemist, see 21130
- Biologist, see 21311
- Biochemical engineer, see 21451
- Biomedical engineer, see 21491

Occupation 21344 Physiologist

Physiologist conducts research into biological functions and activities of human organisms to increase scientific knowledge and develop practical applications in medical and related fields. He/she studies functions and working of the brain, nervous system, sensory organs, glands, respiratory and blood circulation systems and other life processes of the human organism and investigates reactions of life processes and functions to changes in altitude, noise levels, motion, light intensity, temperature, humidity and other environmental factors. He/she applies scientific knowledge to problems of physical fitness, nutrition, human endurance and similar matters.

Example(s) of job classified under this code:

- Clinical physiologist
- Exercise physiologist
- Immunologist

Example(s) of job not classified under this code:

- Neurosurgeon, see 22134
- Sports physician, see 22150

Notes:

Clinical physiologists who participate in diagnosis of patients through various testing methods and do not engage in practice are classified in this unit group. Those who undertake clinical practice are classified in Minor Group 221 'Medical Doctors'.

Occupation 21345 Animal scientist

Animal scientist conducts research into animal genetics, advanced animal husbandry methods and related matters and applies scientific knowledge to develop improved strains, improved methods of raising animals and higher yields of animal products. He/she conducts experiments to ascertain feed, housing, sanitation and other requirements for production of meat or other animal products of desired quality and for maintenance of health and strength of animals. He/she also develops improved methods of controlling animal parasites and diseases, slaughtering for meat and preparation and storage of animal products.

Example(s) of job classified under this code:

- Animal geneticist

Example(s) of job not classified under this code:

- Zoologist, see 21312

Occupation 21346 Medical scientist

Medical scientist conducts research dealing with the understanding of human diseases and the improvement of human health. He/she engages in clinical investigation, research and development, or other related activities to develop new treatment options, drugs and vaccines.

Example(s) of job classified under this code:

- Medical geneticist

Example(s) of job not classified under this code:

- Medical physicist, see 21110
- Clinical engineer (biomedical), see 21491

Notes:

Physicians, dentists, public health specialists, pharmacologists, and medical pathologists who primarily conduct medical research are classified in this occupation, rather than in their respective occupations in Sub-major Group 22 'Health Professionals' and others classified in a number of occupations in Major Group 2 'Professionals'.

Occupation 21347 Clinical research professional

Clinical research professional plans, directs and coordinates clinical research projects. He/she directs the activities of workers engaged in clinical research projects to ensure compliance with protocols and overall clinical objectives. He/she may evaluate and analyse clinical data.

Example(s) of job not classified under this code:

- Clinical engineer (biomedical), see 21491
- Clinical research coordinator, see 31412

Occupation 21349 Other pharmacologists and related professionals

This group includes pharmacologists and related professionals not elsewhere classified.

Example(s) of job classified under this code:

- Anatomist
- Bacteriologist

MINOR GROUP 214 ENGINEERING PROFESSIONALS I

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2141 Industrial and Production Engineers

- 2142 Civil Engineers
- 2143 Environmental Engineers
- 2144 Mechanical Engineers (Excluding Transport and Vehicle Engineers)
- 2145 Chemical Engineers
- 2146 Mining Engineers, Metallurgists and Related Professionals
- 2147 Transport and Vehicle Engineers
- 2149 Engineering Professionals Not Elsewhere Classified

Unit Group 2141 Industrial and Production Engineers

Industrial and production engineers conduct research and design, organise and oversee the construction, operation and maintenance of process plant and installations. They establish programmes for the coordination of manufacturing activities, and assess cost effectiveness and safety.

Tasks include:

- studying functional statements, organisational charts and project information to determine functions and responsibilities of workers and work units and to identify areas of duplication
- establishing work measurement programmes and analysing work samples to develop standards for labour utilisation
- analysing workforce utilisation, facility layout, operational data and production schedules and costs to determine optimum worker and equipment efficiencies
- developing specifications for manufacture, and determining materials, equipment, piping, material flows, capacities and layout of plant and systems
- organising and managing project labour and the delivery of materials, plant and equipment
- establishing standards and policies for installation, modification, quality control, testing, inspection and maintenance according to engineering principles and safety regulations
- inspecting plant to improve and maintain performance
- directing the maintenance of plant buildings and equipment, and coordinating the requirements for new designs, surveys and maintenance schedules
- advising management on new production methods, techniques and equipment
- liaising with materials buying, storing and controlling departments to ensure a steady flow of supplies

Occupation(s) in this Unit Group:

- 21411 Manufacturing engineer
- 21412 Production engineer
- 21413 Automation engineer (including robotics engineer)

- 21414 Quality control/assurance engineer
- 21415 Process engineer

Occupation 21411 Manufacturing engineer

Manufacturing engineer applies engineering principles and techniques to design, develop and manage manufacturing processes. He/she studies and advises on the production processes and makes recommendations to promote efficiency and supervises their implementation. He/she consults with management and supervisory personnel to ascertain production objectives and to identify problems, study existing or proposed organisation, processes and procedures, including product design, plant layout, machine utilisation, materials handling, work allocation, cost accounting, inspection and quality control.

Example(s) of job classified under this code:

- Manufacturing engineering consultant
- Manufacturing applications engineer

Example(s) of job not classified under this code:

- Manufacturing production manager, see 13210
- Production engineer, see 21412
- Industrial safety engineer, see 21493
- Process engineer, see 21415
- Manufacturing engineering technician, see 31171

Occupation 21412 Production engineer

Production engineer reviews and evaluates production performance, performs data analysis and identifies under-performing production systems. He/she analyses workforce utilisation, facility layout, operational data and production schedules and costs to determine optimum worker and equipment efficiencies, and plans production enhancements and process optimisations. He/she prepares production plans, taking account of sequence and timing of each operation, tool and material requirements, machine loads, manpower and other factors. He/she may plan and program work flow for each production line to be consistent with established manufacturing sequences.

Example(s) of job classified under this code:

- Production engineering adviser
- Organisation and methods engineer

Example(s) of job not classified under this code:

- Industrial production manager, see 13210

- Manufacturing engineer, see 21411
- Process engineer, see 21415
- Production engineering technician, see 31172

Occupation 21413 Automation engineer (including robotics engineer)

Automation engineer researches, designs, and develops applications and systems for the automation of the production process. He/she implements technology and integrates various systems such as for software automation, factory automation, process automation, warehousing and logistics automation to reduce human input and shorten process time to increase productivity.

Example(s) of job classified under this code:

- Autonomous systems engineer
- Automated systems engineer

Example(s) of job not classified under this code:

- Automation designer, see 31174
- Automation technician, see 31174

Occupation 21414 Quality control/assurance engineer

Quality control/assurance engineer establishes standards and policies to ensure the production and maintenance processes and manufactured products meet regulatory and customer requirements. He/she conducts internal or external quality audits and investigates work-induced defects. He/she performs root cause and corrective action analysis and monitors the implementation of preventive actions.

Example(s) of job not classified under this code:

- Quality assurance technician, see 31175

Occupation 21415 Process engineer

Process engineer applies engineering principles and techniques to optimise the production processes in a manufacturing environment to meet organisational objectives. He/she analyses and troubleshoots process engineering, manufacturing and/or maintenance issues and recommends engineering solutions, and develops work instructions for 'out of control' processes. He/she leads production and manufacturing systems improvement projects, and develops operation plans in accordance with organisational objectives. He/she also ensures compliance with Workplace Safety and Health, and other relevant regulatory requirements.

Example(s) of job classified under this code:

- Chemical process engineer
- Process engineering expert
- Process technology engineer
- Process engineer (electronic)

Example(s) of job not classified under this code:

- Manufacturing engineer, see 21411
- Production engineer, see 21412

Unit Group 2142 Civil Engineers

Civil engineers conduct research, advise on, design, and direct construction, manage the operation and maintenance of civil engineering structures or study and advise on technological aspects of particular materials.

Tasks include:

- conducting research and developing new or improved theories and methods related to civil engineering
- advising on and designing structures such as bridges, dams, docks, roads, airports, railways, canals, pipelines, waste-disposal and flood-control systems, and industrial and other large buildings
- determining and specifying construction methods, materials and quality standards, and directing construction work
- establishing control systems to ensure efficient functioning of structures as well as safety and environmental protection
- organising and directing maintenance and repair of existing civil engineering structures
- analysing the behaviour of soil and rock when placed under pressure by proposed structures and designing structural foundations
- analysing the stability of structures and testing the behaviour and durability of materials used in their construction

Occupation(s) in this Unit Group:

- 21421 Civil engineer
- 21422 Building construction engineer

Occupation 21421 Civil engineer

Civil engineer conducts research, designs, plans and oversees construction and maintenance activities on structures and facilities such as bridges, roads, airports, railways, pipelines and industrial and other large buildings. He/she establishes control systems to ensure efficient

functioning of structures as well as safety and environmental protection. He/she organises and directs maintenance and repair of existing civil engineering structures. He/she may analyse the stability of structures, collect and test samples to study the behaviour of soil, rock or construction materials under proposed design parameters.

Example(s) of job classified under this code:

- Geotechnical engineer
- Rail track engineer
- Structural steel engineer
- Soil mechanics engineer

Example(s) of job not classified under this code:

- Stratigrapher, see 21141
- Soil scientist, see 21329
- Building materials engineer, see 21492

Occupation 21422 Building construction engineer

Building construction engineer determines and specifies construction methods, materials and quality standards, and directs construction work. He/she integrates engineering principles into designs of large buildings to ensure that structures are safe and structurally sound. He/she also plans, organises and supervises the erection, maintenance and repair of buildings. He/she works together with architects and other engineers to transform design ideas into executable plans.

Example(s) of job classified under this code:

- Structural engineer (buildings)
- Architectural engineer
- Civil construction project engineer

Example(s) of job not classified under this code:

- Construction project cost consultant, see 21494
- Building architect, see 21610
- Town planner, see 21641

Unit Group 2143 Environmental Engineers

Environmental engineers conduct research, advise on, design and direct implementation of solutions to prevent, control or remedy negative impacts of human activity on the environment utilising a variety of engineering disciplines. They conduct environmental assessments of construction and civil

engineering projects and apply engineering principles to pollution control, recycling and waste disposal.

Tasks include:

- conducting research, assessing and reporting on the environmental impact of existing and proposed construction, civil engineering and other activities
- inspecting industrial and municipal facilities and programmes to evaluate operational effectiveness and ensure compliance with environmental regulations
- designing and overseeing the development of systems, processes and equipment for control, management, or remediation of water, air, or soil quality
- obtaining, updating, and maintaining plans, permits, and standard operating procedures
- providing engineering and technical support for environmental remediation and litigation projects, including remediation system design and determination of regulatory applicability
- monitoring progress of environmental improvement programmes
- advising corporations and government agencies of procedures to follow in cleaning up contaminated sites to protect people and the environment
- collaborating with environmental scientists, planners, hazardous waste technicians, engineers from other disciplines, and specialists in law and business to address environmental problems

Occupation(s) in this Unit Group:

- 21430 Environmental engineer

Occupation 21430 Environmental engineer

Environmental engineer conducts research, advises on, designs and directs implementation of solutions to prevent, control or remedy negative impacts of human activity on the environment utilising a variety of engineering disciplines. He/she conducts environmental assessments of construction and civil engineering projects and applies engineering principles to pollution control, recycling and waste disposal.

Example(s) of job classified under this code:

- Air pollution control engineer
- Waste management engineer
- Sanitary engineer

Example(s) of job not classified under this code:

- Environmental officer (environmental protection), see 21331
- Water quality analyst, see 21339
- Industrial safety engineer, see 21493

- Environmental officer (environmental public health), see 22632

Unit Group 2144 Mechanical Engineers (Excluding Transport and Vehicle Engineers)

Mechanical engineers (excluding transport and vehicle engineers) conduct research, advise on, design, and direct production, functioning, maintenance and repair of machines, machinery and industrial plant, equipment and systems. They also study and advise on mechanical aspects of particular materials, products or processes.

Tasks include:

- advising on and designing machinery and tools for manufacturing, mining, construction, agricultural, and other industrial purposes
- advising on and designing superstructures and propulsion systems of mechanical plant and equipment for the release, control and utilisation of energy, heating, ventilation and refrigeration systems, steering gear, pumps, and other mechanical equipment
- advising on and designing non-electrical parts of apparatus or products such as word processors, computers, precision instruments, cameras and projectors
- establishing control standards and procedures to ensure efficient functioning and safety of machines, machinery, tools, motors, engines, industrial plant, equipment, or systems
- ensuring that equipment, operation and maintenance comply with design specifications and safety standards

Occupation(s) in this Unit Group:

- 21441 Mechanical engineer
- 21442 Industrial machinery and tools engineer
- 21443 Air-conditioning/Refrigeration engineer
- 21444 Port equipment engineer

Occupation 21441 Mechanical engineer

Mechanical engineer carries out research on, designs and advises on mechanically functioning plant and equipment, and plans and supervises their development, manufacture, construction, installation, operation, maintenance and repair. He/she studies operating requirements for mechanically functioning plant and equipment such as machine tools, engines, vehicles, heating, ventilating and refrigerating plant, as well as plant and equipment for the release.

Example(s) of job classified under this code:

- Fuel cell engineer
- Gas turbine engineer
- Internal combustion motor engineer

Occupation 21442 Industrial machinery and tools engineer

Industrial machinery and tools engineer studies, designs and advises on machinery and tools for manufacturing, mining, construction, agricultural work, printing and other industrial purposes. He/she plans and supervises their development, manufacture, installation, operation, maintenance and repair.

Example(s) of job classified under this code:

- Tool design engineer
- Mechanical equipment design engineer

Example(s) of job not classified under this code:

- Commercial products designer, see 21632
- Tool designer, see 31153

Occupation 21443 Air-conditioning/Refrigeration engineer

Air-conditioning/Refrigeration engineer studies, designs and advises on heating, ventilation and refrigeration systems and equipment, and plans and supervises their development, manufacture, installation, maintenance and repair. He/she specialises in systems and equipment for heating, ventilating and air-conditioning industrial structures and commercial, residential and other buildings, and for making ice and cooling storage places, including ships' cargo holds.

Example(s) of job classified under this code:

- Air-conditioning and mechanical ventilation (ACMV) service engineer

Occupation 21444 Port equipment engineer

Port equipment engineer develops and oversees maintenance regimes for port equipment. He/she ensures that maintenance works are carried out swiftly and in accordance with regulatory requirements to minimise disruptions to port operations. He/she also reviews the relevance and functionality of port equipment to meet changing business demands, and researches on ways to improve operational, safety and environmental standards.

Unit Group 2145 Chemical Engineers

Chemical engineers conduct research and develop, advise on and direct commercial-scale chemical processes and production of various substances and items such as crude oil, petroleum derivatives, food and drink products, medicines, or synthetic materials. They direct maintenance and repair of chemical plant and equipment and study and advise on chemical aspects of particular materials, products or processes.

Tasks include:

- conducting research and advising on, and developing commercial-scale chemical processes to refine crude oil and other liquids or gases, and to produce substances and items such as petroleum derivatives, explosives, food and drink products, medicines or synthetic materials
- specifying chemical production methods, materials and quality standards and ensuring that they conform to specifications
- establishing control standards and procedures to ensure safety and efficiency of chemical production operations and safety of workers operating equipment or working in close proximity to on-going chemical reactions
- designing chemical plant equipment and devising processes for manufacturing chemicals and products
- performing tests throughout stages of production to determine degree of control over variables, including temperature, density, specific gravity, and pressure
- developing safety procedures to be employed
- preparing estimates of production costs and production progress reports for management
- performing laboratory studies of steps in manufacture of new products and testing proposed processes in small scale operations such as a pilot plant

Occupation(s) in this Unit Group:

- 21451 Chemical engineer
- 21452 Chemical engineer (petroleum)
- 21453 Chemical engineer (petrochemicals)
- 21454 Food and drink technologist

Occupation 21451 Chemical engineer

Chemical engineer studies, develops and advises on processes for producing on a commercial scale the chemical or physical transformation of substances, as in the manufacture of chemicals, metals, food products and synthetic materials. He/she designs and develops chemical manufacturing processes and specifies the sequence of physical transformation operations such as heating, mixing, distilling, filtering and chemical processing such as hydrolysis, oxidation, fermentation, electrolysis and polymerisation. He/she develops and implements quality control procedures to inspect and test raw materials and products to ensure compliance with specifications and safety standards.

Example(s) of job classified under this code:

- Biochemical engineer
- Pharmaceutical engineer
- Plastics engineer

Example(s) of job not classified under this code:

- Chemist, see 21130
- Biochemist, see 21343
- Petrochemicals engineer (plastics), see 21453

Occupation 21452 Chemical engineer (petroleum)

Chemical engineer (petroleum) studies, develops and advises on processes for the refining of crude oil, designs appropriate plant and plans and supervises its construction, operation, maintenance and repair. He/she specialises in the refining of crude oil (petroleum) and the production of derivatives such as petrol and paraffin fuels and lubricating oils and greases.

Example(s) of job classified under this code:

- Petroleum refining engineer
- Biofuel engineer

Example(s) of job not classified under this code:

- Petroleum chemist, see 21130
- Petroleum and natural gas engineer, see 21460

Occupation 21453 Chemical engineer (petrochemicals)

Chemical engineer (petrochemicals) studies, develops and advises on processes for breaking down crude oil and petroleum, and processes that use the base components and derivative products to develop everyday products such as plastics, rubber and synthetic fibres. He/she also deals with applied research and development and other technical roles in the plant or refinery.

Example(s) of job classified under this code:

- Petrochemicals engineer (polymer)

Occupation 21454 Food and drink technologist

Food and drink technologist engages in research into the manufacture and processing of food and drink, the development of new and improved processes and the design of associated plant and machinery. He/she analyses raw materials, selects required mixtures for type of product, determines grinding, mixing, cooking, fermentation, dehydration and other processing specifications and tests foodstuffs and beverages during and at completion of processing or manufacture to ensure compliance with specifications concerning flavour, colouring consistency and other characteristics.

Example(s) of job classified under this code:

- Food technology advisor

- Research and development chef

Example(s) of job not classified under this code:

- Food chemist, see 21130
- Food technician, see 31164

Unit Group 2146 Mining Engineers, Metallurgists and Related Professionals

Mining engineers, metallurgists and related professionals conduct research on, design, develop and maintain commercial-scale methods of extracting metals from their ores, or minerals, water, oil or gas from the earth and of developing new alloys, ceramic and other materials, or study and advise on mining or metallurgical aspects of particular materials, products or processes.

Tasks include:

- determining the location and planning the extraction of coal, metallic ores, non-metallic minerals, and building materials, such as stone and gravel
- determining the most suitable methods of efficient mining and extraction, types of machinery to be used, planning layout and directing construction of shafts and tunnels
- determining drilling site and devising methods of controlling the flow of water, oil or gas from wells
- planning and directing storage, initial treatment and transportation of water, oil or gas
- conducting research, developing methods of extracting metals from their ores and advising on their application
- investigating properties of metals and alloys, developing new alloys and advising on and supervising technical aspects of metal and alloy manufacture and processing
- maintaining technical liaison and consultancy with other relevant specialists such as geologists and geophysicists
- examining deposits or mines to evaluate profitability

Occupation(s) in this Unit Group:

- 21460 Mining engineer, metallurgist and related professional

Occupation 21460 Mining engineer, metallurgist and related professional

Mining engineer, metallurgist and related professional conducts research on, designs, develops and maintains commercial-scale methods of extracting metals from their ores, or minerals, water, oil or gas from the earth and of developing new alloys, ceramic and other materials, or studies and advises on mining or metallurgical aspects of particular materials, products or processes. He/she determines operating parameters such as temperatures, pressures and other variable factors in extractive processes to ensure products are of required quality in commercial quantities.

Example(s) of job classified under this code:

- Offshore drilling engineer
- Assayer
- Non-metalliferous mining engineer

Example(s) of job not classified under this code:

- Metallurgical chemist, see 21130
- Geologist, see 21141
- Mineralogist, see 21149
- Petroleum refining engineer, see 21452
- Metallographer, see 21492

Unit Group 2147 Transport and Vehicle Engineers

Transport and vehicle engineers conduct research, advise on, design, and direct production, functioning, maintenance and repair of transport equipment. They also study and advise on mechanical aspects of transport equipment.

Tasks include:

- advising on and designing machinery for transport purposes
- advising on and designing steam, internal combustion and other non-electric motors and engines used for propulsion of railway locomotives, road vehicles or aircraft
- advising on and designing hulls, superstructures and propulsion systems of ships and transport equipment for the release, control and utilisation of energy, heating, ventilation and refrigeration systems, steering gear, pumps, and other mechanical equipment
- advising on and designing airframes, undercarriages and other equipment for aircraft as well as suspension systems, brakes, vehicle bodies and other components of road vehicles

Occupation(s) in this Unit Group:

- 21471 Aeronautical engineer
- 21472 Automotive engineer
- 21473 Marine engineer
- 21474 Naval architect
- 21475 Rolling stock engineer

Occupation 21471 Aeronautical engineer

Aeronautical engineer studies, designs and advises on airframes, undercarriages and other equipment for aircraft, and consults with aero-engine specialists to coordinate design of aircraft. He/she plans and supervises aircrafts' development, construction, maintenance and repair. He/she may specialise in particular type of aircraft, such as helicopters or cargo, passenger or military aircraft.

Example(s) of job classified under this code:

- Aerodynamics engineer
- Aircraft designer

Occupation 21472 Automotive engineer

Automotive engineer designs and oversees the manufacturing process and operation of motor vehicles such as motorcycles, cars, trucks, buses and their respective engineering systems such as suspension systems, brakes and other components. He/she designs new vehicles or mechanical parts, supervises modifications, resolves technical problems, and ensures that the designs comply with cost specifications and other constraints. He/she also conducts research studying environmental, energy and safety aspects with regards to motor vehicle design.

Example(s) of job classified under this code:

- Mechanical engineer (automotive)
- Bus fleet engineer

Occupation 21473 Marine engineer

Marine engineer studies, designs and advises on ships' propulsion systems, power plants, heating and ventilating systems, steering gear, pumps and other mechanical and electrical equipment, and plans and supervises their development, construction, installation, maintenance and repair.

Example(s) of job classified under this code:

- Marine repair engineer (shore-based)

Example(s) of job not classified under this code:

- Marine engineer officer, see 31510

Occupation 21474 Naval architect

Naval architect studies, designs and advises on the hulls and super-structures of ships and other vessels, and consults with marine engineer to coordinate design of vessel. He/she plans

and supervises vessels' development, construction, maintenance and repair. He/she may specialise in particular type of vessels such as warships, cargo ships or passenger liners.

Example(s) of job classified under this code:

- Ship construction engineer
- Marine structural designer

Occupation 21475 Rolling stock engineer

Rolling stock engineer oversees and performs routine maintenance duties to ensure that trains are in working condition and meet quality and safety standards. He/she may design and oversee the manufacturing process and installation of rail vehicles, including locomotives, carriages, wagons and multiple units. He/she may also design new trains and electrical or mechanical parts, supervise modifications and resolve technical problems.

Example(s) of job classified under this code:

- Railway vehicle engineer

Unit Group 2149 Engineering Professionals Not Elsewhere Classified

This unit group covers engineers and related professionals not classified elsewhere in Minor Groups 214 and 215 'Engineering Professionals'. This group includes, for instance, those who conduct research, advise on or develop engineering procedures and solutions concerning workplace safety, biomedical engineering, optics, materials, nuclear power generation and explosives.

Tasks include:

- applying knowledge of engineering to the design, development, and evaluation of biological and health systems and products, such as artificial organs, prostheses, and instrumentation
- designing devices used in various medical procedures, imaging systems such as magnetic resonance imaging (MRI), and devices for automating insulin injections or controlling body functions
- designing components of optical instruments such as lenses, microscopes, telescopes, lasers, optical disc systems and other equipment that utilise the properties of light
- designing, testing, and coordinating the development of explosive ordnance material to meet military procurement specifications
- designing and overseeing construction and operation of nuclear reactors and power plants and nuclear fuels reprocessing and reclamation systems
- designing and developing nuclear equipment such as reactor cores, radiation shielding, and associated instrumentation and control mechanisms
- assessing damage and providing calculations for marine salvage operations

- studying and advising on engineering aspects of particular manufacturing processes, such as those related to glass, ceramics, textiles, leather products, wood, and printing
- providing security audit, review and security risk assessment services to clients and recommending security solutions/designs to existing and new structural development projects (public and private facilities)
- developing and conducting security training
- developing and implementing energy management practices in corporations ensuring compliance to regulatory requirements
- purchasing of technical goods and services, evaluating and negotiating with suppliers

Occupation(s) in this Unit Group:

- 21491 Biomedical engineer
- 21492 Materials engineer
- 21493 Industrial safety engineer
- 21494 Quantity surveyor
- 21495 Intellectual property engineer
- 21496 Energy engineer
- 21497 Optical engineer (including laser engineer)
- 21498 Procurement engineer
- 21499 Other engineering professionals n.e.c.

Occupation 21491 Biomedical engineer

Biomedical engineer applies knowledge of engineering, biology, and biomechanical principles to the design, development, and evaluation of biological and health systems and products, such as artificial organs, prostheses, instrumentation, medical information systems, and health management and care delivery systems.

Example(s) of job classified under this code:

- Biomaterials engineer

Example(s) of job not classified under this code:

- Biochemist, see 21343
- Medical scientist, see 21346
- Clinical research professional, see 21347
- Materials engineer, see 21492

Notes:

While biomedical engineer is classified in this occupation, biomedical engineer is considered to be an integral part of the health workforce alongside those occupations classified in Sub-Major Group 22 'Health Professionals', and others classified in a number of other unit groups in Major Group 2 'Professionals'.

Occupation 21492 Materials engineer

Materials engineer researches and designs new or improved materials for a diverse number of applications. He/she analyses the composition of materials, conducts experiments, and develops new materials for industry-specific use that can range from rubber, to textiles, glass, metals, and chemicals. He/she also advises companies in damage assessments, quality assurance of materials, and recycling of materials.

Example(s) of job classified under this code:

- Welding engineer

Example(s) of job not classified under this code:

- Civil engineer, see 21421
- Metallurgist, see 21460
- Biomaterials engineer, see 21491

Occupation 21493 Industrial safety engineer

Industrial safety engineer maintains the workplace safety system of an organisation. He/she manages and reviews workplace safety policies, standards, procedures in accordance with business needs. He/she inspects workplaces and industrial plants for hazards, proposes means of preventing or reducing industrial accidents and diseases, and designs safety devices. He/she examines the plans and specifications of new premises, plant and equipment to ensure that adequate precautions have been taken to avoid hazards. He/she may also investigate causes of accidents and introduce measures to prevent their reoccurrence and plans, organises and carries out educational programmes on accident prevention.

Example(s) of job classified under this code:

- Workplace safety and health manager

Example(s) of job not classified under this code:

- Manufacturing engineer, see 21411
- Fire and safety officer, see 31711
- Health, safety and environmental (HSE) officer, see 32572

Occupation 21494 Quantity surveyor

Quantity surveyor estimates quantities and costs of building materials and labour required and prepares bills of quantities. He/she visits the site periodically to estimate the value of work completed prior to issuing certificates for interim payments to the contractor and examines the completed project, makes measurements and calculations, adjusts any variations from the original contract and assesses the final cost. He/she may analyse comparative advantages and estimate costs of using different methods of construction or different materials and may also assist with tender preparation and submission and prepare or check final accounts.

Example(s) of job not classified under this code:

- Building construction project engineer, see 21422
- Cadastral surveyor, see 21651
- Quantity surveying technician, see 31294

Occupation 21495 Intellectual property engineer

Intellectual property engineer supports the preparation of intellectual property (IP) applications, reviews technical specifications and documents to ensure compliance with IP strategies and policies, contracts drafting and negotiation. He/she also handles the administrative and operational requirements of the IP applications, performs budget review and assists in IP portfolio docket management, identifying potential infringements of the organisation's IP.

Example(s) of job classified under this code:

- Patent analyst
- Patent researcher
- Intellectual property executive

Example(s) of job not classified under this code:

- Glass chemist, see 21130
- Intellectual property information analyst, see 21212
- Intellectual property strategist, see 12132

Occupation 21496 Energy engineer

Energy engineer coordinates the energy demands and use in an organisation, and aims to implement policies for increased sustainability, and minimisation of cost and environmental impact. He/she monitors, analyses and reports corporations and its industrial premises' energy use and carbon emissions, conducts detailed energy audits on energy-consuming systems and ensures the corporation's compliance with regulatory requirements on energy

management practices in industrial premises. He/she also researches on, develops, recommends and implements energy/carbon efficiency improvement and energy/carbon reduction measures and energy management systems within the corporation. He/she may advise on demand management of energy usage.

Example(s) of job classified under this code:

- Energy auditor
- Energy systems engineer

Example(s) of job not classified under this code:

- Electric power engineer, see 21512

Occupation 21497 Optical engineer (including laser engineer)

Optical engineer designs and develops different industrial applications with optics. He/she applies knowledge of light, light transmission principles, and optics to design engineering specs of equipment such as microscopes, lenses, telescopes, lasers and other optical devices.

Example(s) of job classified under this code:

- Photonics engineer

Example(s) of job not classified under this code:

- Optics physicist, see 21110

Occupation 21498 Procurement engineer

Procurement engineer oversees the purchase of technical goods and services to support engineering projects and industrial operations. He/she translates projects' technical and engineering requirements into specifications for materials, equipment and services to procure. He/she evaluates suppliers and negotiates purchase agreements with them, as well as maintaining vendor contract records and databases, and following up on vendors' deliverables.

Example(s) of job not classified under this code:

- Technical purchaser, see 33232

Occupation 21499 Other engineering professionals n.e.c.

This group includes engineering professionals not elsewhere classified.

Example(s) of job classified under this code:

- Ceramics technologist
- Logistics project engineer

- Traffic engineer

Example(s) of job not classified under this code:

- Nuclear physicist, see 21110
- Environmental engineer, see 21430
- Power generation engineer, see 21512
- Engineering surveyor, see 21659

MINOR GROUP 215 ENGINEERING PROFESSIONALS II (Con'td)

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2151 Electrical Engineers
- 2152 Electronics Engineers
- 2153 Telecommunications Engineers

Unit Group 2151 Electrical Engineers

Electrical engineers conduct research and advise on, design, and direct the construction and operation of electrical systems, components, motors and equipment, and advise on and direct their functioning, maintenance and repair, or study and advise on technological aspects of electrical engineering materials, products and processes.

Tasks include:

- advising on and designing power stations and systems which generate, transmit and distribute electrical power
- supervising, controlling and monitoring the operation of electrical generation, transmission and distribution systems
- advising on and designing systems for electrical motors, electrical traction and other equipment, or electrical domestic appliances
- specifying electrical installation and application in industrial and other buildings and objects
- establishing control standards and procedures to monitor performance and safety of electrical generating and distribution systems, motors and equipment
- determining manufacturing methods for electrical systems, as well as maintenance and repair of existing electrical systems, motors and equipment

Occupation(s) in this Unit Group:

- 21511 Electrical engineer
- 21512 Power generation and distribution engineer

- 21513 Lift engineer

Occupation 21511 Electrical engineer

Electrical engineer conducts research and advises on, designs, and directs the construction and operation of electrical systems and equipment, and plans and supervises their development, construction, installation, operation, maintenance and repair. He/she studies operating requirements for industrial and domestic electrical machinery and appliances and other electrical equipment, and engages in research and development work. He/she designs electrical systems and equipment, prepares working drawings and specifications, and supervises technical aspects of manufacturing processes.

Example(s) of job classified under this code:

- Electrical equipment engineer
- Electrical surveyor
- Signal systems engineer (electrical)

Example(s) of job not classified under this code:

- Electronics engineer, see 21521
- Telecommunications engineer, see 21532
- Electrical draughtsman, see 31182

Occupation 21512 Power generation and distribution engineer

Power generation and distribution engineer designs, develops and operates systems and facilities which generate and distribute electrical power to the consumers. He/she develops strategies for the improvement of existing electricity generation systems and researches methods for the optimisation of power distribution. He/she ensures the consumers' electrical power needs are met and also compliance to safety regulations by monitoring the automated processes in plants and directing workflow.

Example(s) of job classified under this code:

- Transmission engineer (electric power)
- Power network engineer

Example(s) of job not classified under this code:

- Energy systems engineer, see 21496
- Nuclear power engineer, see 21499

Occupation 21513 Lift engineer

Lift engineer studies, designs and advises on systems and equipment (e.g. elevators, escalators, hoists etc.) for vertical transportation of passengers and goods. He/she checks systems and equipment to ensure compliance with specifications and safety standards.

Unit Group 2152 Electronics Engineers

Electronics engineers conduct research on, design, and direct the construction functioning, maintenance and repair of electronic systems and study and advise on technological aspects of electronic engineering materials, products or processes.

Tasks include:

- advising on and designing electronic devices or components, circuits, semi-conductors, and embedded systems
- specifying production or installation methods, materials and quality standards and directing production or installation work of electronic products and embedded systems
- establishing control standards and procedures to ensure efficient functioning and safety of electronic systems, motors and equipment
- organising and directing maintenance and repair of existing electronic systems, and equipment
- designing electronic circuits and components for use in fields such as aerospace guidance and propulsion control, acoustics, or instruments and controls
- researching and advising on radar, telemetry and remote control systems, microwaves and other electronic equipment
- designing and developing signal processing algorithms and implementing these through appropriate choice of hardware and software
- developing apparatus and procedures to test electronic components, circuits and systems

Occupation(s) in this Unit Group:

- 21521 Electronics engineer
- 21522 Computer engineer
- 21523 Semi-conductor engineer
- 21524 Audio and video equipment engineer
- 21525 Instrumentation engineer
- 21526 Embedded systems engineer (including port systems engineer)

Occupation 21521 Electronics engineer

Electronics engineer researches on, designs, develops and advises on electronic devices, equipment and systems and plans and supervises their development, construction, installation, operation, maintenance and repair, and checks completed work to ensure compliance with specifications and safety standards. He/she studies operating requirements for electronic equipment in fields such as telecommunications, acoustics, instrumentation and automatic control systems and also engages in research and development work. He/she designs electronic systems and equipment, prepares working drawings and specifications, and supervises technical aspects of manufacturing processes.

Example(s) of job classified under this code:

- Electromagnetic compatibility (EMC) engineer
- Microelectronics (MEMS) engineer
- CAD-CAM engineer

Example(s) of job not classified under this code:

- Electronics physicist, see 21110
- Electrical engineer, see 21511
- Instrumentation engineer, see 21525
- Telecommunications engineer, see 21532
- Electronics draughtsman, see 31182

Occupation 21522 Computer engineer

Computer engineer researches, designs and develops computer hardware systems and components, such as circuit boards, modems, and printers. He/she draughts blueprints and assembly drawings, develops and tests the prototypes, and supervises the process of production, maintenance and repair of hardware and components.

Example(s) of job classified under this code:

- IT hardware engineer

Example(s) of job not classified under this code:

- Software engineer, see 25121

Occupation 21523 Semi-conductor engineer

Semi-conductor engineer designs and develops the layout for integrated circuits according to electronics engineering principles, using software to create design schematics and diagrams. He/she may also provide advice on aspects of semiconductor process technology and maintain and repair semiconductor process equipment.

Example(s) of job classified under this code:

- Wafer fabrication plant engineer

Occupation 21524 Audio and video equipment engineer

Audio and video equipment engineer researches on, designs and develops audio and video equipment and components. He/she may support and advise on the coordination and setup of audio and video equipment, including installation, configuration, monitoring, maintenance.

Example(s) of job classified under this code:

- Television engineer
- Audiology engineer
- Antenna engineer

Example(s) of job not classified under this code:

- Telephone engineer, see 21532

Occupation 21525 Instrumentation engineer

Instrumentation engineer designs and develops apparatus, procedures, equipment and systems used for controlling and monitoring manufacturing systems, machinery uses and production processes. He/she oversees the installation, calibration, commissioning and maintenance of these equipment and instruments and ensures compliance with relevant health and safety regulations and quality standards to support continuous manufacturing activities.

Example(s) of job classified under this code:

- Instrumentation and control engineer
- Supervisory control and data acquisition engineer

Example(s) of job not classified under this code:

- Electronics design engineer, see 21521

Occupation 21526 Embedded systems engineer (including port systems engineer)

Embedded systems engineer researches, designs, develops embedded systems to integrate into other hardware systems. He/she implements and maintains the hardware and software for the embedded platform and assists in the development of customised embedded solutions, tests and debugs the embedded software and applications. He/she also participates in design review and develops tools and techniques for testing and verifying the integration of the embedded systems into other hardware systems.

Unit Group 2153 Telecommunications Engineers

Telecommunications engineers conduct research and advise on, design, and direct the construction of the functioning, maintenance and repairs of telecommunication systems and equipment. They study and advise on technological aspects of telecommunication engineering materials, products or processes.

Tasks include:

- Advising on and designing telecommunications devices or components, systems, equipment and distribution centres
- Specifying production or installation methods, materials, quality and safety standards and directing production or installation work of telecommunications products and systems
- Organising and directing maintenance and repair of existing telecommunication systems, motors and equipment
- Researching and advising on telecommunications equipment
- Planning and designing communications networks based on wired, fibre optical and wireless communication media
- Designing telecommunications networks and radio and television distribution systems, including both cable and over the air

Occupation(s) in this Unit Group:

- 21531 Media and broadcasting engineer
- 21532 Telecommunications engineer

Occupation 21531 Media and broadcasting engineer

Media and broadcasting engineer conducts research and advises on design, and directs the construction of the functioning, maintenance and repairs of media and broadcasting infrastructure and equipment. He/she studies and advises on technological aspects of media and broadcasting engineering materials, products or processes.

Example(s) of job classified under this code:

- Broadcast engineer

Example(s) of job not classified under this code:

- Television engineer, see 21524

Occupation 21532 Telecommunications engineer

Telecommunications engineer studies, designs and advises on telecommunications systems and equipment and plans and supervises their development, construction, installation, operation, maintenance and repair. He/she plans and designs telecommunications devices or

components, systems, equipment and distribution centres and communication networks, and specifies the production or installation methods, materials, quality and safety standards.

Example(s) of job classified under this code:

- Fibre optics engineer
- Radio frequency identification device (RFID) engineer

Example(s) of job not classified under this code:

- Antenna engineer, see 21524

MINOR GROUP 216 ARCHITECTS, PLANNERS, SURVEYORS AND DESIGNERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2161 Building Architects
- 2162 Landscape Architects and Designers
- 2163 Fashion and Product Designers
- 2164 Urban and Related Planners
- 2165 Surveyors and Cartographers
- 2166 Graphic and Multimedia Designers and Artists
- 2167 Service Designers

Unit Group 2161 Building Architects

Building architects design commercial, industrial, institutional, residential and recreational buildings and plan and monitor their construction, maintenance and rehabilitation.

Tasks include:

- developing new or improved architectural theories and methods
- inspecting sites and consulting clients, management and other stakeholders to determine type, style and size of proposed buildings and alterations to existing buildings
- providing information regarding designs, materials and estimated building times
- preparing project documentation, including sketches and scale drawings, and integrating structural, mechanical and aesthetic elements in final designs
- writing specifications and contract documents for use by builders and calling tenders on behalf of clients
- making necessary contacts to ensure feasibility of projects regarding style, cost, timing, and compliance with regulations

- identifying and finding best solutions for problems regarding function and quality of interior environments of buildings and making necessary designs, drawings and plans
- monitoring construction or rehabilitation work to ensure compliance with specifications and quality standards
- maintaining technical liaison and consultancy with other relevant specialists

Occupation(s) in this Unit Group:

- 21610 Building architect

Occupation 21610 Building architect

Building architect designs commercial, industrial, institutional, residential and recreational buildings and plans and monitors their construction, maintenance and rehabilitation. He/she consults with client to ascertain type and style of building required and advises on cost, design, materials, building time and other relevant considerations.

Example(s) of job classified under this code:

- Architectural designer

Example(s) of job not classified under this code:

- Architectural engineer, see 21422
- Landscape architect, see 21621
- Town planner, see 21641
- Interior designer, see 34321

Unit Group 2162 Landscape Architects and Designers

Landscape architects and designers plan and design landscapes and open spaces for projects such as, parks, schools, institutions, roads, external areas for commercial, industrial and residential sites. They also plan and monitor their construction, maintenance and rehabilitation.

Tasks include:

- developing new or improved theories and methods in landscape architecture
- inspecting sites and consulting clients, management and other stakeholders to determine type, style and size of proposed buildings, parks, roads and other open spaces
- compiling and analysing site and community data about geographical and ecological features, landforms, soils, vegetation, site hydrology, visual characteristics and human-made structures, to formulate land use and development recommendations, and for preparing environmental impact statements

- preparing reports, site plans, working drawings, specifications and cost estimates for land development, showing location and details of proposals, including ground modelling, structures, vegetation and access
- writing specifications and contract documents for use by builders and civil engineering contractors and calling tenders on behalf of clients
- making necessary contacts to ensure feasibility of projects regarding style, cost, timing and compliance with regulations
- identifying and finding best solutions for problems regarding function and quality of exterior environments and making necessary designs, drawings and plans
- monitoring construction or rehabilitation work to ensure compliance with specifications and quality standards
- maintaining technical liaison and consultancy with other relevant specialists

Occupation(s) in this Unit Group:

- 21621 Landscape architect
- 21622 Landscape designer

Occupation 21621 Landscape architect

Landscape architect plans and designs landscape and harmonises improvements with existing land features, buildings and proposed structures. He/she consults with clients, engineers and architects on overall programme, studies site conditions such as nature of soil, vegetation, rock features, drainage and location of buildings.

Example(s) of job classified under this code:

- Landscape artist

Example(s) of job not classified under this code:

- Building architect, see 21610
- Town planner, see 21641
- Landscape designer, see 21622

Occupation 21622 Landscape designer

Landscape designer designs and creates outdoor public areas, landmarks, structures, parks, gardens and private gardens to achieve environmental, social-behavioural, or aesthetic outcomes.

Example(s) of job classified under this code:

- Garden designer

Example(s) of job not classified under this code:

- Landscape architect, see 21621

Unit Group 2163 Fashion and Product Designers

Fashion and product designers design and develop products for manufacture and prepare designs and specifications of products for mass, batch and one-off production.

Tasks include:

- determining the objectives and constraints of the design brief by consulting with clients and stakeholders
- formulating design concepts for clothing, textiles, industrial, commercial and consumer products, and jewellery harmonising aesthetic considerations with technical, functional and production requirements
- preparing sketches, diagrams, illustrations, plans, samples and models to communicate design concepts
- negotiating design solutions with clients, management, and sales and manufacturing staff
- selecting, specifying and recommending functional and aesthetic materials, production methods and finishes for manufacture
- detailing and documenting the selected design for production
- preparing and commissioning prototypes and samples
- supervising the preparation of patterns, programmes and tooling, and the manufacturing process

Occupation(s) in this Unit Group:

- 21631 Fashion designer
- 21632 Product and industrial designer

Occupation 21631 Fashion designer

Fashion designer designs clothing and accessories by analysing and interpreting fashion trends to propose new ideas with high aesthetical value. He/she performs forecasting and market research to put together collections lines by operating mood or concept boards, colour palettes, materials, drawings and sketches.

Example(s) of job classified under this code:

- Clothes designer
- Costume designer
- Dress designer

Occupation 21632 Product and industrial designer

Product and industrial designer creates designs for industrial and commercial products, harmonising aesthetic considerations with technical and other requirements. He/she studies the purpose, technical specifications, cost limitations, available materials and methods of production, preferences of potential users and other factors influencing the design of products such as furniture, clothing, textiles, pottery, domestic appliances, vehicles and packaging containers.

Example(s) of job classified under this code:

- Commercial products designer
- Furniture designer
- Package designer
- Textile designer

Example(s) of job not classified under this code:

- Urban design architect, see 21641

Unit Group 2164 Urban and Related Planners

Urban and related planners develop and implement plans and policies for the controlled use of urban and rural land. They conduct research and provide advice on economic, environmental and social factors affecting land use.

Tasks include:

- planning layout and coordinating development of urban areas
- compiling and analysing data on economic, legal, political, cultural, demographic, sociological, physical and environmental factors affecting land use
- conferring with government authorities, communities and specialists in fields such as architecture, planning, social science, the environment and the law
- devising and recommending use and development of land, and presenting narrative and graphic plans, programmes and designs to groups and individuals
- advising governments, companies and communities on urban and regional planning issues and proposals
- reviewing and evaluating environmental impact reports
- planning layout and coordinating development of urban areas
- planning and the development of land areas for parks, schools, institutions, airports, roadways and related projects, and for commercial, industrial and residential sites
- planning and advising on routing and control of road traffic and public transportation systems for efficiency and safety

Occupation(s) in this Unit Group:

- 21641 Urban planner
- 21649 Other related planners (e.g. traffic planner)

Occupation 21641 Urban planner

Urban planner plans layout and coordinates development of urban areas in addition to arranging and supervising collection of data on economic, social, physical and other factors relative to development of area. He/she analyses data to ascertain the nature, extent and rate of an area's growth and development, and consults with appropriate specialists to prepare plans for area development, including zoning of industrial, commercial and residential areas and location of recreational, educational and other community facilities.

Example(s) of job classified under this code:

- Environmental designer
- Urban design architect
- Urban land planner

Example(s) of job not classified under this code:

- Civil construction project engineer, see 21422
- Building architect, see 21610
- Landscape architect, see 21621

Occupation 21649 Other related planners (e.g. traffic planner)

This group includes planners not elsewhere classified.

Example(s) of job classified under this code:

- Land planner

Unit Group 2165 Surveyors and Cartographers

Surveyors and cartographers determine the exact position of, or prepare and revise digital, graphic and pictorial maps, charts other visual representation of, natural and constructed features and boundaries of land, seas, underground areas and celestial bodies, applying scientific and mathematical principles.

Tasks include:

- surveying, measuring and describing land surfaces, mines, underground surfaces, sea, river and lake beds

- noting exact position of various features and recording survey data in digital form
- making charts and maps to be used in determining navigable waters and channels and in planning construction of marine structures
- planning and conducting aerial photographic surveys
- designing, compiling and revising maps and charts using aerial and other photographs, satellite imagery, survey documents and data, existing maps and records, reports and statistics
- undertaking research and development of surveying and photogrammetric measurement systems, cadastral systems and land information systems
- studying and advising on technical, aesthetic and economic aspects of map production
- maintaining technical liaison and consultancy with other relevant specialists

Occupation(s) in this Unit Group:

- 21651 Land surveyor
- 21652 Hydrographic surveyor
- 21659 Other surveyors and cartographers

Occupation 21651 Land surveyor

Land surveyor specialises in surveying land surfaces to determine boundaries and exact locations, delineates topographic features and man-made structures and otherwise measure land areas for such purposes as mapmaking and construction work. He/she creates detailed drawings and administers project survey data along with maintaining and servicing of survey instruments.

Example(s) of job classified under this code:

- Cadastral surveyor
- Geodetic surveyor
- Topographical surveyor

Occupation 21652 Hydrographic surveyor

Hydrographic surveyor specialises in surveying sea, river and lake beds to delineate underwater topographic features for purposes including chart making. He/she determines navigable channels and plans construction and repair of harbours, piers, break waters and other marine structures.

Example(s) of job classified under this code:

- Hydraulic surveyor

Occupation 21659 Other surveyors and cartographers

This group includes surveyors and cartographers not elsewhere classified.

Example(s) of job classified under this code:

- Surveyor
- Engineering surveyor
- Aerial surveyor
- Photogrammetrist
- Photographic surveyor

Example(s) of job not classified under this code:

- Quantity surveyor, see 21494
- Marine surveyor, see 31213

Unit Group 2166 Graphic and Multimedia Designers and Artists

Graphic and multimedia designers and artists design information content and develop user experiences and interfaces for a variety of communications platform (e.g. visual, audio, augmented reality/virtual reality, publication and display through print, mobile, web, film, electronic, digital and other forms of visual and audio media). They create special effects, animation, or other visual images for use in computer games, movies, television, music videos, print media and advertisements.

Tasks include:

- determining the objectives and constraints of the design brief by consulting with clients and stakeholders
- undertaking research and analysing functional communication requirements
- working directly with customers and prospects to design end-to-end experiences using participatory and iterative design techniques (including observational studies, customer interviews, task analysis, persona creation, storyboarding, scenario building, user flows, use cases, usability testing), as well as other forms of qualitative and quantitative research to uncover insights, learn about user behaviour and verify design concepts
- formulating design concepts for the subject to be communicated
- communicating design concepts through storytelling and rapid prototyping methods, ranging from paper sketching to digital prototyping (e.g. diagrams, illustrations, layouts)
- preparing sketches, diagrams, illustrations and layouts to communicate design concepts
- designing complex graphics and animation to satisfy functional, aesthetic and creative requirements of the design brief
- creating two-dimensional and three-dimensional images depicting objects in motion or illustrating a process, using computer animation or modelling programmes

- negotiating design solutions with clients, management, sales and production staff
- selecting, specifying or recommending functional and aesthetic materials and media for publication, delivery or display
- detailing and documenting the selected design for production
- supervising or carrying out production in the chosen media

Occupation(s) in this Unit Group:

- 21661 Graphic designer
- 21662 Multimedia (including games) designer
- 21663 Multimedia artist and animator
- 21664 Interaction designer
- 21669 Other graphic and multimedia designers and artists

Occupation 21661 Graphic designer

Graphic designer conceptualises, develops and refines design solutions according to design briefs. He/she designs and produces applied design artwork, illustrations and graphic documents using a range of manual and digital techniques and media to communicate concepts and ideas.

Example(s) of job classified under this code:

- Graphic artist

Occupation 21662 Multimedia (including games) designer

Multimedia (including games) designer conceptualises, develops and refines creative communication using multimedia and motion graphic. He/she creates 2D and 3D animations for multimedia video and other forms of multimedia presentations in addition to ensuring the synchronization and integration of multimedia contents with graphical materials in both print and online media.

Example(s) of job classified under this code:

- Computer games designer
- Computer graphics modeller
- Three-dimensional multimedia modeller
- Visual effects artist

Example(s) of job not classified under this code:

- Animator, see 21663

- Computer games developer, see 25123
- Multimedia programmer (excluding games), see 25140

Occupation 21663 Multimedia artist and animator

Multimedia artist and animator brings creative ideas to life in all digital forms from video to graphic animation by utilising computer technologies to create special effects, animation and live video content for a diverse array of media (e.g. computer games, movies, music videos, social media and commercials from packaging to branding strategy and advertising). He/she creates graphics, animation, and edits videos and sounds. He/she develops storyboards that map out key scenes in the animation and researches on upcoming projects to help create a realistic design or animation.

Unit Group 2167 Service Designers

Service designers design solutions to enhance consumers' experience across various touch-points. They analyse customers' interactions and experiences of a particular product, system or service. They manage the improvement and creation of the associated solutions' artefacts and interfaces.

Tasks include:

- determining the objectives and constraints of the design brief by consulting with clients and stakeholders
- undertaking research and analysing customer's interaction and experience of a particular product, system or service
- working directly with customers and prospects to design end-to-end experiences using participatory and iterative design techniques (including observational studies, customer interviews, task analysis, persona creation, storyboarding, scenario building, user flows, use cases, usability testing), as well as other forms of qualitative and quantitative research to uncover insights, learn about user behaviour and verify design concepts
- formulating design concepts for the subject to be communicated
- communicating design concepts through storytelling and rapid prototyping methods, ranging from paper sketching to digital prototyping (e.g. diagrams, illustrations, layouts)
- preparing sketches, diagrams, illustrations and layouts to communicate design concepts
- designing complex graphics and animation to satisfy functional, aesthetic and creative requirements of the design brief
- negotiating design solutions with clients, management, sales and production staff
- selecting, specifying or recommending functional and aesthetic materials and media for publication, delivery or display
- detailing and documenting the selected design for production
- supervising or carrying out production, and managing the improvement and creation of the associated solutions' artefacts and interfaces

Occupation(s) in this Unit Group:

- 21670 Service designer

Occupation 21670 Service designer

Service designer designs solutions to enhance consumers' experience across various touch-points. He/she analyses consumers' interaction and experience of a particular product, system or service. He/she manages the improvement and creation of the associated solutions' artefacts and interfaces.

MINOR GROUP 217 SHIP AND AIRCRAFT RELATED PROFESSIONALS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2171 Ship Engineers and Related Professionals
- 2172 Aircraft Pilots and Related Professionals

Unit Group 2171 Ship Engineers and Related Professionals

Ship engineers and related professionals command and control the operation of mechanical, electrical and electronic equipment, in order to navigate marine vessels for transporting passengers, mail and freight. They also plan and research to improve existing procedures or existing stock of knowledge.

Tasks include:

- developing, adapting and overseeing the implementation of navigation plans through using complex navigation aids and clear knowledge of local conditions
- adapting departmental plans and priorities to address resource and operational challenges
- planning and arranging all technical maintenance and repairs needed on the vessels
- carrying out vessel inspections and monitor the ship's conditions
- ensuring compliance of vessels with regulations and standards
- researching and implementing new procedures to improve daily operations

Occupation(s) in this Unit Group:

- 21711 Chief engineer/Second engineer (ship)
- 21712 Marine superintendent (engineer)
- 21713 Ship captain / Chief mate
- 21714 Marine superintendent

Occupation 21711 Chief engineer/Second engineer (ship)

Chief engineer/Second engineer (ship) plans, coordinates and directs engine-room department aboard ship and supervises subordinate marine engineer officers and engine-room ratings. He/she takes complete charge of the operation, maintenance and repair of all mechanical and electrical machinery and equipment on board ship including propulsion engines, boilers, auxiliary, deck machinery, refrigeration and sanitary equipment.

Example(s) of job classified under this code:

- First engineering officer (ship)
- First foreign-going marine engineering officer
- Second foreign-going marine engineering officer
- Second marine engineer

Occupation 21712 Marine superintendent (engineer)

Marine superintendent (engineer) oversees the technical/engineering functions of the fleet. He/she plans, controls and executes all activities connected with maintenance, repairs, survey and certificate requirements, dry-docking, conversion or modification of assigned vessels in addition to monitoring and controlling costs of repairs and maintenance while ensuring that all vessels comply with factory, class or charterer requirements.

Example(s) of job classified under this code:

- Marine manager

Occupation 21713 Ship captain / Chief mate

Ship captain/Chief mate commands and controls the navigation, manoeuvring, cargo handling, stowage, communications and safe handling of the ship. He/she oversees operations and maintenance of all on-board equipment including machinery, engines and safety equipment and monitors the daily progress of the vessel to complete the voyage in a most efficient manner while ensuring that the ship complies with local and international laws, as well as port state and flag state policies.

Example(s) of job classified under this code:

- Shipmaster
- Ship's chief officer

Occupation 21714 Marine superintendent

Marine superintendent directs or arranges on-shore services such as supply of ships' stores and equipment, ship inspections and overhauls, crew replacements and navigational information for shipping company vessels arriving in port. He/she orders ship's stores, deck and navigation equipment and fuel, for delivery according to ship master's requirements and arranges for inspections, tests and overhauls as required by regulations or company practices.

Unit Group 2172 Aircraft Pilots and Related Professionals

Aircraft pilots and related professionals command and control the operation of mechanical, electrical and electronic equipment, in order to navigate aircraft for transporting passengers, mail and freight

and perform related pre-flight and in-flight tasks. They also plan and research to improve existing procedures or existing stock of knowledge.

Tasks include:

- applying knowledge of principles and practices of flying in order to identify and solve problems arising in the course of their work
- preparing and submitting flight plan or examining standard flight plan flying and navigating aircraft in accordance with established control and operating procedures
- controlling the operation of mechanical, electrical and electronic equipment and ensuring that all instruments and controls work properly
- examining maintenance records and conducting inspections to ensure that aircraft are mechanically sound, maintenance has been performed and that all equipment is operational
- signing necessary certificates and maintaining official records of flight
- obtaining briefings and clearances before flights and maintaining contact with air traffic or flight control during flight

Occupation(s) in this Unit Group:

- 21721 Commercial airline pilot
- 21722 Aircraft pilot (except commercial airline and air force)
- 21723 Flying instructor (except air force)
- 21724 Flight engineer
- 21729 Other aircraft pilots and related associate professionals

Occupation 21721 Commercial airline pilot

Commercial airline pilot operates and navigates commercial aircraft along planned routes, during take-offs and landings to transport passengers, mail or freight. He/she prepares flight plans, conducts pre-flight checks and briefings, and communicates with air traffic controllers for flight clearance. He/she oversees the safety and security of crew, passengers, and freight on board.

Example(s) of job classified under this code:

- Aircraft captain (air transport)
- Airline pilot
- Co-pilot
- First officer (commercial airline)

Notes:

Commercial airline pilot typically holds the CAAS Commercial Pilot License (CPL), CAAS-approved Aircraft Type Rating, CAAS Multi-crew Pilot License (MPL) and CAAS Airline Transport Pilot License (ATPL) or their equivalent.

Occupation 21722 Aircraft pilot (except commercial airline and air force)

Aircraft pilot (except commercial airline and air force) operates and navigates aircraft for purposes other than passenger, mail or freight transportation, such as for testing or delivering aircraft, spraying insecticides and fungicides for pest control, aerial surveys, aerial photography, and exhibitions of flying skill.

Example(s) of job classified under this code:

- Helicopter pilot (air transport)
- Seaplane pilot
- Test pilot (aircraft)

Occupation 21723 Flying instructor (except air force)

Flying instructor (except air force) teaches trainee pilots to operate the controls of an aircraft and instructs them in aircraft piloting techniques and procedures. He/she explains use and operation of aircraft components, such as rudder, flaps, ailerons, compass, altimeter and radio and accompanies trainees on training flights while demonstrating techniques for controlling aircraft during taxiing, take-off, turns, stalls and landing.

Example(s) of job classified under this code:

- Check pilot

Occupation 21724 Flight engineer

Flight engineer makes pre-flight and post-flight inspection of aircraft engine, other equipment and fuselage as well as observes gauges, meters and other aircraft instruments during flight to detect technical irregularities. He/she monitors fuel gauges and consumption and engine performance, regulating engine speed according to pilot's instructions and keeps pilot-in-command informed if any defects or difficulties occur during flight.

Occupation 21729 Other aircraft pilots and related associate professionals

This group includes aircraft pilots and related associate professionals not elsewhere classified.

Example(s) of job classified under this code:

- Flight navigator

SUB-MAJOR GROUP 22 HEALTH PROFESSIONALS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 221 MEDICAL DOCTORS
- 222 NURSING PROFESSIONALS
- 223 TRADITIONAL AND COMPLEMENTARY MEDICINE PROFESSIONALS
- 225 VETERINARIANS
- 226 OTHER HEALTH PROFESSIONALS

Notes:

In using SSOC in applications that seek to identify, describe or measure the health workforce, it should be noted that a number of professions considered to be a part of the health workforce are classified in groups other than Sub-major Group 22 'Health Professionals'. Such occupations include but are not restricted to addictions counsellors, biomedical engineers, clinical psychologists and medical physicists.

MINOR GROUP 221 MEDICAL DOCTORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2211 Generalist Medical Practitioners
- 2212 Specialist Medical Practitioners (Medical)
- 2213 Specialist Medical Practitioners (Surgical)
- 2214 Specialist Medical Practitioners (Other Specialisations) - I
- 2215 Specialist Medical Practitioners (Other Specialisations) - II (Con'td)

Unit Group 2211 Generalist Medical Practitioners

Generalist medical practitioners diagnose, treat and prevent illness, disease, injury, and other physical and mental impairments in humans through application of the principles and procedures of modern medicine. They do not limit their practice to certain disease categories or methods of treatment, and may assume responsibility for the provision of continuing and comprehensive medical care to, and the maintenance of general health of, individuals, families and communities. Medical graduates undergoing housemanship are also classified here.

Tasks include:

- conducting physical examinations of patients and interviewing them and their families to determine their health status
- ordering laboratory tests, X-rays and other diagnostic procedures and analysing findings to determine the nature of disorders or illnesses

- providing continuing medical care for patients including prescribing, administering, counselling on and monitoring curative treatments and preventive measures
- performing minor surgery and other clinical procedures
- advising individuals, families and communities on health, nutrition and lifestyle which aid prevention or treatment of disease and disorders
- providing referrals to patients and families for specialised care in hospitals, rehabilitation centres or other types of healthcare centres
- identifying, managing and providing referrals for complications before, during and after childbirth
- recording patients' medical information and history and exchanging information with specialist practitioners and other health workers as required for continuing medical care
- reporting births, deaths and notifiable diseases to government authorities to meet legal and professional requirements
- planning and participating in programmes designed to prevent the occurrence and spread of common diseases

Notes:

Occupations included in this unit group require completion of a university-level degree in basic medical education and clinical training or equivalent for competent performance. Medical interns or residents who are undertaking clinical training in general medicine without any area of specialisation are included here. Although in some countries 'general practice' and 'family medicine' may be considered as medical specialisations, these occupations should always be classified here.

Medical practitioners are required to be registered with the Singapore Medical Council (SMC) or its equivalent and possess a Practising Certificate (PC) in order to practise medicine in Singapore.

Occupation(s) in this Unit Group:

- 22110 General practitioner/physician

Occupation 22110 General practitioner/physician

General practitioner/Physician diagnoses, treats and prevents illness, disease, injury, and other physical and mental impairments in humans through application of the principles and procedures of modern medicine. He/she does not limit his/her practice to certain disease categories or methods of treatment, and may assume responsibility for the provision of continuing and comprehensive medical care to, and the maintenance of general health of, individuals, families and communities. Medical graduates undergoing housemanship are also classified here.

Unit Group 2212 Specialist Medical Practitioners (Medical)

Specialist medical practitioners (medical) diagnose, treat and prevent illness, disease, injury, and other physical and mental impairments in humans, using specialised testing, diagnostic, medical, physical and psychiatric techniques, through application of the principles and procedures of modern medicine. They specialise in certain disease categories, types of patient or methods of treatment and may conduct medical education and research in their chosen areas of specialisation.

Tasks include:

- conducting physical examinations of patients and interviewing them and their families to determine their health status
- considering medical information provided by a referring doctor or other healthcare provider
- ordering specialised diagnostic tests to determine the nature of disorders or illnesses
- prescribing, administering and monitoring patients' responses to treatments, medications, anaesthetics, psychotherapies, physical rehabilitation programmes and other preventive and curative measures
- recording patients' medical information and exchanging information with other health professionals to ensure the provision of comprehensive care
- reporting births, deaths and notifiable diseases to government authorities to meet legal and professional requirements
- providing information to patients and families about preventive measures, treatment and care for specific ailments
- conducting research into specific human disorders and illnesses and preventive or curative methods and disseminating the findings such as through scientific reports
- planning and participating in programmes designed to prevent the occurrence and spread of specific diseases

This Unit Group excludes:

- Doctor (general medical practice), see 22110

Notes:

Occupations included in this unit group require completion of a university-level degree in basic medical education plus postgraduate clinical training in a medical specialisation (except general practice) or equivalent. Resident medical officers and interns training as specialist practitioners (except general practice) are included here.

Medical practitioners are required to be registered with the Singapore Medical Council (SMC) or its equivalent and possess a Practising Certificate (PC) in order to practise medicine in Singapore.

Medical practitioners who wish to practise as a specialist are required to be accredited by the Specialists Accreditation Board (SAB) or its equivalent and registered under the relevant specialty by the Singapore Medical Council (SMC) or its equivalent.

Medical research professionals who participate in biomedical research using living organisms and do not undertake clinical practice are classified in Unit Group 2131 'Biologists, Botanists, Zoologists and Related Professionals'.

Occupation(s) in this Unit Group:

- 22121 Cardiologist
- 22122 Dermatologist
- 22123 Gastroenterologist
- 22124 Internal medicine physician

MINOR GROUP 252 DATABASE, NETWORK, INFRASTRUCTURE AND CYBERSECURITY PROFESSIONALS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 2521 Database Designers and Administrators
- 2522 Network, Servers and Computer Systems Administrators
- 2523 Computer Network, Infrastructure and Platform Professionals
- 2524 Cybersecurity Professionals
- 2529 Database and Network Professionals Not Elsewhere Classified

Unit Group 2521 Database Designers and Administrators

Database designers and administrators design, develop, control, maintain and support the optimal performance and security of databases.

Tasks include:

- designing and developing database architecture, data structures, tables, dictionaries and naming conventions for information systems projects
- designing, constructing, modifying, integrating, implementing and testing database management systems
- conducting research and providing advice on the selection, application and implementation of database management tools
- developing and implementing data administration policy, documentation, standards and models
- developing policies and procedures for database access and usage and for the backup and recovery of data
- performing the operational establishment and preventive maintenance of backups, recovery procedures, and enforcing security and integrity controls

Occupation(s) in this Unit Group:

- 25211 Database administrator
- 25212 Database architect

Occupation 25211 Database administrator

Database administrator manages, maintains and implements computer databases. He/she coordinates changes to computer databases and identifies, investigates, and resolves database performance issues, database capacity, and database scalability. He/she may plan, coordinate, and implement security measures to safeguard computer databases.

Example(s) of job not classified under this code:

Unit Group 2524 Cybersecurity Professionals

Cybersecurity professionals specialise in providing security assurance of information technology systems.

Tasks include:

- developing plans to safeguard computer files against accidental or unauthorised modification, destruction, or disclosure and to meet emergency data processing needs
- training users and promoting security awareness to ensure system security and to improve server and network efficiency
- conferring with users to discuss issues such as computer data access needs, security violations, and programming changes
- monitoring current reports of computer viruses to determine when to update virus protection systems
- modifying computer security files to incorporate new software, correct errors, or change individual access status
- monitoring use of data files and regulate access to safeguard information in computer files

- performing risk assessments and executing tests of data processing system to ensure functioning of data processing activities and security measures
- encrypting data transmissions and erecting firewalls to conceal confidential information as it is being transmitted and to keep out tainted digital transfers

Occupation(s) in this Unit Group:

- 25241 Cyber risk specialist
- 25242 Penetration testing specialist
- 25243 Security operations specialist
- 25244 Digital forensics specialist
- 25245 Cybersecurity architect
- 25249 Other cybersecurity professionals

Occupation 25241 Cyber risk specialist

Cyber risk specialist conducts cyber risk assessment in support of technology initiatives to help identify IT related risk and determines appropriate controls to mitigate risks. He/she monitors, tracks and manages risk mitigations and exceptions and ensures adequate monitoring capability is incorporated into solutions.

Example(s) of job classified under this code:

- ICT resilience manager
- Information technology security specialist

Example(s) of job not classified under this code:

- Information technology quality assurance specialist, see 25151

Occupation 25242 Penetration testing specialist

Penetration testing specialist designs and performs tests and checks cases to determine if infrastructure components, systems and applications meet confidentiality, integrity, authentication, availability, authorisation and non-repudiation standards. He/she translates requirements into test plan, writes and executes test scripts or codes in line with standards and procedures to determine vulnerability to attacks. He/she certifies infrastructure components, systems and applications that meet security standards.

Occupation 25243 Security operations specialist

Security operations specialist performs real-time analysis and trending of security log data from various security devices and systems. He/she maintains data sources feeding the log monitoring system, develops and maintains detection and alerting rules. He/she responds to

user incident reports and evaluates the type and severity of security events. He/she executes initial triage of incidents to rule out false positives. He/she identifies recurring security issues and risks and develops mitigation plans and recommends process improvements. He/she interprets and applies security policies and procedures. He/she establishes escalation processes for security incidents and develops contingency plans and disaster recovery procedures.

Occupation 31005 Assistant chemical engineer

Assistant chemical engineer provides assistance to the chemical engineer and may lead a team of technicians. He/she supports the development of chemical production processes and also the design, inspection, installation, troubleshooting and maintenance of chemical plant and equipment. He/she maintains laboratory documentation and ensures that chemical equipment are being calibrated and maintained regularly. He/she coordinates with customers,

contractors, suppliers and consultants, to ensure that the products or work is performed to specification.

Example(s) of job not classified under this code:

- Chemistry technician, see 31111
- Chemical engineering technician, see 31161
- Chemical engineering technician (petroleum), see 31162
- Chemical engineering technician (petrochemicals), see 31163

Occupation 31006 Assistant manufacturing engineer

Assistant manufacturing engineer provides assistance to the industrial and production engineer and may lead a team of technicians. He/she applies engineering principles and techniques to optimise the production processes in a manufacturing environment. He/she analyses manufacturing issues, troubleshoots process deviations and also participates in production and manufacturing system improvement projects. He/she coordinates with customers, contractors, suppliers and consultants, to ensure that the products or work is performed to specification.

Example(s) of job not classified under this code:

- Manufacturing engineering technician, see 31171
- Production engineering technician, see 31172

Occupation 31009 Other assistant engineers

This group includes assistant engineers not elsewhere classified.

Example(s) of job classified under this code:

- Assistant biomedical engineer

MINOR GROUP 311 PHYSICAL AND ENGINEERING SCIENCE TECHNICIANS I

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 3111 Chemical and Physical Science Technicians
- 3112 Civil Engineering Technicians
- 3113 Electrical Engineering Technicians
- 3114 Electronics Engineering Technicians
- 3115 Mechanical Engineering Technicians (Excluding Transport and Vehicle Engineering Technicians)

- 3116 Chemical Engineering Technicians
- 3117 Manufacturing Engineering Technicians
- 3118 Draughtsmen

Unit Group 3111 Chemical and Physical Science Technicians

Chemical and physical science technicians perform technical tasks to aid in research in chemistry, physics, geology, geophysics, meteorology and astronomy, and in the development of industrial, medical, military and other practical applications of research results.

Tasks include:

- collecting samples and preparing materials and equipment for experiments, tests and analyses
- carrying out routine laboratory tests and performing a variety of technical support functions to assist chemical and physical scientists in research, development, analysis and testing
- controlling the quality and quantity of laboratory supplies by testing samples and monitoring usage and preparing detailed estimates of quantities and costs of materials and labour required for projects, according to the specifications given
- setting up, operating, and maintaining laboratory instruments and equipment, monitoring experiments, making observations, and calculating and recording results
- preparing materials for experimentation such as freezing and slicing specimens and mixing chemicals
- collecting and testing earth and water samples, recording observations and analysing data in support of geologists or geophysicists

Occupation(s) in this Unit Group:

- 31111 Chemistry technician
- 31112 Physics technician
- 31119 Other chemical and physical science technicians

Occupation 31111 Chemistry technician

Chemistry technician performs technical tasks, normally under the direction of a chemist, in connection with pure research into chemical phenomena or applied chemical research and development work. He/she assists with experiments, tests and analyses in the field of organic, inorganic, physical and analytical chemistry, for such purposes as investigating chemical phenomena, determining composition and properties of substances, discovering and developing new chemical products, new uses for existing products or new methods of production, or controlling industrial processes. He/she may maintain laboratory and other equipment.

Example(s) of job classified under this code:

- Chemical laboratory tester
- Chemical process analyst

Example(s) of job not classified under this code:

- Assistant chemical engineer, see 31005
- Chemical engineering technician, see 31161
- Petroleum refining technician, see 31162
- Chemical engineering technician (petrochemicals), see 31163
- Food science technician, see 31164

Occupation 31112 Physics technician

Physics technician performs technical tasks, normally under the direction of a physicist, in connection with pure research into physical phenomena or applied physics research and development work. He/she assists with experiments, tests and analyses in the field of mechanics, heat, light, sound, electricity and magnetism, electronics, nuclear or other branches of physics to investigate the structure and properties of matter, transformation and propagation of energy, relationships between matter and energy and other physical phenomena or to develop industrial, medical, military or other practical applications. He/she may maintain laboratory and other equipment.

Example(s) of job classified under this code:

- Astronomy technician

Example(s) of job not classified under this code:

- Assistant engineer (mechanical), see 31004

Occupation 31119 Other chemical and physical science technicians

This group includes chemical and physical science technicians not elsewhere classified.

Example(s) of job classified under this code:

- Meteorological aide

Example(s) of job not classified under this code:

- Refining and smelting technician, see 31292

Unit Group 3112 Civil Engineering Technicians

Civil engineering technicians perform technical tasks in civil engineering research, design, construction, operation, maintenance and repair of buildings and other structures, such as water supply and wastewater treatment systems, bridges, roads, dams and airports.

Tasks include:

- performing or assisting with field and laboratory tests of soils and construction materials using various computer software packages including spreadsheets to provide administrative support
- providing technical assistance connected with the construction of buildings and other structures, and with surveys or the preparation of survey reports
- ensuring compliance with design specifications, relevant legislation and regulations, and maintenance of desired standards of materials and work
- applying technical knowledge of building and civil engineering principles and practices in order to identify and solve problems arising
- assisting with the preparation of detailed estimates of quantities and costs of materials and labour required for projects, according to the specifications given
- organising maintenance and repairs
- supervising other workers

Occupation(s) in this Unit Group:

- 31121 Civil engineering technician
- 31122 Building technician
- 31123 Land surveying technician
- 31124 Resident technical officer
- 31129 Other civil engineering and related technicians

Occupation 31121 Civil engineering technician

Civil engineering technician performs technical tasks, normally under the direction of a civil engineer or building architect to assist in planning, monitoring and execution of building and civil engineering projects. He/she assists in site investigations, inspections and tests on soil samples and building material, preparation of designs, specifications, tender bidding, work schedules, material and labour input.

Example(s) of job classified under this code:

- Geotechnical engineering technician

Example(s) of job not classified under this code:

- Assistant civil engineer, see 31001

Occupation 31122 Building technician

Building technician performs technical tasks under the direction of a building construction engineer contributory to the planning and execution of building projects. He/she specialises in erection, maintenance and repair of large industrial, commercial, public and residential buildings.

Example(s) of job classified under this code:

- Buildings compliance inspector

Example(s) of job not classified under this code:

- Assistant structural engineer, see 31001

Occupation 31123 Land surveying technician

Land surveying technician performs surveying and mapping duties, usually under the direction of an engineer, surveyor, cartographer, or photogrammetrist to obtain data used for construction, mapmaking, boundary location, mining, or other purposes. He/she calculates mapmaking information and creates maps from source data, such as surveying notes, aerial photography, satellite data, or other maps to show topographical features, political boundaries, and other features and verifies accuracy and completeness of maps.

Example(s) of job classified under this code:

- Land mapping technician
- Topographic survey technician

Example(s) of job not classified under this code:

- Assistant civil engineer, see 31001
- Marine surveyor, see 31213

Occupation 31124 Resident technical officer

Resident technical officer supervises construction works in accordance to the project specifications, construction drawings and regulatory requirements. He/she Inspects works to ensure that works are carried out in accordance to the Qualified Person (QP) instruction, keeps proper site inspection records and accurate records of site progress and checks drawings and specifications for discrepancies and highlight to QP and contractor, suggesting possible solutions to prevent delays. He/she also enforces quality control on site and monitors site safety and prepares daily site activities report.

Example(s) of job classified under this code:

- Clerk of works

Example(s) of job not classified under this code:

- Quantity surveying technician, see 31294

Occupation 31129 Other civil engineering and related technicians

This group includes civil engineering and related technicians not elsewhere classified.

Example(s) of job classified under this code:

- Rail track repair worker
- Rail track maintenance inspector

Example(s) of job not classified under this code:

- Assistant civil engineer, see 31001

Unit Group 3113 Electrical Engineering Technicians

Electrical engineering technicians perform technical tasks to aid in electrical engineering research and in the design, manufacture, assembly, construction, operation, maintenance and repair of electrical equipment, facilities and distribution systems.

Tasks include:

- providing technical assistance in research and development of electrical equipment and facilities, or testing prototypes
- designing and preparing blueprints of electrical installations and circuitry according to the specifications given
- preparing detailed estimates of quantities and costs of materials and labour required for manufacture
- monitoring technical aspects of the manufacture, installation, utilisation, maintenance and repair of electrical systems and equipment to ensure satisfactory performance and compliance with specifications and regulations
- planning installation methods, checking completed installations for safety and controls or undertaking the initial running of the new electrical equipment or systems
- assembling, installing, testing, calibrating, modifying and repairing electrical equipment and installations to conform with regulations and safety requirements

Occupation(s) in this Unit Group:

- 31131 Electrical engineering technician
- 31132 Lift technician

Occupation 31131 Electrical engineering technician

Electrical engineering technician performs technical tasks, normally under the direction of an electrical engineer, contributory to design, development, construction, installation, maintenance and repair of electrical systems and equipment. He/she exercises technical supervision and control to ensure compliance with specifications and safety standards, and gives technical guidance to workers engaged in manufacture, installation, repair and maintenance of electrical equipment.

Example(s) of job classified under this code:

- Power transmission technician (electricity)

Example(s) of job not classified under this code:

- Assistant electrical engineer, see 31002
- Electronics engineering technician, see 31141
- Signal systems technician (electronic), see 31141
- Electrical draughtsperson, see 31182
- Aircraft electrician, see 74110
- Electrical fitter, see 74121
- Dynamo fitter, see 74121
- Electric power cableman (overhead), see 74131
- Electrical switchboard operator (power station), see 31310
- Electrical component assembler, see 82121
- Electrical products tester, see 82131

Occupation 31132 Lift technician

Lift technician performs technical tasks related to the installation, maintenance and repair of systems and equipment (e.g. elevators, escalators, hoists etc.) for vertical transportation of passengers and goods. He/she attends to breakdowns and troubleshoots escalators, lifts, etc. issues. He/she may also check the completed work to ensure compliance with specifications and safety standards.

Example(s) of job classified under this code:

- Lift maintenance principal specialist
- Lift maintenance master Specialist

Example(s) of job not classified under this code:

- Assistant electrical engineer, see 31002
- Lift maintenance senior specialist, see 74122

Unit Group 3114 Electronics Engineering Technicians

Electronics engineering technicians perform technical tasks to aid in electronic research and in the design, manufacture, assembly, construction, operation, maintenance and repair of electronic equipment.

Tasks include:

- providing technical assistance in research and development of electronic equipment, or testing prototypes
- designing and preparing blueprints of electronic circuitry according to the specifications given
- preparing detailed estimates of quantities and costs of materials and labour required for the manufacture and installation of electronic equipment, according to the specifications given
- monitoring technical aspects of the manufacture, utilisation, maintenance and repair of electronic equipment to ensure satisfactory performance and ensure compliance with specifications and regulations
- assisting in the design, development, installation, operation and maintenance of electronic systems
- planning installation methods, checking completed installations for safety and controls or undertaking the initial running of the new electronic equipment or system
- conducting tests of electronic systems, collecting and analysing data, and assembling circuitry in support of electronics engineers

Occupation(s) in this Unit Group:

- 31141 Electronics engineering technician
- 31142 Semi-conductor technician
- 31143 Audio and video equipment technician
- 31144 Instrumentation technician

Occupation 31141 Electronics engineering technician

Electronics engineering technician performs technical tasks normally under the direction of an electronics engineer, contributory to design, development, construction, installation, maintenance and repair of electronic devices and equipment. He/she may specialise in electronic devices and equipment such as radio, television and radar equipment, telecommunications installations and automatic control and guidance systems and is designated accordingly.

Example(s) of job classified under this code:

- Microelectronics technician
- Signal systems technician (electronic)

Example(s) of job not classified under this code:

- Assistant electronics engineer, see 31003
- Electrical engineering technician, see 31131
- Signal systems technician (electrical), see 31131
- Electronics draughtsperson, see 31182
- Telecommunications technician, see 35220
- Electronic prototype fitter, see 74211
- Electronic industrial equipment fitter, see 74211
- Electronic component assembler, see 82122

Occupation 31142 Semi-conductor technician

Semi-conductor technician performs some or all functions in the manufacture of electronic semiconductors. He/she loads semiconductor material into the furnace, saws formed ingots into segments, loads individual segments into the crystal growing chamber and monitors controls. He/she also locates the crystal axis in ingots using X-ray equipment, saws ingots into wafers and cleans, polishes, and loads wafers into a series of special purpose furnaces, chemical baths, and equipment used to form circuitry and change conductive properties.

Example(s) of job not classified under this code:

- Assistant electronics engineer, see 31003
- Electronic component assembler, see 82122

Occupation 31143 Audio and video equipment technician

Audio and video equipment technician performs technical tasks specialising in radio and television systems and equipment, normally under the direction of an electronics engineer, contributory to design, development, construction, installation, maintenance and repair of electronic devices and equipment.

Example(s) of job classified under this code:

- Radio and television technician

Example(s) of job not classified under this code:

- Assistant electronics engineer, see 31003
- Audio and video equipment mechanic, see 74212

Occupation 31144 Instrumentation technician

Instrumentation technician assists instrumentation engineers in the development, testing, monitoring, and maintenance of control equipment, such as valves, relays, and regulators, which can be used to monitor and control processes.

Example(s) of job classified under this code:

- Control and instrumentation (C&I) technician

Example(s) of job not classified under this code:

- Assistant electronics engineer, see 31003

Unit Group 3115 Mechanical Engineering Technicians (Excluding Transport and Vehicle Engineering Technicians)

Mechanical engineering technicians (excluding transport and vehicle engineering technicians) perform technical tasks to aid in mechanical engineering research and in the design, manufacture, assembly, construction, operation, maintenance and repair of machines, components and mechanical equipment.

Tasks include:

- providing technical assistance in research on and development of machines and mechanical installations, facilities and components, or testing prototypes, excluding transport equipment
- designing and preparing layouts of machines and mechanical installations, facilities and components according to the specifications given
- preparing detailed estimates of quantities and costs of materials and labour required for manufacture and installation according to the specifications given
- monitoring technical aspects of manufacture, utilisation, maintenance and repair of machines and mechanical installations, facilities and components to ensure satisfactory performance and compliance with specifications and regulations
- assembling and installing new and modified mechanical assemblies, components, machine tools and controls, and hydraulic power systems
- conducting tests of mechanical systems, collecting and analysing data, and assembling and installing mechanical assemblies in support of mechanical engineers
- ensuring that mechanical engineering designs and finished work, excluding those related to transport equipment, are within specifications, regulations and contract provisions

Occupation(s) in this Unit Group:

- 31151 Mechanical engineering technician
- 31152 Air-conditioning/Refrigeration engineering technician
- 31153 Machining/Tooling technician

Occupation 31151 Mechanical engineering technician

Mechanical engineering technician performs technical tasks, normally under the direction of a mechanical engineer, contributory to design, development, manufacture, construction, installation, efficient operation, maintenance and repair of mechanically functioning plant and equipment. He/she exercises technical supervision and control and guidance to workers engaged in manufacture, installation, repair and maintenance of mechanically functioning plant and equipment and ensures compliance with specifications and safety standards.

Example(s) of job classified under this code:

- Fuel cell technician
- Optomechanical technician
- Gas turbine technician
- Marine mechanical engineering technician

Example(s) of job not classified under this code:

- Assistant engineer (mechanical), see 31004
- Mechatronics technician, see 31291
- Machinery mechanic, see 72391
- Machinery fitter, see 72391
- Industrial machinery mechanic, see 72392
- Agricultural machinery fitter, see 72399

Occupation 31152 Air-conditioning/Refrigeration engineering technician

Air-conditioning/Refrigeration engineering technician performs technical tasks, normally under the direction of a heating, ventilation, and refrigeration engineer, contributory to design, development, manufacture, installation, maintenance and repair of systems and equipment for heating, ventilation, air-conditioning and refrigeration. He/she specialises in field systems and equipment for heating and air-conditioning in industrial, commercial, residential and public buildings, ice-making and cooling storage rooms.

Example(s) of job classified under this code:

- Heating, ventilation and air-conditioning (HVAC) systems technician

Example(s) of job not classified under this code:

- Air-conditioning and refrigerating equipment mechanic, see 71271
- Air-conditioning and refrigerating equipment installer, see 71272

Occupation 31153 Machining/Tooling technician

Machining/Tooling technician sets up and operates precision machines, carries out maintenance, services, and repairs of all process equipment, such as pumps, blowers and fans, lubricant systems, major machines, compressors, hydraulic systems, etc. He/she also designs and administers a range of computerised or mechanical machines to fabricate jigs, fixtures and precision machine parts and works closely with engineers and machine operators to make sure that the tools created are performing up to requirements. He/she adheres to strict precision guidelines and usually plays an important part in the planning and implementation of the manufacturing process of the tool.

Example(s) of job classified under this code:

- Machine building specialist
- Semiconductor tooling specialist
- Mould designer

Example(s) of job not classified under this code:

- Industrial machinery and tools engineer, see 21442
- Machinery mechanic, see 72391
- Machinery fitter, see 72391
- Industrial machinery mechanic, see 72392
- Agricultural machinery fitter, see 72399

Unit Group 3116 Chemical Engineering Technicians

Chemical engineering technicians perform technical tasks to aid in chemical engineering research and in the design, manufacture, construction, operations, maintenance and repair of chemical plants.

Tasks include:

- assisting in research on and development of industrial chemical processes, plant and equipment, or testing prototypes
- designing and preparing layouts of chemical plants according to the specifications given
- preparing detailed estimates of quantities and costs of materials and labour required for manufacture and installation according to the specifications given
- monitoring technical aspects of the construction, installation, operation, maintenance and repair of chemical plants to ensure satisfactory performance and compliance with specifications and regulations
- conducting chemical and physical laboratory tests to assist scientists and engineers in making qualitative and quantitative analyses of solids, liquids, and gaseous materials

Occupation(s) in this Unit Group:

- 31161 Chemical engineering technician
- 31162 Chemical engineering technician (petroleum and natural gas)
- 31163 Chemical engineering technician (petrochemicals)
- 31164 Food science technician

Occupation 31161 Chemical engineering technician

Chemical engineering technician performs technical tasks, normally under the direction of a chemical engineer, contributory to development of processes for the chemical or physical transformation of substances on a commercial scale. He/she provides technical support and service to design, construct, operate, maintain and repair chemical plant. He/she exercises technical supervision and control of chemical processing operations, gives technical guidance to workers engaged in constructing, installing, maintaining and repairing chemical processing plant and ensures compliance with specifications and safety standards.

Example(s) of job classified under this code:

- Chemical production quality technician
- Pharmaceutical plant testing technician

Example(s) of job not classified under this code:

- Assistant chemical engineer, see 31005
- Chemistry technician, see 31111
- Chemicals cooker, see 31331
- Alcohol distiller, see 81311

Occupation 31162 Chemical engineering technician (petroleum and natural gas)

Chemical engineering technician (petroleum and natural gas) performs technical tasks, normally under the direction of a chemical engineer (petroleum), contributory to development of processes for the production of fuels. He/she provides technical support and service to design, construct, operate, maintain and repair fuel production facility. He/she may specialise in refining of crude oil, production of fuel products such as petrol, biofuel and paraffin fuels and lubricating oils and greases.

Example(s) of job classified under this code:

- Biofuels processing technician
- Petroleum processing technician

Example(s) of job not classified under this code:

- Assistant chemical engineer (petroleum), see 31005

- Chemistry technician, see 31111
- Petroleum and natural gas extraction technician, see 31292
- Caser (oil and gas wells), see 81130
- Petroleum refining blender, see 31341

Occupation 31163 Chemical engineering technician (petrochemicals)

Chemical engineering technician (petrochemicals) performs technical tasks, normally under the direction of a chemical engineer (petroleum), contributory to development of processes for manufacturing petrochemicals. He/she provides technical support and service to design, construct, operate, maintain and repair petrochemical plant. He/she specialises in operations of petrochemical plant, monitors process and safety, and conditions of petrochemical process equipment and facilities to maintain availability of equipment.

Example(s) of job not classified under this code:

- Assistant petrochemical engineer, see 31005
- Chemistry technician, see 31111

Occupation 31164 Food science technician

Food science technician works with food scientists or technologists to perform standardised qualitative and quantitative tests to determine physical or chemical properties of food or beverage products. He/she assists in research and development of production technology, quality control, packaging, processing, and use of foods.

Example(s) of job classified under this code:

- Food production technician
- Brewery technician

Example(s) of job not classified under this code:

- Food and drink technologist, see 21454

Unit Group 3117 Manufacturing Engineering Technicians

Manufacturing engineering technicians perform technical tasks to aid in manufacturing engineering research, as well as in the construction, modification, continued performance and maintenance of equipment and machines in industrial plants. They also assist in the planning of manufacturing activities under the direction of a manufacturing engineer.

Tasks include:

- carrying out operational activities according to required work specification, quality and safety standards
- reading/studying technical product documents, manufacturing specifications etc.
- performing routine maintenance on processes/equipment/plant facilities
- identifying faults and troubleshooting production processes/machinery and equipment

Occupation(s) in this Unit Group:

- 31171 Manufacturing engineering technician
- 31172 Production engineering technician
- 31173 Process engineering technician
- 31174 Automation technician
- 31175 Quality assurance technician

Occupation 31171 Manufacturing engineering technician

Manufacturing engineering technician provides technical support and services in the development of production methods, facilities and systems, and the planning, estimating and scheduling of work. He/she develops tools, implements designs or integrates machinery, equipment or computer technologies for effective manufacturing processes and also sets up, tests and adjusts manufacturing machinery or equipment.

Example(s) of job classified under this code:

- Medical manufacturing specialist

Example(s) of job not classified under this code:

- Manufacturing engineer, see 21411
- Assistant manufacturing engineer, see 31006
- Assembly and quality check general foreman, see 82000

Occupation 31172 Production engineering technician

Production engineering technician performs technical tasks, normally under the direction of a production engineer, to plan production operations including set up of machines for production, troubleshooting and maintenance. He/she examines workings, drawings, manufacturing specifications and prototypes of proposed products and identifies fabrication, assembly and other operations required to produce the finished article and determines and prepares detailed schedules of appropriate sequences and timings of operations, taking into account production methods, materials and equipment to be used.

Example(s) of job classified under this code:

- Production planning technician

Example(s) of job not classified under this code:

- Production engineer, see 21412
- Assistant engineer (production), see 31006

Occupation 31173 Process engineering technician

Process engineering technician works closely with engineers to evaluate the existing processes and configure manufacturing systems to reduce cost, improve sustainability and develops best practices within the production process.

Example(s) of job classified under this code:

- Electronic process engineering technician
- Chemical process engineering technician

Example(s) of job not classified under this code:

- Automation engineer, see 21413
- Production engineering technician, see 31172

Occupation 31174 Automation technician

Automation technician performs technical tasks, normally under the direction of an automation engineer in the development of applications and systems for the automation of the production process. He/she builds, tests, monitors and maintains the computer-controlled systems used in automated production systems. He/she writes detailed design specifications of automation machines, produces design drawings for fabrication and conducts design reviews. He/she also liaises with the production team to evaluate, troubleshoot and analyse assembly problems and provide solutions for improvements.

Example(s) of job classified under this code:

- Computer numerical control (CNC) programmer
- Computer-assisted design / computer-assisted manufacturing (CAD/CAM) programmer
- Robotics technician

Example(s) of job not classified under this code:

- Automation engineer, see 21413

Occupation 31175 Quality assurance technician

Quality assurance technician performs inspection on parts received from suppliers to ensure conformity to specifications. He/she performs process control by using inspection equipment for accurate inspection and manual checks and registers non-conformity as required. He/she also assists in analysing manufacturing and quality issues to make recommendations for out-of-control processes.

Example(s) of job classified under this code:

- Non-destructive testing (NDT) technician

Example(s) of job not classified under this code:

- Quality assurance engineer, see 21414
- Assembly and quality check general foreman, see 82000
- Electrical products quality checker, see 82131
- Mechanical products quality checker, see 82132

Unit Group 3118 Draughtsmen

Draughtsmen prepare technical drawings, maps and illustrations from sketches, measurements and other data and copy final drawings and paintings onto printing plates.

Tasks include:

- preparing and revising working drawings from sketches and specifications prepared by engineers and designers for the manufacture, installation and erection of machinery and equipment or for the construction, modification, maintenance and repair of buildings, dams, bridges, roads and other architectural and civil engineering projects
- operating computer-aided design (cad) or computer-aided design and drafting (cadd) equipment to create, modify and generate hard-copy and digital representations of working drawings
- operating digitising table or similar equipment to transfer hard-copy representations of working drawings, maps and other curves to digital form
- preparing and revising illustrations for reference works, brochures and technical manuals dealing with the assembly, installation, operation, maintenance and repair of machinery and other equipment and goods
- copying drawings and paintings onto stone or metal plates for printing
- preparing wiring diagrams, circuit board assembly diagrams, and layout drawings used for manufacture, installation, and repair of electrical equipment in factories, power plants, and buildings
- creating detailed working diagrams of machinery and mechanical devices, including dimensions, fastening methods, and other engineering information
- arranging for completed drawings to be reproduced for use as working drawings

Occupation(s) in this Unit Group:

- 31181 Mechanical draughtsman
- 31182 Electrical/Electronics draughtsman
- 31183 Civil/Structural engineering draughtsman
- 31184 Architectural draughtsman
- 31185 Marine draughtsman
- 31189 Other draughtsmen (e.g. cartographical draughtsman)

Occupation 31181 Mechanical draughtsman

Mechanical draughtsman prepares engineering working drawings from a designer's sketches and specifications for manufacture of machines, mechanical devices and related products. He/she specialises in preparing working drawings and detailed specifications for the manufacture of jigs and tools, machinery, engines, motor vehicles, aeroplanes, ships, gearing and suspension systems, pumps and other mechanical devices and related equipment.

Example(s) of job classified under this code:

- Aeronautical draughtsman
- Rolling stock draughtsman
- Mechanical machinery drafter

Occupation 31182 Electrical/Electronics draughtsman

Electrical/Electronics draughtsman prepares working drawings from a designer's sketches and specifications for manufacture and installation of electrical and electronic machinery and equipment. He/she specialises in preparing working drawings and detailed specifications for the manufacture, installation and wiring of electrical machinery and appliances, switchgear, electronic equipment and other electrical products.

Example(s) of job classified under this code:

- Circuit board draughtsman

Example(s) of job not classified under this code:

- Electrical circuit engineer, see 21511

Occupation 31183 Civil/Structural engineering draughtsman

Civil/Structural engineering draughtsman prepares working drawings from a designer's sketches and specifications for use in civil engineering projects. He/she specialises in preparing working drawings and detailed specifications for the construction of bridges, dams,

tunnels, railways, roads, industrial and other large buildings, waste disposal and flood control systems and other civil engineering projects. He/she may specialise in preparing working drawings for construction of large steel-framed or reinforced concrete structures and be designated accordingly.

Example(s) of job classified under this code:

- Plumbing design drafter
- Steel detailer
- Building information modelling (BIM) technician

Example(s) of job not classified under this code:

- Land surveying technician, see 31123

Occupation 31184 Architectural draughtsman

Architectural draughtsman specialises in preparing working drawings from architectural sketches and detailed specifications for the construction of buildings. He/she works with engineers regarding model accuracy, design, drafting standards and design documentation, produces structural drawings based on design drawings and verifies the consistence and makes adjustment to structural drawings, construction drawings and finishing works drawings.

Example(s) of job classified under this code:

- Landscape draughtsman

Example(s) of job not classified under this code:

- Building architect, see 21610

Occupation 31185 Marine draughtsman

Marine draughtsman prepares working plans, technical specifications, budgets and other technical drawings, from sketches or notes, for parts or for whole marine structures. He/she specialises in making drawings for structural features of ships, floating docks and other marine structures and equipment. He/she also follows up with shipyards, ship designers and consultants for the fitted drawings, class approval and documentation.

Example(s) of job classified under this code:

- Ship building draughtsman

Example(s) of job not classified under this code:

- Marine cartographer, see 21659
- Marine surveyor, see 31213

Occupation 31189 Other draughtsmen (e.g. cartographical draughtsman)

This group includes draughtsmen not elsewhere classified.

Example(s) of job classified under this code:

- Interior design draughtsman
- Ventilation systems draughtsman
- Land survey draughtsman

Example(s) of job not classified under this code:

- Geology technician, see 31119

MINOR GROUP 312 PHYSICAL AND ENGINEERING SCIENCE TECHNICIANS II

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 3121 Transport and Vehicle Engineering Technicians
- 3129 Physical and Engineering Science Technicians Not Elsewhere Classified

Unit Group 3121 Transport and Vehicle Engineering Technicians

Transport and vehicle engineering technicians perform technical tasks to aid in mechanical engineering research and in the design, manufacture, assembly, construction, operation, maintenance and repair of transport equipment.

Tasks include:

- providing technical assistance in research on and development of machines and mechanical installations, facilities and components, or testing prototypes related to transport equipment
- designing and preparing layouts of transport equipment according to the specifications given
- preparing detailed estimates of quantities and costs of materials and labour required for manufacture and installation according to the specifications given
- monitoring technical aspects of manufacture, utilisation, maintenance and repair of transport equipment to ensure satisfactory performance and compliance with specifications and regulations
- developing and monitoring the implementation of safety standards and procedures for marine survey work in relation to ships' hulls, equipment and cargoes
- assembling and installing new and modified transport equipment's mechanical assemblies, components, machine tools and controls, and hydraulic power systems
- conducting tests of transport equipment, collecting and analysing data, and assembling and installing vehicle mechanical assemblies in support of transport and vehicle engineers
- ensuring that transport equipment mechanical engineering designs and finished work are within specifications, regulations and contract provisions

Occupation(s) in this Unit Group:

- 31211 Aeronautical engineering technician
- 31212 Automotive engineering technician
- 31213 Marine surveyor (ship and nautical)
- 31214 Rolling stock engineering technician

Occupation 31211 Aeronautical engineering technician

Aeronautical engineering technician performs technical tasks, normally under the direction of an aeronautical engineer, contributory to design, development, construction, maintenance and repair of aircraft. He/she specialises in airframes, undercarriages, braking systems and other mechanical equipment for aircraft. He/she may specialise in a particular type of aircraft, such as passenger, cargo or military aircraft or helicopters.

Example(s) of job classified under this code:

- Aerospace component repair technician
- Avionics testing technician
- Aircraft engine inspector

Example(s) of job not classified under this code:

- Aeronautical mechanic, see 72320

Occupation 31212 Automotive engineering technician

Automotive engineering technician performs technical tasks, normally under the direction of an automotive engineer, contributory to design, development and manufacture of road vehicles. He/she specialises in bodies, suspension systems, brakes and other mechanical components for road vehicles and may specialise in a particular type of vehicle or component.

Example(s) of job classified under this code:

- Bus fleet engineering technician

Example(s) of job not classified under this code:

- Mechanical equipment technician, see 31151
- Automobile mechanic, see 72310

Occupation 31213 Marine surveyor (ship and nautical)

Marine surveyor (ship and nautical) inspects vessels intended for operations in maritime or open sea waters. He/she develops and monitors the implementation of safety standards and

procedures for marine survey work in relation to ships' hulls, equipment and cargoes and also ensure that vessels and equipment follow the regulations laid down by the International Maritime Organisation (IMO). He/she may also act as third parties for the review of offshore facilities and construction projects.

Example(s) of job classified under this code:

- Hull surveyor

Example(s) of job not classified under this code:

- Land surveying technician, see 31123
- Marine draughtsperson, see 31185
- Bunker surveyor, see 31299

Occupation 31214 Rolling stock engineering technician

Rolling stock engineering technician performs preventive and corrective maintenance activities as well as modification and/or overhaul works on trains and its components. He/she conducts fault analyses, repairs of electronics, electrical and mechanical equipment of trains as well as performing routine vehicle inspections in accordance to maintenance procedures and instructions. He/she may also supervise the work of contractors and external stakeholders to ensure adherence to operating standards and safety standards.

Example(s) of job classified under this code:

- Rolling stock equipment engineer
- Railway vehicle engine technician

Unit Group 3129 Physical and Engineering Science Technicians Not Elsewhere Classified

This unit group covers physical and engineering science technicians not classified elsewhere in Minor Group 311 'Physical and engineering science technicians'. For instance, those who assist engineers engaged in developing procedures or conducting research on safety, biomedical, environmental or mining and metallurgical engineering should be classified here.

Tasks include:

- aiding in the identification of potential hazards and introducing safety procedures and devices
- modifying and testing equipment and devices used in the prevention, control, and remediation of environmental pollution, site remediation and land reclamation
- providing technical assistance to aid in research on and developing processes to determine the properties of metals and new alloys
- monitoring technical, regulatory and safety aspects of the construction, installation, operation, maintenance and repair of mineral ore, oil and natural gas exploration, extraction, transport and storage installations and mineral processing plants

- providing technical assistance in geological and topographical surveys, and in the design and layout of oil, natural gas and mineral ore extraction and transportation systems, and processing and refining plants for minerals and metals
- assisting scientists in the use of electrical, sonic, or nuclear measuring instruments in both laboratory and production activities to obtain data indicating potential sources of metallic ore, gas or petroleum
- making required text and image corrections to ensure that proper format, appearance, and layout of text and images is set before the full print run for printed materials

Occupation(s) in this Unit Group:

- 31291 Mechatronics technician
- 31292 Metallurgical technician
- 31293 Precision optics technician
- 31294 Quantity surveying technician
- 31295 Airport maintenance technician
- 31299 Other physical and engineering science technicians n.e.c.

Occupation 31291 Mechatronics technician

Mechatronics technician collaborates with engineers in the development of mechatronic devices and applications through a combination of mechanical engineering, electronic engineering, and computer engineering. He/she builds, tests, installs, and calibrates mechatronics and solves technical problems.

Example(s) of job not classified under this code:

- Electronics engineering technician, see 31141
- Mechanical engineering technician, see 31151

Occupation 31292 Metallurgical technician

Metallurgical technician performs technical tasks, normally under the direction of metallurgists or petroleum and natural gas engineers, contributory to the extraction, storage, development and transportation of metals, metal alloys, petroleum and natural gas. He/she sets up and carries out tests and analyses, takes readings, performs calculations, adjusts instruments, records observations and otherwise assists in research to develop new or improved extractive and processing methods for metals, metal alloys, petroleum and natural gas deposits. He/she assists in technical supervision of extractive and metal-making and treatment processes to ensure compliance with specifications.

Example(s) of job classified under this code:

- Ore technologist

- Foundry technician
- Oil prospecting technician
- Mud logger technician

Example(s) of job not classified under this code:

- Petroleum and natural gas engineer, see 21460
- Geology technician, see 31119
- Petroleum refining technician, see 31162

Occupation 31293 Precision optics technician

Precision optics technician performs optical processes in the manufacture of precision lenses and other optic elements. He/she reads and interprets lens specifications from blue prints and schematics, draws work orders, and selects premixed compounds according to formula. He/she also sets up, operates and maintains polishing equipment and performs manual and Computer Numerical Control (CNC) assisted grinding and polishing precision sphere lenses.

Example(s) of job classified under this code:

- Optics manufacturing technician

Example(s) of job not classified under this code:

- Glass lens moulder, see 73150
- Optical glass cutter, see 73150
- Lens grinding machine operator, see 73150

Occupation 31294 Quantity surveying technician

Quantity surveying technician works under the supervision of a quantity surveyor and uses architects' drawings to work out costings for building projects, and monitors site work to estimate costs of the project at different stages so that progressive payment can be made to building contractors.

Example(s) of job classified under this code:

- Construction estimator technician

Example(s) of job not classified under this code:

- Quantity surveyor, see 21494
- Surveyor, see 21659
- Cadastral surveyor, see 21651
- Land surveying technician, see 31123

Occupation 31295 Airport maintenance technician

Airport maintenance technician maintains equipment necessary for ensuring the functionality of the airport, for example, visual aids, airport electrical systems, luggage systems, security systems, etc.

Example(s) of job classified under this code:

- Airport maintenance technical officer

Occupation 31299 Other physical and engineering science technicians n.e.c.

This unit group covers physical and engineering science technicians not elsewhere classified.

Example(s) of job classified under this code:

- Electronic pre-press technician
- Bunker surveyor
- Forensic science technician
- Biomedical engineering technician

Example(s) of job not classified under this code:

- Biology laboratory technician, see 31411

MINOR GROUP 313 PROCESS CONTROL TECHNICIANS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 3131 Power Generating Plant Operators
- 3132 Incinerator and Water Treatment Plant and Related Machine Operators
- 3133 Chemical Processing Plant Controllers
- 3134 Petroleum and Natural Gas Refining Plant Operators
- 3135 Metal Production Process Controllers
- 3139 Process Control Technicians Not Elsewhere Classified

Unit Group 3131 Power Generating Plant Operators

Power generating plant operators operate, monitor and maintain switchboards and related equipment in electrical control centres which control the production and distribution of electrical or other power in transmission networks. The equipment operated includes reactors, turbines, generators and other auxiliary equipment in electrical power-generating stations.

Tasks include:

- operating, monitoring and inspecting various types of energy-generating power plants
- operating and controlling power-generating systems and equipment including boilers, turbines, generators, condensers and reactors in hydro, thermal, coal, oil, natural gas and nuclear power plants to generate and distribute electrical power
- controlling start-up and shut-down of power plant equipment, controlling switching operations, regulating water levels and communicating with systems operators to regulate and coordinate transmission loads, frequency and line voltages
- taking readings from charts, meters and gauges at established intervals, troubleshooting and performing corrective action as necessary
- completing and maintaining station records, logs and reports, and communicating with other plant personnel to assess equipment operating status
- cleaning and maintaining equipment such as generators, boilers, turbines, pumps and compressors in order to prevent equipment failure or deterioration

Notes:

Operators of single process plant and machines, or of machinery that does not involve automated control of multiple processes, are not included in Minor Group 313 'Process Control Technicians'. Such occupations are mainly classified in Major Group 8 'Plant and Machine Operators and Assemblers'.

Occupation(s) in this Unit Group:

- 31310 Power generating plant operator

Occupation 31310 Power generating plant operator

Power generating plant operator operates, monitors and maintains switchboards and related equipment in electrical control centres which control the production and distribution of electrical or other power in transmission networks. The equipment operated includes reactors, turbines, generators and other auxiliary equipment in electrical power-generating stations.

Example(s) of job classified under this code:

- Electrical switchboard operator (power station)
- Electricity generating turbine operator
- Power station generator switchboard operator
- Power reactor operator

Example(s) of job not classified under this code:

- Power transmission technician (electricity), see 31131

Unit Group 3132 Incinerator and Water Treatment Plant and Related Machine Operators

Incinerator and water treatment plant and related machine operators monitor and operate computerised control systems and related equipment in solid and liquid waste treatment plants to regulate the treatment and disposal of sewage and wastes, and in water filtration and treatment plants to regulate the treatment and distribution of water.

Tasks include:

- operating and monitoring computerized control systems, machinery and related equipment in wastewater treatment, sewage treatment, and liquid waste plants to regulate flow, treatment and disposal of sewage and wastes, and in water filtration and treatment plants to regulate the treatment and distribution of water for human consumption and for later disposal into natural water systems
- controlling the operation of multiple-hearth incinerator furnaces and related equipment to burn sludge and solid waste in waste treatment plants
- inspecting equipment and monitoring operating conditions, meters, filters, chlorinators and gauges in central control rooms to determine load requirements, to verify that flows, pressures and temperatures are within specification, and to detect malfunctions
- monitoring and adjusting controls of auxiliary equipment such as exhaust emissions, scrubbers and incinerator heat recovery units
- collecting and testing water and sewage samples for chemical and bacterial content, using test equipment and colour analysis standards
- analysing test results to make adjustments to plant equipment and systems to disinfect and deodorize water and other liquids
- performing security and safety checks in plant and on grounds
- completing and maintaining plant logs and reports

Notes:

Operators of single process plant and machines, or of machinery that does not involve automated control of multiple processes, are not included in Minor Group 313 'Process Control Technicians'. Such occupations are mainly classified in Major Group 8 'Plant and Machine Operators and Assemblers'.

Occupation(s) in this Unit Group:

- 31321 Stationary engine operator
- 31322 Compressor operator
- 31323 Pumping station operator
- 31324 Water treatment machine operator (waterworks)
- 31325 Refrigeration system operator
- 31329 Other incinerator and water treatment plant and related machine operators

Occupation 31321 Stationary engine operator

Stationary engine operator operates and monitors various types of stationary engines and related mechanical equipment. He/she checks and adjusts controls, observes gauges and meters which indicate the engine's performance and operating conditions, such as temperature and oil pressure, and makes further adjustments if necessary.

Occupation 31322 Compressor operator

Compressor operator operates and monitors steam, gas, electric motor, or internal combustion-engine driven compressors. He/she starts the power unit and builds up required pressure, manipulates controls or sets the automatic regulator to maintain a supply of air to equipment, observes pressure, temperature and other gauges and makes further adjustments to control as necessary. He/she cleans and oils equipment, tightens loose parts and performs other servicing tasks to keep the compressor in good running order.

Example(s) of job classified under this code:

- Air-compressor operator
- Gas-compressor operator

Occupation 31323 Pumping station operator

Pumping station operator operates and monitors pumping and siphoning equipment to transfer liquids, gases, semi-liquids and powdered substances from one location to another. He/she opens and sets valves, operates turbine-and motor-driven pumps, reads and interprets flow-meters and pressure and level gauges, regulates equipment according to needs or instructions and makes repairs and adjustments. He/she maintains logs concerning quantities pumped, utilisation of equipment and other matters. He/she may operate hydroelectric equipment to generate power for operating water-pumping equipment.

Example(s) of job classified under this code:

- Pumphouse man

Occupation 31324 Water treatment machine operator (waterworks)

Water treatment machine operator (waterworks) operates and monitor treatment plant equipment to purify water for human consumption and industrial use. He/she controls the flow of raw water into plant by starting and regulating operation of electric motors, pumps and valves, adds specified amounts of chemicals to disinfect, deodorise and clarify water, or adjusts automatic devices which admit chemicals in controlled dosages. He/she starts agitators to mix ingredients and filters water through filtering material. He/she pumps purified water into water mains, monitors control panel meters and gauges to determine rate of flow and other factors.

Example(s) of job classified under this code:

- Water works purifying plant operator

Occupation 31325 Refrigeration system operator

Refrigeration system operator operates and monitors refrigeration system which provides cooling medium for industrial processes, preserving foods, cooling buildings or for other purposes. He/she starts and stops electric motors, pumps, compressors, coolers or other equipment related to refrigeration system, as required. He/she observes thermometers, pressure gauges and other instruments relating to performance of engines and operating conditions in the plant.

Example(s) of job classified under this code:

- Cooling plant operator
- Freezer operator

Occupation 31329 Other incinerator and water treatment plant and related machine operators

This group includes incinerator and water treatment plant and related machine operators not elsewhere classified.

Example(s) of job classified under this code:

- Desilting basin operator
- Lubricator (except ship's engines)
- Refuse disposal furnaceman
- Reservoir keeper
- Sewage plant operator

Unit Group 3133 Chemical Processing Plant Controllers

Chemical processing plant controllers operate and monitor chemical plants and related multi-function process control machinery, and adjust and maintain processing units and equipment which distil, filter, separate, heat or refine chemicals.

Tasks include:

- operating electronic or computerised control panels from a central control room to monitor and optimise physical and chemical processes for several processing units
- adjusting equipment, valves, pumps, controls and process equipment
- controlling the preparation, measuring and feeding of raw materials and processing agents such as catalysts and filtering media into plant

- controlling process start-up and shut-down, troubleshooting and monitoring outside process equipment
- verifying equipment for malfunctions, carrying out routine operating tests and arranging for maintenance
- analysing sample products, performing tests, recording data and writing production logs

Notes:

Operators of single process plant and machines, or of machinery that does not involve automated control of multiple processes, are not included in Minor Group 313 'Process Control Technicians'. Such occupations are mainly classified in Major Group 8 'Plant and Machine Operators and Assemblers'.

Occupation(s) in this Unit Group:

- 31331 Chemical processing and chemical products plant controller
- 31332 Pharmaceutical products machine controller

Occupation 31331 Chemical processing and chemical products plant controller

Chemical processing and products plant controller operates and monitors chemical (excluding pharmaceutical) plants and related multi-function process control machinery, and adjusts and maintains processing units and equipment which distil, filter, separate, heat or refine chemicals.

Example(s) of job classified under this code:

- Blending machine operator (chemical and related processes)
- Kiln operator (chemical and related processes)
- Extractor operator (chemicals and related materials)

Occupation 31332 Pharmaceutical products machine controller

Pharmaceutical products machine controller operates and monitors pharmaceutical plants and related multi-function process control machinery, and adjusts and maintains processing units and equipment which distil, filter, separate, heat or refine pharmaceutical products.

Example(s) of job classified under this code:

- Coating machine operator (tablets and pills)
- Granulator machine operator
- Tableting machine operator

Example(s) of job not classified under this code:

- Blending machine operator (chemical and related processes), see 31331

Unit Group 3134 Petroleum and Natural Gas Refining Plant Operators

Petroleum and natural gas refining plant operators operate and monitor plants and adjust and maintain processing units and equipment which refine, distil and treat petroleum, petroleum-based products and by-products, or natural gas.

Tasks include:

- operating electronic or computerised control panels from a central control room to monitor and optimise physical and chemical processes for several processing units
- adjusting equipment, valves, pumps, controls and process equipment
- controlling process start-up and shut-down, troubleshooting and monitoring outside process equipment
- verifying equipment for malfunctions, testing well pipes for leaks and fractures and arranging for maintenance
- analysing sample products, performing tests, recording data and writing production logs

Notes:

Operators of single process plant and machines, or of machinery that does not involve automated control of multiple processes, are not included in Minor Group 313 'Process Control Technicians'. Such occupations are mainly classified in Major Group 8 'Plant and Machine Operators and Assemblers'.

Occupation(s) in this Unit Group:

- 31341 Petroleum and natural gas refining plant operator
- 31342 Cylinder filler/tester (compressed and liquefied gases)

Occupation 31341 Petroleum and natural gas refining plant operator

Petroleum and natural gas refining plant operator operates and monitors plants, and adjusts and maintains processing units and equipment which refine, distil and treat petroleum, petroleum-based products and by-products, or natural gas.

Example(s) of job classified under this code:

- Asphalt blender
- Petroleum desulphurisation treater

Occupation 31342 Cylinder filler/tester (compressed and liquefied gases)

Cylinder filler/tester (compressed and liquefied gases) tends pumps or other equipment to fill cylinders or other containers with liquefied or compressed gases. He/she connects lines from filling point to cylinders, adjusts valves and observes gauges to fill cylinders to prescribed pressure or weight. He/she tests for leaks in cylinders, records weight or pressure cylinder number and date filled. He/she may also check the purity of gases by simple chemical tests.

Example(s) of job classified under this code:

- Compressed and liquefied gases cylinder filler
- Oxygen filler

Example(s) of job not classified under this code:

- Chemical engineering technician (petroleum), see 31162

Unit Group 3135 Metal Production Process Controllers

Metal production process controllers operate and monitor multi-function process control machinery and equipment to control the processing of metal converting and refining furnaces, metal-rolling mills, metal heat-treating or metal-extrusion plant.

Tasks include:

- coordinating and monitoring the operation of a particular aspect of metal processing production through control panels, computer terminals or other control systems, usually from a central control room
- operating multi-function central process control machinery to grind, separate, filter, melt, roast, treat, refine or otherwise process metals
- observing computer printouts, video monitors and gauges to verify specified processing conditions and to make necessary adjustments
- coordinating and supervising production crew such as machine and process operators, assistants and helpers
- starting up and shutting down the production system in cases of emergency or as required by schedule
- providing and organising training for members of production crews
- maintaining shift logs of production and other data and preparing production and other reports

Notes:

Operators of single process plant and machines, or of machinery that does not involve automated control of multiple processes, are not included in Minor Group 313 'Process Control Technicians'. Such occupations are mainly classified in Major Group 8 'Plant and Machine Operators and Assemblers'.

Occupation(s) in this Unit Group:

- 31350 Metal production process controller

Occupation 31350 Metal production process controller

Metal production process controller operates and monitors multi-function process control machinery and equipment to control the processing of metal converting and refining furnaces, metal-rolling mills, metal heat-treating or metal-extrusion plant.

Unit Group 3139 Process Control Technicians Not Elsewhere Classified

This unit group covers process control technicians not elsewhere classified in Minor Group 313 'Process Control Technicians'. For instance, the unit group includes those who operate multiple process control equipment in manufacturing assembly lines and paper and pulp production.

Notes:

Operators of single process plant and machines, or of machinery that does not involve automated control of multiple processes, are not included in Minor Group 313 'Process Control Technicians'. Such occupations are mainly classified in Major Group 8 'Plant and Machine Operators and Assemblers'.

Occupation(s) in this Unit Group:

- 31391 Remote crane operator
- 31392 Automated assembly line/Industrial robot operator
- 31399 Other process control technicians n.e.c.

Occupation 31391 Remote crane operator

Remote crane operator controls multiple types of equipment for cargo movement remotely through a control centre/system. He/she inspects the equipment and work site prior to equipment set-up.

Example(s) of job classified under this code:

- Remote bridge crane operator (port)

Occupation 31392 Automated assembly line/Industrial robot operator

Automated assembly line/Industrial robot operator monitors and operates automated or semi-automated assembling lines or industrial robots to perform various manufacturing activities such as lifting, welding and assembling. He/she ensures that the assembly line or industrial robots are working correctly and in sync with other processes.

Example(s) of job classified under this code:

- Automated assembly-line operator
- Industrial robot operator

Example(s) of job not classified under this code:

- Bottle washing machine operator, see 81830
- Manufacturing labourer, see 93209

Occupation 31399 Other process control technicians n.e.c.

This group covers process control technicians not elsewhere classified in Minor Group 313 'Process Control Technicians'. For instance, the group includes those who operate multiple process control equipment in manufacturing assembly lines and paper and pulp production.

Example(s) of job classified under this code:

- Paper pulp bleacher operator
- Paper coating machine operator
- Paper varnishing machine operator

MINOR GROUP 314 LIFE SCIENCE TECHNICIANS AND RELATED ASSOCIATE PROFESSIONALS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 3141 Life Science Technicians (Except Medical)
- 3142 Agronomy, Horticultural and Farming Technicians

Unit Group 3141 Life Science Technicians (Except Medical)

Life science technicians (except medical) provide technical support to life science professionals undertaking research, analysis and testing of living organisms, and development and application of products and processes resulting from research in areas such as agriculture, natural resource management, environmental protection, plant and animal biology, microbiology and cell and molecular biology.

Tasks include:

- assisting in designing, setting up and conducting experiments
- setting up, calibrating, operating and maintaining laboratory instruments and equipment
- collecting and preparing specimens and samples, chemical solutions and slides and growing cultures for use in experiments
- performing routine field and laboratory tests
- monitoring experiments to ensure adherence to correct laboratory quality control procedures and health and safety guidelines
- making observations of tests, and analysing, calculating, recording and reporting test results using appropriate scientific methods
- preserving, classifying and cataloguing specimens and samples
- keeping detailed logs of work performed
- using computers to develop models and analyse data

- using complex and high-powered equipment to perform work
- participating in the research, development and manufacture of products and processes
- ordering and stocking laboratory supplies
- maintaining relevant databases

Occupation(s) in this Unit Group:

- 31411 Biological technician
- 31412 Clinical research coordinator
- 31419 Other life science technicians

Occupation 31411 Biological technician

Biological technician provides technical assistance in researching and analysing the relationship between living organisms and their environment. He/she sets up laboratory instruments and equipment, collects and analyses data for experiments and examines organic substances such as bodily fluids, drugs, plants and food. He/she also compiles reports and maintains laboratory stock.

Example(s) of job classified under this code:

- Bacteriology technician
- Tissue culture technician (non-plant)
- Microbiology technician

Example(s) of job not classified under this code:

- Forensic science technician, see 31299
- Plant tissue culture technician, see 31422

Occupation 31412 Clinical research coordinator

Clinical research coordinator plans, directs, or coordinates clinical research projects. He/she assists to schedule and perform research-related procedures and follow-ups to clinical studies, in compliance with protocols, guidelines and other regulatory and ethical requirements, liaises between clinical trial sponsors and investigators and coordinates study-related finances and logistics. He/she enters and validates study data, extracts relevant information from medical records, performs counselling to patients and families and also handles administration work.

Example(s) of job classified under this code:

- Clinical trial coordinator

Example(s) of job not classified under this code:

- Clinical research professional, see 21347

Occupation 31419 Other life science technicians

This group includes life science technicians not elsewhere classified.

Example(s) of job classified under this code:

- Pharmacology technician
- Botanical technician

Example(s) of job not classified under this code:

- Farm technician (horticulture), see 31421
- Pharmacy technician, see 32130

Unit Group 3142 Agronomy, Horticultural and Farming Technicians

Agronomy, horticultural and farming technicians perform tests and experiments, and provide technical and scientific support to horticultural scientists, as well as agricultural scientists, farmers and farm managers.

Tasks include:

- preparing materials and equipment for experiments, tests and analyses
- collecting and preparing specimens such as soils, plant or animal cells, tissues or parts or animal organs for experiments, tests and analyses
- assisting with and performing experiments, tests and analyses and applying methods and techniques such as microscopy, histochemistry, chromatography, electrophoresis and spectroscopy
- identifying pathogenic micro-organisms and insects, parasites, fungi and weeds harmful to crops and livestock and assisting in devising methods of control
- analysing produce to set and maintain standards of quality
- conducting or supervising operational programmes such as fish hatchery, greenhouse and livestock production programmes
- analysing samples of seeds for quality, purity and germination rating
- collecting data and estimating quantities and costs of materials and labour required for projects
- organising maintenance and repairs of research equipment
- assessing, designing and implementing of processes and systems on the application of water to a green field, nursery or landscape

Occupation(s) in this Unit Group:

- 31421 Horticultural technician (including irrigation specialist)
- 31422 Plant tissue culture technician
- 31423 Farming technician (animal production)

Occupation 31421 Horticultural technician (including irrigation specialist)

Horticultural technician provides technical support in the preparation of soil specimens, and helps to identify pathogenic micro-organisms and insects, parasites, fungi and weeds harmful to crops. He/she conducts tests and experiments to improve yield and quality of crops or to increase the resistance of plants to disease or insects, assists in devising methods of control against attacks on crops, and conducts or supervises production programmes. He/she nurtures plants and operates equipment and machinery to facilitate daily work. He/she may also transport and set up greenery for clients at various locations.

Example(s) of job classified under this code:

- Hydroponics technician
- Silvicultural technician

Example(s) of job not classified under this code:

- Horticulturist, see 21321
- Botanical technician, see 31419
- Horticultural worker, see 61133

Occupation 31422 Plant tissue culture technician

Plant tissue culture technician provides technical support in the initiation of explants from mother plants, transfer of existing plant tissue cultures, selection of appropriate media for optimal plant culture growth, micro propagation, and also implements sterile techniques with minimal contamination.

Example(s) of job not classified under this code:

- Tissue culture technician (non-plant), see 31411

Occupation 31423 Farming technician (animal production)

Farming technician (animal production) assists agricultural scientists by providing technical support in the preparation of specimens such as animal cells, tissues or parts or animal organs and the conduct of experiments, tests and analysis. He/she assists in devising preventive controls against outbreak of diseases on livestock, and conducts or supervises operational programmes such as fish hatchery and livestock production programmes.

Example(s) of job classified under this code:

- Artificial breeding technician (livestock and fisheries)
- Aquaculture technician
- Artificial insemination technician

Example(s) of job not classified under this code:

- Veterinary technician, see 32400

MINOR GROUP 315 SHIP AND AIRCRAFT CONTROLLERS AND TECHNICIANS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 3151 Ship Engineering Officers
- 3152 Ships' Deck Officers and Pilots
- 3154 Air Traffic Controllers
- 3156 Sea Traffic Controllers
- 3157 Transport Operations Supervisors
- 3159 Transport Controllers and Related Workers Not Elsewhere Classified

Unit Group 3151 Ship Engineering Officers

Ship engineering officers control and participate in the operation, maintenance and repair of mechanical, electrical and electronic equipment and machinery on board ship.

Tasks include:

- controlling and participating in the operation, maintenance and repair of mechanical, electrical and electronic equipment and machinery on board ship
- ordering fuel and other engine-room department stores and maintaining record of operations
- performing technical supervision of the installation, maintenance and repair of ship's machinery and equipment to ensure compliance with specifications and regulations
- inspecting and conducting maintenance and emergency repairs to engines, machinery and auxiliary equipment
- standing engine room watch, monitoring and noting performance of engines, machinery and auxiliary equipment
- supervising other workers

Occupation(s) in this Unit Group:

- 31510 Marine engineering officer (including third, fourth and fifth engineer)

Occupation 31510 Marine engineering officer (including third, fourth and fifth engineer)

Marine engineering officer controls, supervises and participates in the operation, performance, maintenance and repair of mechanical, electrical and electronic equipment and machinery on board ship.

Example(s) of job classified under this code:

- Third foreign-going marine engineering officer
- Marine engineer officer

Example(s) of job not classified under this code:

- Marine engineer (shore-based), see 21473
- Chief engineer (ship), see 21711
- Marine superintendent engineer, see 21712

Unit Group 3152 Ships' Deck Officers and Pilots

Ships' deck officers and pilots navigate ships and similar vessels and perform related functions on shore.

Tasks include:

- navigating ship or similar vessel at sea or on inland waterways
- controlling and participating in deck and bridge-watch activities
- navigating vessels into and out of ports and through channels, straits and other waters where special knowledge is required
- ensuring safe loading and unloading of cargo and observance of safety regulations and procedures by crew and passengers
- performing technical supervision of maintenance and repair of ship to ensure compliance with specifications and regulations
- applying knowledge of principles and practices relating to ship's operation and navigation in order to identify and solve problems arising in the course of their work
- ordering ship's stores and recruiting crew as required and maintaining record of operations
- transmitting and receiving routine and emergency information with shore stations and other ships
- supervising other workers

Occupation(s) in this Unit Group:

- 31521 Ship's deck navigating officer (including second, third and fourth mate)
- 31522 Harbour pilot

- 31529 Other ships' deck officers and pilots

Occupation 31521 Ship's deck navigating officer (including second, third and fourth mate)

Ship's deck navigating officer plans, supervises and coordinates deck and bridge-watch activities on seagoing or inland waterways vessel. He/she assists the ship master in navigation of vessel in accordance with his/her instructions through determining position and course of vessel by use of charts, compasses, radar and other navigational aids.

Example(s) of job classified under this code:

- Foreign-going deck officer, second mate
- Ship's second officer

Occupation 31522 Harbour pilot

Harbour pilot provides pilotage and berthing services, and ensures the safe and expedient movement of ships entering and departing the port. He/she complies with port regulations and emergency response plans.

Example(s) of job classified under this code:

- Ship pilot
- Special limit deck officer, chief mate

Notes:

Harbour pilot must pass a colour vision test and holds a Harbour Pilot Licence issued by the relevant authority of the Flag State.

Occupation 31529 Other ships' deck officers and pilots

This group includes ships' deck officers and pilots not elsewhere classified.

Example(s) of job classified under this code:

- Hovercraft pilot
- Yacht skipper
- Jet boat operator
- Ferryboat skipper

Example(s) of job not classified under this code:

- storing and carrying out some processing of animal and dairy produce

- promoting and marketing products, arranging the sale, purchase and transportation of livestock, produce and supplies and maintaining and evaluating records of farm activities and transactions

Occupation(s) in this Unit Group:

- 61210 Livestock/Dairy farm worker

Occupation 61210 Livestock/Dairy farm worker

Livestock/Dairy farm worker breeds and raises domesticated animals (excluding poultry), such as cattle, sheep, pigs, goats, horses and camels, for the production of meat, milk and other dairy products, skins and wool or for use as working, sporting or recreational animals, for sale or delivery to wholesale buyers, marketing organisations or at markets.

Example(s) of job classified under this code:

- Farm supervisor (livestock)
- Stable hand

Example(s) of job not classified under this code:

- Livestock farm hand, see 92190

Unit Group 6122 Poultry Farm Workers

Poultry farm workers perform farming operations to breed and raise chickens, turkeys, geese, ducks and other poultry to produce meat, eggs and breeding stock for sale or delivery to wholesale buyers, marketing organisations or at markets.

Tasks include:

- growing and purchasing feed and other supplies needed to maintain appropriate nutritional levels and condition of poultry
- monitoring and examining poultry to detect illness, injury or disease, and to check physical condition, such as rate of weight gain, and removing weak, ill and dead poultry from flock
- mixing feed and feed additives and filling feed and water containers
- vaccinating poultry via drinking water, injection or dusting of air
- collecting and storing eggs and packaging them for sale delivery to market
- determining sex of chicks and facilitating breeding, artificial insemination and hatching of eggs
- renting or investing in and maintaining and cleaning farm buildings, machinery, equipment, and structures
- slaughtering and dressing poultry for sale or delivery to market
- storing and carrying out some processing of produce
- arranging the sale, purchase and transportation stock, produce and supplies

Occupation(s) in this Unit Group:

- 61221 Poultry farm worker
- 61222 Poultry inseminator

Occupation 61221 Poultry farm worker

Poultry farm worker performs farming operations to breed and raise poultry for eggs or meat. He/she specialises in raising poultry, such as fowls, ducks, geese and turkeys.

Example(s) of job classified under this code:

- Chicken farmer
- Poultry breeder
- Incubator operator
- Poultry hatcher and breeder

Example(s) of job not classified under this code:

- Farm manager, see 13100

Occupation 61222 Poultry inseminator

Poultry inseminator collects semen from roosters and fertilises hens to obtain hatching eggs. He/she injects semen into oviduct of hen using a calibrated syringe and maintains records of insemination.

Example(s) of job classified under this code:

- Artificial inseminator (poultry)

MINOR GROUP 619 AGRICULTURAL WORKERS NOT ELSEWHERE CLASSIFIED

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 6190 Agricultural Workers Not Elsewhere Classified

Unit Group 6190 Agricultural Workers Not Elsewhere Classified

This unit group covers agricultural workers not classified elsewhere in Sub-major Group 61 'Agricultural Workers'. For instance, the group includes tree and shrub crop growers as well as mixed crop workers that plan, organise and perform farming operations to grow and harvest specific combinations of field crops, field vegetables, tree and shrub crops, and garden, horticultural and nursery products; for sale or delivery on a regular basis to wholesale buyers, marketing organisations

or at markets. In addition, the unit group also includes forestry workers who carry out the necessary operations to cultivate and conserve forests.

Tasks include:

- preparing soil by hand or machine, and spreading fertilisers and manure
- selecting and sowing seeds, and planting seedlings
- maintaining crops by cultivating soil, by transplanting, pruning or thinning trees and shrubs, and by setting up and operating irrigation equipment
- controlling weeds, pests and diseases, by applying herbicides and pesticides
- tending trees or bushes, collecting sap and harvesting crops
- producing saplings, bulbs and seeds
- growing flowers and vegetables by intensive cultivation
- harvesting crops inspecting, cleaning, grading, packaging, storing and loading products for sale or delivery to market
- maintaining farm buildings, structures, equipment and water supply systems
- storing and carrying out some processing of produce
- promoting and marketing products, arranging the sale, purchase and transportation of produce and supplies and maintaining and evaluating records of farm activities and transactions

Occupation(s) in this Unit Group:

- 61900 Agricultural worker n.e.c.

Occupation 61900 Agricultural worker n.e.c.

This group includes agricultural workers not elsewhere classified in Sub-major Group 61 'Agricultural Workers'.

Example(s) of job classified under this code:

- Forestry worker
- Mixed farm worker
- Rubber farmer

Example(s) of job not classified under this code:

- Crop picker, see 92190

SUB-MAJOR GROUP 62 FISHERY WORKERS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 622 FISHERY WORKERS

MINOR GROUP 622 FISHERY WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 6221 Aquaculture Workers
- 6222 Coastal Waters and Deep Sea Fishery Workers

Unit Group 6221 Aquaculture Workers

Aquaculture workers breed and raise fish and cultivate mussels, oysters and other forms of aquatic life including crocodiles, for sale or delivery on a regular basis to wholesale buyers, marketing organisations or at markets.

Tasks include:

- breeding, raising and cultivating fish, mussels, oysters and other forms of aquatic life as cash crops or for release into freshwater or saltwater
- collecting and recording growth, production and environmental data
- conducting and supervising stock examinations in order to identify diseases or parasites
- monitoring environments to ensure maintenance of optimum conditions for aquatic life
- directing and monitoring trapping and spawning of fish, egg incubation, and fry rearing, applying knowledge of management and fish culturing techniques
- cleaning, freezing, icing or salting catch on or offshore and preparing fish and other products for shipment
- maintaining buildings, tanks, machinery, boats and other equipment
- delivering or marketing products
- renting or investing in buildings, equipment and machinery and purchasing food and other supplies
- supervising and training aquaculture and fish hatchery support workers

Occupation(s) in this Unit Group:

- 62211 Fish/Prawn farm worker
- 62212 Aquarium fish farm worker
- 62219 Other aquatic life cultivation workers (e.g. oyster farm worker)

Occupation 62211 Fish/Prawn farm worker

Fish/Prawn farm worker performs a variety of tasks in the breeding and raising of fishes and prawns. He/she obtains and hatches fish eggs or buys young fish (fry) from fish hatcheries. He/she collects, sorts and markets fishes and prawns for food or for stocking rivers, lakes and other fishing grounds.

Example(s) of job classified under this code:

- Fish hatcher
- Prawn farmer

Example(s) of job not classified under this code:

- Agriculture manager, see 13100
- Aquaculture support worker, see 92190

Occupation 62212 Aquarium fish farm worker

Aquarium fish farm worker breeds and raises aquarium fish for sale. He/she buys young fish (fry) and transfers fry to aquariums and provides required foods. He/she collects, sorts and packs aquarium fish for sale.

Example(s) of job classified under this code:

- Aquarium fish breeder
- Fish hatchery worker (aquarium)

Occupation 62219 Other aquatic life cultivation workers (e.g. oyster farm worker)

This group includes aquatic life cultivation workers not elsewhere classified.

Example(s) of job classified under this code:

- Crocodile farm worker
- Oyster farm worker

Unit Group 6222 Coastal Waters and Deep Sea Fishery Workers

Coastal waters and deep sea fishery workers, alone, or either as skippers or members of fishing crews, catch fish or gather other forms of aquatic life in deep sea, inland or coastal waters for sale or delivery to wholesale buyers, marketing organisations or at markets.

Tasks include:

- preparing and repairing nets and other fishing gear and equipment

- selecting area for fishing, plotting courses and computing navigational positions using compass, charts and other aids
- commanding and operating fishing vessels to, from and at fishing grounds
- steering vessels and operating navigational instruments and electronic fishing aids
- baiting, setting, operating and hauling in fishing gear by hand or using hoisting equipment
- gathering various forms of aquatic life from shores and shallow waters
- maintaining engine fishing gear and other on-board equipment
- keeping records of transactions, fishing activities, weather and sea conditions on ship's log and estimating costs and budgets
- cleaning, freezing, icing or salting catch on or offshore, followed by sorting, and storing catch in holds with salt and ice
- removing catches from fishing equipment, measuring them to ensure compliance with legal size and returning undesirable or illegal catches to the water
- directing fishing operations and supervising fishing crew members
- selecting and training vessel crews

Occupation(s) in this Unit Group:

- 62220 Coastal waters/Deep sea fishery worker

Occupation 62220 Coastal waters/Deep sea fishery worker

Coastal waters/Deep sea fishery worker, alone, or either as skipper or member of fishing crews, catches fish or gathers other forms of aquatic life in deep sea, inland or coastal waters for sale or delivery to wholesale buyers, marketing organisations or at markets.

Example(s) of job classified under this code:

- Kelong fisherman
- Trawler crewman

Example(s) of job not classified under this code:

- Fishery manager, see 13100

MAJOR GROUP 7 CRAFTSMEN AND RELATED TRADES WORKERS

Occupation(s) in this Major Group are classified into the following Sub-major Group(s):

- 71 BUILDING AND RELATED TRADES WORKERS, EXCLUDING ELECTRICIANS
- 72 METAL, MACHINERY AND RELATED TRADES WORKERS
- 73 PRECISION, HANDICRAFT, PRINTING AND RELATED TRADES WORKERS
- 74 ELECTRICAL AND ELECTRONIC TRADES WORKERS
- 75 FOOD PROCESSING, WOODWORKING, GARMENT, LEATHER AND OTHER CRAFT AND RELATED TRADES WORKERS

SUB-MAJOR GROUP 71 BUILDING AND RELATED TRADES WORKERS, EXCLUDING ELECTRICIANS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 710 SUPERVISORS AND GENERAL FOREMEN (BUILDING AND RELATED TRADES)
- 711 BUILDING FRAME AND RELATED TRADES WORKERS
- 712 BUILDING FINISHERS AND RELATED TRADES WORKERS
- 713 PAINTERS, BUILDING STRUCTURE CLEANERS AND RELATED WORKERS

MINOR GROUP 710 SUPERVISORS AND GENERAL FOREMEN (BUILDING AND RELATED TRADES)

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7100 Supervisors and General Foremen (Building and Related Trades)

Unit Group 7100 Supervisors and General Foremen (Building and Related Trades)

Supervisors and general foremen (building and related trades) supervise activities of a distinct unit at a construction site, control and coordinate the activities of workers who are engaged in various occupations.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems

- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 71000 Supervisor/General foreman (building and related trades)

Occupation 71000 Supervisor/General foreman (building and related trades)

Supervisor/General foreman (building and related trades) supervises activities of a distinct unit at a construction site, controls and coordinates the activities of workers who are engaged in various occupations.

Example(s) of job classified under this code:

- Building construction general foreman
- Construction chargehand
- Civil engineering construction supervisor
- Architectural supervisor
- Plumbing installation and repair supervisor

MINOR GROUP 711 BUILDING FRAME AND RELATED TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7112 Bricklayers and Related Workers
- 7113 Stone Cutters, Splitters, Carvers and Stonemasons
- 7114 Concrete Placers, Concrete Finishers and Related Workers
- 7115 Carpenters and Joiners
- 7119 Building Frame and Related Trades Workers Not Elsewhere Classified

Unit Group 7112 Bricklayers and Related Workers

Bricklayers and related workers lay bricks, pre-cut stones and other types of building stones in mortar to construct and repair walls, partitions, arches and other structures.

Tasks include:

- laying stone, brick and similar building blocks to construct or repair walls, partitions, fireplaces and other structures such as smokestacks, furnaces, converters, kilns and ovens, piers and abutments

- laying footpaths, kerbs and pavements
- laying bricks or other masonry to build patios, garden walls and other decorative installations

Occupation(s) in this Unit Group:

- 71120 Bricklayer/Blocklayer

Occupation 71120 Bricklayer/Blocklayer

Bricklayer/Blocklayer lays bricks, pre-cut stones and other types of building stones in mortar to construct and repair walls, partitions, arches and other structures.

Example(s) of job classified under this code:

- Kerbs installer
- Kiln bricklayer

Example(s) of job not classified under this code:

- Stonemason (construction), see 71130
- Construction labourer, see 93100

Unit Group 7113 Stone Cutters, Splitters, Carvers and Stonemasons

Stone cutters, splitters, carvers and stonemasons cut and shape hard and soft stone blocks and slabs for the construction and maintenance of stone structures and monumental masonry and carve designs and figures in stones.

Tasks include:

- driving wedges into quarried stone to break it into slabs or blocks
- selecting and grading slabs of blocks of granite, marble and other stone
- cutting, shaping and finishing building and monumental stone such as granite or marble by using hand or hand-powered tools
- making patterns and marking shapes on stone for subsequent sawing, planing, drilling and other dressing and cutting operations
- cutting and carving characters, figures or designs on stone blocks used for monuments or memorials
- setting stone in the erection of monuments or memorials
- repairing and replacing stonework on old buildings, churches and monuments

Occupation(s) in this Unit Group:

- 71130 Stone cutter, splitter, carver and stonemason

Occupation 71130 Stone cutter, splitter, carver and stonemason

Stone cutter, splitter, carver and stonemason cuts and shapes hard and soft stone blocks and slabs for the construction and maintenance of stone structures and monumental masonry and carves designs and figures in stones.

Example(s) of job classified under this code:

- Marble polisher
- Stone grader
- Stonemason (construction)

Example(s) of job not classified under this code:

- Blocklayer, see 71120
- Mosaic cutter and setter, see 71220

Unit Group 7114 Concrete Placers, Concrete Finishers and Related Workers

Concrete placers, concrete finishers and related workers erect reinforced concrete frameworks and structures, make forms for moulding concrete, reinforce concrete surfaces, cement openings in walls or casing for wells, finish and repair cement surfaces and carry out terrazzo work.

Tasks include:

- constructing and repairing reinforced concrete floors, walls, tanks, silos and other concrete structures
- making shuttering or assembling pre-fabricated forms for moulding concrete
- cementing openings in walls or casings for wells
- finishing and smoothing surfaces of concrete structures
- applying a durable, smooth surfacing composed of cement, sand pigment and marble particles to floors, known as a terrazzo finish

Occupation(s) in this Unit Group:

- 71141 Concrete form worker
- 71142 Cement finisher/Screeder
- 71149 Other concrete placers, concrete finishers and related workers

Occupation 71141 Concrete form worker

Concrete form worker builds, assembles, places in position and dismantles rough wooden structures (shuttering) into which concrete is poured and allowed to set. He/she marks out,

cuts and adjusts wood to be assembled in shuttering partitions or assembles shuttering from prefabricated wooden parts.

Example(s) of job classified under this code:

- Concrete shutterer

Example(s) of job not classified under this code:

- Concrete finishing machine operator (road paving), see 83429

Occupation 71142 Cement finisher/Screeder

Cement finisher/Screeder finishes surfaces of concrete structures and smooths surfaces of freshly poured concrete sections. He/she cuts ridges, bumps and projecting wire from concrete surface with chisel and hammer. He/she patches holes and broken corners by wetting them.

Example(s) of job classified under this code:

- Concrete finisher

Occupation 71149 Other concrete placers, concrete finishers and related workers

This group includes concrete placers, concrete finishers and related workers not elsewhere classified.

Example(s) of job classified under this code:

- Concrete curer
- Precast concrete erector

Example(s) of job not classified under this code:

- Road surface laying machine operator, see 83429

Unit Group 7115 Carpenters and Joiners

Carpenters and joiners cut, shape, assemble, erect, maintain and repair various types of structures and fittings made from wood and other materials.

Tasks include:

- making, altering and repairing structural and other woodwork at a work-bench and on a construction site
- constructing, erecting and installing heavy-framed wooden structures on building sites
- fitting, assembling and altering internal and external fixtures of buildings, such as walls, doors, door and window frames, facings and panelling

- making, repairing and fitting scenic equipment for theatrical performances, motion picture or television productions
- constructing, assembling, altering and repairing wooden fixtures and fittings in train coaches, aircraft, ships, boats, floats and other vehicles

Occupation(s) in this Unit Group:

- 71151 Carpenter
- 71152 Joiner

Occupation 71151 Carpenter

Carpenter cuts out, assembles, erects and repairs structural and other woodwork at work bench and on construction site. He/she works from plans, sketches or instructions received and marks out reference points accordingly to facilitate cutting and shaping.

Example(s) of job classified under this code:

- Barge builder (wood)
- Billboard erector
- Wood shipwright

Example(s) of job not classified under this code:

- Cabinet maker (furniture), see 75220

Occupation 71152 Joiner

Joiner fits, assembles and installs wooden internal and external fixtures of buildings such as door and window frames, facings and panelling in workshop or on site. He/she may make parts of woodwork.

Example(s) of job classified under this code:

- Door installer
- Window grills installer

Unit Group 7119 Building Frame and Related Trades Workers Not Elsewhere Classified

This unit group covers building frame and related trades workers not elsewhere classified in Minor Group 711 'Building Frame and Related Trades Workers'. For example, the unit group includes steeplejacks, scaffolders and demolition workers.

Tasks include:

- climbing and performing miscellaneous construction and building maintenance work on structures such as towers, chimneys and spires
- erecting temporary metal or wooden scaffolding on building sites
- demolishing buildings and other structures

Occupation(s) in this Unit Group:

- 71191 Scaffolder
- 71192 Cladding/Curtain wall erector
- 71199 Other building frame and related trades workers n.e.c. (e.g. steeplejack)

Occupation 71191 Scaffolder

Scaffolder erects temporary metal or wooden scaffolding on building sites for construction, renovation, exterior painting and similar purposes. He/she fixes upright members in place and secures horizontal members to uprights to support platforms.

Example(s) of job classified under this code:

- Scaffolding rigger

Example(s) of job not classified under this code:

- Hoisting equipment rigger, see 72150

Occupation 71192 Cladding/Curtain wall erector

Cladding/Curtain wall erector installs cladding and curtain wall for the external walls of buildings.

Example(s) of job not classified under this code:

- Construction labourer, see 93100

Occupation 71199 Other building frame and related trades workers n.e.c. (e.g. steeplejack)

This group includes building frame and related trades workers not elsewhere classified.

Example(s) of job classified under this code:

- Prefabricated building section assembler
- Steeplejack

Example(s) of job not classified under this code:

- Sandblaster (building exteriors), see 71332

MINOR GROUP 712 BUILDING FINISHERS AND RELATED TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7121 Roofers
- 7122 Floor Layers and Tile Setters
- 7123 Plasterers
- 7124 Insulation Workers
- 7125 Glaziers
- 7126 Plumbers, Pipe Fitters and Related Workers
- 7127 Air-Conditioning and Refrigeration Mechanics
- 7129 Building Finishers and Related Trades Workers Not Elsewhere Classified

Unit Group 7121 Roofers

Roofers build and repair roofs on all types of buildings using one or more kinds of materials.

Tasks include:

- studying drawings, specifications and construction sites to determine materials required
- covering roof frameworks with slate and pre-fabricated tiles to cover pitched roofs
- laying a waterproof shield and fixing metallic or synthetic materials to a building's frame
- sizing and cutting roofing materials to fit around edges corners and protuberances such as chimney
- using natural materials such as thatching to provide roof coverings
- creating temporary structures such as scaffolding and ladders

Notes:

Installers of metal roofing are classified in Unit Group 7121 'Roofers'. Workers who make sheet metal products for adaptation and installation by roofers are classified in Unit Group 7213 'Sheet Metal Workers'.

Occupation(s) in this Unit Group:

- 71210 Roofer

Occupation 71210 Roofer

Roofer builds and repairs roofs on all types of buildings using one or more kinds of materials. He/she builds, repairs and covers roofs of structures with shingles, slate, asphalt, aluminium,

wood, or related materials. He/she may spray roofs, sidings, and walls with material to bind, seal, insulate, or soundproof sections of structures.

Example(s) of job classified under this code:

- Metal roofer
- Slate and tile roofer
- Thatcher
- Roofing contractor
- Roofing plumber

Example(s) of job not classified under this code:

- Sheet metal worker, see 72130

Unit Group 7122 Floor Layers and Tile Setters

Floor layers and tile setters install, maintain and repair flooring, and cover floors, walls and other surfaces with tiles or mosaic panels for decorative or other purposes.

Tasks include:

- preparing floor areas for covering with a variety of materials
- assembling carpet, tiles or other materials and laying them on floors according to design and other specifications
- preparing wall areas for covering with tiles or other materials for decorative or other purposes such as acoustic insulation
- setting tiles and construction and laying mosaic panels to walls, floors and other surfaces

Occupation(s) in this Unit Group:

- 71220 Floor/Wall tiler

Occupation 71220 Floor/Wall tiler

Floor/Wall tiler installs, maintains and repairs flooring, and covers floors, walls and other surfaces with tiles or mosaic panels for decorative or other purposes. He/she cuts tiles to the right size and shape, prepares the surface, and puts the tiles in place flush and straight.

Example(s) of job classified under this code:

- Floor layer (composition tiles)
- Mosaic cutter and setter
- Parquetry worker

- Timber flooring worker

Example(s) of job not classified under this code:

- Granite polisher, see 71130

Unit Group 7123 Plasterers

Plasterers install, maintain and repair plasterboard in buildings, and apply decorative and protective coverings of plaster, cement and similar material to the interiors and exteriors of structures.

Tasks include:

- applying one or more coats of plaster to interior walls and ceilings of buildings to produce finished surface
- measuring, marking and installing ornamental plastic panels, and casting and trimming ornamental plastic cornices
- applying protective and decorative covering of cement, plastic and similar materials to exterior building surfaces
- making and installing decorative plastic fixtures of fibrous plaster

Occupation(s) in this Unit Group:

- 71230 Plasterer

Occupation 71230 Plasterer

Plasterer installs, maintains and repairs plasterboard in buildings, and applies decorative and protective coverings of plaster, cement and similar material to the interiors and exteriors of structures. He/she applies one or more coats of plaster to interior walls and ceilings of buildings to produce a finished surface.

Example(s) of job classified under this code:

- Partition installer (plaster)
- Dry wall installer (plasterer)

Unit Group 7124 Insulation Workers

Insulation workers apply and repair insulating materials to buildings, boilers, pipes or refrigeration and air-conditioning equipment.

Tasks include:

- cutting insulation material by shape and size

- applying slabs and sheets of insulating or sound-absorbing materials to walls, floors and ceilings of buildings
- blow and pack insulating or sound-absorbing materials into cavities between walls, floors and ceilings of buildings with power-driven machines
- examining plans, specifications and work sites to determine the type, quality and quantity of insulation material required
- applying insulation materials to exposed surfaces of equipment such as boilers, pipes and tanks
- insulating refrigeration and air-conditioning equipment

Occupation(s) in this Unit Group:

- 71241 Refrigeration/Air-conditioning equipment insulator
- 71242 Boiler/Pipe insulator
- 71249 Other insulation workers

Occupation 71241 Refrigeration/Air-conditioning equipment insulator

Refrigeration/Air-conditioning equipment insulator applies and repairs insulating materials to buildings, boilers, pipes or refrigeration and air-conditioning equipment. He/she examines plans, specifications and work sites to determine the type, quality and quantity of insulation material required.

Occupation 71242 Boiler/Pipe insulator

Boiler/Pipe insulator applies insulating material such as asbestos, cork, felt or mineral wool to exposed surfaces of equipment such as boilers, pipes and tanks.

Example(s) of job classified under this code:

- Boiler and pipe insulator

Occupation 71249 Other insulation workers

This group includes insulators workers not elsewhere classified.

Example(s) of job classified under this code:

- Building insulator
- Sound proofing insulator
- Waterproofing worker

Unit Group 7125 Glaziers

Glaziers measure, cut, finish, fit and install flat glass and mirrors.

Tasks include:

- selecting the type of glass to be used, cutting to right size and shape and installing in windows, doors, showers and partitions of buildings
- installing glass and mirrors in skylights, display cases, interior walls and ceilings
- installing or replacing windscreens in vehicles or boats
- creating decorative glass features such as glass walls, staircases, balustrades and stained-glass windows

Occupation(s) in this Unit Group:

- 71250 Glazier

Occupation 71250 Glazier

Glazier measures, cuts, finishes, fits and installs flat glass and mirrors. He/she cuts glass with cutting tool according to pattern or outline and smooths rough edges.

Example(s) of job classified under this code:

- Glass installer (vehicles)
- Glass setter (building)
- Glass technician
- Glass fitter

Example(s) of job not classified under this code:

- Glass cutter, see 73150

Unit Group 7126 Plumbers, Pipe Fitters and Related Workers

Plumbers, pipe fitters and related workers assemble, install, repair and maintain pipe systems, fittings and fixtures for water, gas, drainage, sewage systems, and hydraulic and pneumatic equipment.

Tasks include:

- measuring, cutting, threading, bending, jointing, assembling, installing, maintaining and repairing pipes, fittings and fixtures of drainage, heating water supply and sewage systems
- installing gas appliances, dishwashers and water heaters, sinks and toilets using hand and power tools
- laying clay, concrete or cast-iron pipes in ditches to form sewers, drains or water mains, or for other purposes

- inspecting, examining and testing installed systems and pipes, using pressure gauge, hydrostatic testing, observation or other methods

Notes:

Installers of metal drains, gutters and ducts are classified in Unit Group 7126 'Plumbers and Pipe Fitters'. Workers who make sheet metal products for adaptation and installation by plumbers are classified in Unit Group 7213 'Sheet Metal Workers'.

Occupation(s) in this Unit Group:

- 71261 Plumber
- 71262 Pipe fitter
- 71263 Pipe/Drain layer

Occupation 71261 Plumber

Plumber assembles, installs and maintains pipes, fittings and fixtures of drainage, heating, water supply and sanitary systems. He/she examines drawings and other specifications, locates and marks position of pipe and pipe connections and passage holes for pipes in walls and floors.

Example(s) of job classified under this code:

- Pool and filtration system worker
- Sanitary and plumbing worker

Occupation 71262 Pipe fitter

Pipe fitter assembles, installs and maintains high-pressure and low-pressure systems of metal pipes for conducting air, gas, steam, oil, water and other fluids. He/she finds and repairs leaks, joints, couplings and other fittings.

Example(s) of job classified under this code:

- Aircraft pipe and tube fitter
- Gas pipe fitter
- Marine pipe fitter
- Steam pipe fitter

Example(s) of job not classified under this code:

- Air-conditioning and refrigerating equipment mechanic, see 71271
- Air-conditioning and refrigerating equipment installer, see 71272

Occupation 71263 Pipe/Drain layer

Pipe/Drain layer lays pipes of glazed and unglazed clay, concrete, cast-iron and other materials in ditches to form sewers, drains, water mains and conduits for cables and other purposes. He/she smooths bottom of ditch to proper level and cuts out place for bell end of pipe.

Example(s) of job classified under this code:

- Mains layer and jointer

Unit Group 7127 Air-Conditioning and Refrigeration Mechanics

Air-conditioning and refrigeration mechanics assemble, install, maintain and repair air-conditioning and refrigeration systems and equipment.

Tasks include:

- interpreting blueprints, drawings or other specifications
- assembling, installing and repairing components for air-conditioning and refrigeration systems
- connecting piping equipment by bolting, riveting, welding or brazing
- testing systems, diagnosing faults and performing routine maintenance or servicing

Occupation(s) in this Unit Group:

- 71271 Air-conditioning/Refrigeration equipment mechanic
- 71272 Air-conditioning/Refrigeration plant installer

Occupation 71271 Air-conditioning/Refrigeration equipment mechanic

Air-conditioning/Refrigeration equipment mechanic maintains and repairs industrial, commercial and domestic air-conditioning and refrigeration systems and equipment.

Example(s) of job classified under this code:

- Air-conditioning servicer
- Refrigerator servicer

Example(s) of job not classified under this code:

- Plumber, see 71261
- Aircraft pipe and tube fitter, see 71262
- Drain layer, see 71263
- Air-conditioning and refrigerating equipment installer, see 71272

Occupation 71272 Air-conditioning/Refrigeration plant installer

Air-conditioning/Refrigeration plant installer installs residential central air-conditioning systems, commercial and industrial refrigeration and air-conditioning systems.

Unit Group 7129 Building Finishers and Related Trades Workers Not Elsewhere Classified

This unit group consists of building finishers and related trades workers not elsewhere classified in Minor Group 712 'Building Finishers and Related Trades Workers'.

Tasks include:

- performing miscellaneous installing, maintenance and repairing work on structures such as office buildings, apartment houses, factories and similar establishments in good repair
- performing construction, maintenance or repair work at unusual heights
- performing related tasks

Occupation(s) in this Unit Group:

- 71290 Building finisher and related trades worker n.e.c.

Occupation 71290 Building finisher and related trades worker n.e.c.

This group includes building finisher and related trades worker not elsewhere classified in Minor Group 712 'Building Finishers and Related Trades Workers'.

Example(s) of job classified under this code:

- Carpet layer
- Signage installer (Non-electronic)

MINOR GROUP 713 PAINTERS, BUILDING STRUCTURE CLEANERS AND RELATED WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7131 Building Painters and Related Workers
- 7132 Spray Painters, Varnishers and Other Painters
- 7133 Building Maintenance Workers, Building Structure Cleaners and Related Workers

Unit Group 7131 Building Painters and Related Workers

Building painters and related workers prepare surfaces of buildings and other structures for painting, apply protective and decorative coats of paint or similar materials, or cover interior walls and ceilings of buildings with wallpaper or other finishes.

Tasks include:

- cleaning and preparing walls and other surfaces of buildings for painting or wallpapering
- selecting and preparing paints to required colours by mixing pigments and additives
- applying or spraying paint, varnish and similar materials to surfaces, fixtures and fittings of buildings
- measuring and hanging wallpaper or other fabrics on interior walls and ceilings
- applying paints, varnishes and stains to surfaces using brushes, rollers and sprays

Occupation(s) in this Unit Group:

- 71311 Building painter
- 71312 Wall/Ceiling paperhanger

Occupation 71311 Building painter

Building painter paints walls, equipment, buildings, bridges, and other structural surfaces, using brushes, rollers, and spray guns. He/she may remove old paint to prepare surface prior to painting and mix colours or oils to obtain the desired colour or consistency.

Example(s) of job classified under this code:

- House painter
- Construction painter

Example(s) of job not classified under this code:

- Painter (artist), see 26511
- Ship hull and structural steel painter, see 71321
- Glass decorator-painter, see 73160

Occupation 71312 Wall/Ceiling paperhanger

Wall/Ceiling paperhanger covers interior walls and ceilings of buildings with wallpaper. He/she removes old paper with scraper, water and chemicals, and also cleans surface, fills cracks and holes with plaster and brushes sizing on surfaces.

Example(s) of job classified under this code:

- Wallpaper hanger

Unit Group 7132 Spray Painters, Varnishers and Other Painters

Spray painters, varnishers and other painters operate spray painting and varnishing equipment to apply protective coatings to manufactured items or structures.

Tasks include:

- preparing surfaces to be coated using a variety of methods to remove grease, dirt and rust
- painting cars, buses, trucks and other vehicles, and applying varnish and other protective coatings
- applying paint as well as protective coatings of enamel or varnish on metal, wooden and other manufactured products, usually with a hand-spraying device

Occupation(s) in this Unit Group:

- 71321 Structural steel/Ship painter
- 71322 Motor vehicle spray painter
- 71323 Sign painter
- 71324 Spray painter (except ships, motor vehicles and signs)
- 71329 Other painters and related workers

Occupation 71321 Structural steel/Ship painter

Structural steel/Ship painter applies coatings of paint, red lead, bituminous emulsion and similar protective materials on bridges, ships' hulls and metal superstructure, steel framework of buildings, storage tanks and other metal structures. He/she rigs up scaffolding, cradles, ladders and other equipment, and scrapes dirt, rust or scale from surface to be painted.

Example(s) of job classified under this code:

- Ship hull and structural steel painter

Example(s) of job not classified under this code:

- Construction painter, see 71311

Occupation 71322 Motor vehicle spray painter

Motor vehicle spray painter paints automotive vehicles such as automobiles, buses and trucks. He/she removes paint from vehicle or damaged parts using paint solvent and scraper, applies base coating and rubs it down to smooth surface.

Example(s) of job classified under this code:

- Automobile repair painter
- Motorcycle painter

Occupation 71323 Sign painter

Sign painter plans, lays out, and paints letters and designs to make signs. He/she prepares layout for sign, marks outlines of letters and designs directly on surface to be painted, or transfers outline from paper to surface to be painted.

Example(s) of job classified under this code:

- Advertisement painter (sign writing)
- Letterer (sign writing)
- Signboard painter

Occupation 71324 Spray painter (except ships, motor vehicles and signs)

Spray painter (except ships, motor vehicles and signs) applies decorative and protective coatings of paint, enamel and lacquer on metal, wooden and other manufactured articles with a hand-spraying device. He/she selects and mixes paints to obtain the desired colour, and pours coating material into tank of spraying device.

Occupation 71329 Other painters and related workers

This group includes painters and related workers not elsewhere classified.

Example(s) of job classified under this code:

- Highway lane marker
- Painter-retoucher (manufacturing)
- Stage scenery painter

Example(s) of job not classified under this code:

- Building painter, see 71311
- Ceramic spray painter, see 73160
- Metal sprayer, see 81240

Unit Group 7133 Building Maintenance Workers, Building Structure Cleaners and Related Workers

Building maintenance workers, building structure cleaners and related workers clean exterior surfaces of buildings and other structures, and remove soot from chimneys. They also perform maintenance work on buildings and other related works.

Tasks include:

- performing miscellaneous construction and building maintenance work on structures such as office buildings, apartment houses, factories and similar establishments in good repair
- cleaning exterior surfaces of stone, brick, metal or similar materials by means of chemicals, or a jet of steam or sand applied under high pressure
- removing soot from flues, chimneys and connecting pipes
- removing asbestos, mould and fire-damaged surfaces from buildings

Occupation(s) in this Unit Group:

- 71331 Building maintenance worker
- 71332 Building structure cleaner and related worker

Occupation 71331 Building maintenance worker

Building maintenance worker keeps structures such as office buildings, apartment houses, hotels and factory buildings in good condition. He/she performs concreting, bricklaying, carpentry, painting and other construction maintenance duties, and replaces defective electrical switches and other fixtures.

Example(s) of job classified under this code:

- Building repairer

Occupation 71332 Building structure cleaner and related worker

Building structure cleaner and related worker cleans and refurbishes building exteriors, carpets, chimneys, industrial equipment, ventilation systems, windows and other surfaces, using specialised equipment and techniques.

Example(s) of job classified under this code:

- Building exterior cleaner
- Sandblaster (building exteriors)

Example(s) of job not classified under this code:

- Industrial establishment cleaner (outdoor), see 91132
- Window cleaner, see 91230

SUB-MAJOR GROUP 72 METAL, MACHINERY AND RELATED TRADES WORKERS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 720 SUPERVISORS AND GENERAL FOREMEN (METAL, MACHINERY AND RELATED TRADES)

- 721 SHEET AND STRUCTURAL METAL WORKERS, MOULDERS AND WELDERS AND RELATED TRADES WORKERS
- 722 BLACKSMITHS, TOOLMAKERS AND RELATED TRADES WORKERS
- 723 MACHINERY MECHANICS, FITTERS AND REPAIRERS

MINOR GROUP 720 SUPERVISORS AND GENERAL FOREMEN (METAL, MACHINERY AND RELATED TRADES)

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7200 Supervisors and General Foremen (Metal, Machinery and Related Trades)

Unit Group 7200 Supervisors and General Foremen (Metal, Machinery and Related Trades)

Supervisors and general foremen (metal, machinery and related trades) supervise production activities within a distinct unit of an establishment concerned with fabrication of metal products, preparation and erection of metal structures, or fitting and installing mechanical, and control and coordinate the activities of workers in various occupations.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems
- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 72000 Supervisor/General foreman (metal, machinery and related trades)

Occupation 72000 Supervisor/General foreman (metal, machinery and related trades)

Supervisor/General foreman (metal, machinery and related trades) supervises production activities within a distinct unit of an establishment concerned with fabrication of metal products, preparation and erection of metal structures, or fitting and installing mechanical, and controls and coordinates the activities of workers in various occupations.

Example(s) of job classified under this code:

- Non-electronic machinery manufacturing and repair supervisor
- Ship building and repairing supervisor

MINOR GROUP 721 SHEET AND STRUCTURAL METAL WORKERS, MOULDERS AND WELDERS AND RELATED TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7211 Metal Moulders and Coremakers
- 7212 Welders and Flame Cutters
- 7213 Sheet Metal Workers
- 7214 Structural Metal Preparers and Erectors
- 7215 Riggers and Cable Splicers

Unit Group 7211 Metal Moulders and Coremakers

Metal moulders and coremakers make moulds and cores for casting metal.

Tasks include:

- making moulds by hand or using auxiliary machines on a bench for small metal castings, on the foundry floor, or in a pit for large castings
- making cores for use in metal moulds
- cleaning and smoothing moulds, core boxes, and repairing surface imperfections
- moving and positioning work pieces such as mould sections, patterns, and bottom boards, using cranes, or signalling others to move work pieces
- positioning work patterns inside mould sections and clamping sections together
- cutting sprouts, running holes and sprue holes into moulds
- lifting upper mould sections from lower sections and remove moulded patterns

Occupation(s) in this Unit Group:

- 72110 Metal moulder and coremaker

Occupation 72110 Metal moulder and coremaker

Metal moulder and coremaker makes moulds and cores for casting metal.

Example(s) of job classified under this code:

- Jarring machine moulder
- Stripping-plate machine moulder
- Tube coremaker

Example(s) of job not classified under this code:

- Automatic transfer machine operator (metalworking), see 81251

Unit Group 7212 Welders and Flame Cutters

Welders and flame cutters weld and cut metal parts using gas flame, electric arc and other sources of heat to melt and cut, or to melt and fuse metal.

Tasks include:

- welding metal parts using gas flame, or an electric arc, thermite compound or other methods
- operating resistance-welding machines
- using blowtorch to make and repair lead linings, pipes, floors and other lead fixtures
- brazing metal parts together
- cutting metal pieces using gas flame or an electric arc
- joining metal parts by hand soldering
- monitoring the fitting, burning, and welding processes to avoid overheating of parts or warping, shrinking, distortion, or expansion of material
- examining work pieces for defects and measuring work pieces with straight edges or templates to ensure conformance with specifications

Occupation(s) in this Unit Group:

- 72120 Welder and flame cutter

Occupation 72120 Welder and flame cutter

Welder and flame cutter welds and cuts metal parts using gas flame, electric arc and other sources of heat to melt and cut, or to melt and fuse metal.

Example(s) of job classified under this code:

- Solderer
- Flame cutter
- Gas cutting machine operator (metal)

Unit Group 7213 Sheet Metal Workers

Sheet metal workers make, install and repair articles and parts of articles made out of sheet metal such as sheet steel, copper, tin, brass, aluminium, zinc or galvanised iron.

Tasks include:

- marking sheet metal for cutting and shaping
- making and repairing household utensils and other articles in tin, copper and light alloys, or ornamental articles and fittings
- making and repairing boilers, tanks, vats and similar containers
- installing and repairing sheet-metal parts of vehicles and aircraft
- converting blueprints into shop drawings to be followed in the construction and assembly of sheet metal products
- determining project requirements, including scope, assembly sequences, and required methods and materials, according to blueprints, drawings, and written or verbal instructions
- inspecting product quality and installation to ensure conformance to specifications

Notes:

Installers of metal roofing are classified in Unit Group 7121 'Roofers'. Installers of metal drains, gutters and ducts are classified in Unit Group 7126 'Plumbers and Pipe Fitters'. Workers who make sheet metal products for adaptation and installation by roofers and plumbers are classified in Unit Group 7213 'Sheet Metal Workers'.

Occupation(s) in this Unit Group:

- 72130 Sheet metal worker

Occupation 72130 Sheet metal worker

Sheet metal worker makes, installs and repairs articles and parts of articles made out of sheet metal such as sheet steel, copper, tin, brass, aluminium, zinc or galvanised iron.

Example(s) of job classified under this code:

- Boilermaking plater
- Auto-body repairer
- Panel beater (vehicle)
- Vehicle body repairer
- Coppersmith

Unit Group 7214 Structural Metal Preparers and Erectors

Structural metal preparers and erectors assemble, erect and dismantle structural metal frames of buildings and other structures.

Tasks include:

- marking metal framework as a guide when drilling, cutting, and shaping them for use in buildings, ships and other structures
- drilling, cutting and shaping structural steel in a workshop
- erecting steel framework for buildings, bridges and other constructions
- assembling and erecting the framework and other metal parts of ships' structures
- shaping and fitting structural-steel plates of ships under construction or repair
- riveting structural-metal members by hand, machine or pneumatic riveter

Occupation(s) in this Unit Group:

- 72140 Structural metal preparer and erector

Occupation 72140 Structural metal preparer and erector

Structural metal preparer and erector assembles, erects and dismantles structural metal frames of buildings and other structures.

Example(s) of job classified under this code:

- Concrete reinforcing iron worker
- Fencing worker
- Ship beam and frame erector
- Machine riveter
- Ship frame bender and turner

Unit Group 7215 Riggers and Cable Splicers

Riggers and cable splicers assemble rigging gear to move and position equipment and structural components, or install and maintain cables, ropes and wires on construction sites, buildings or other structures.

Tasks include:

- estimating the size, shape and weight of objects to be moved and deciding on the type of equipment to move them
- installing and repairing cables, ropes, wires, pulleys and other tackle

- joining, repairing and fitting attachments to wires, ropes and cables
- working as member of crew erecting and repairing derricks for drilling water, gas- and oil wells
- lifting and mounting scenery, lighting and other equipment in theatres and on film sets
- installing and maintaining communication towers, aerial cableways, funicular railways, ski lifts and similar infrastructure

Occupation(s) in this Unit Group:

- 72150 Rigger and cable splicer

Occupation 72150 Rigger and cable splicer

Rigger and cable splicer assembles rigging gear to move and position equipment and structural components, or to install and maintain cables, ropes and wires on construction sites, buildings or other structures.

Example(s) of job classified under this code:

- Signalman
- Signaller and rigger (Construction)
- Derrick-boat operator
- Underwater cable splicer

Example(s) of job not classified under this code:

- Scaffolding rigger, see 71191
- Hoist operator (construction), see 83431

MINOR GROUP 722 BLACKSMITHS, TOOLMAKERS AND RELATED TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7221 Blacksmiths, Hammersmiths and Forging-Press Workers
- 7222 Toolmakers and Related Workers
- 7224 Metal Polishers, Wheel Grinders and Tool Sharpeners

Unit Group 7221 Blacksmiths, Hammersmiths and Forging-Press Workers

Blacksmiths, hammersmiths and forging-press workers, hammer and forge bars, rods or ingots of iron, steel and other metals to make and repair various kinds of tools, equipment and other articles, set machine tools for operators or set and operate various machine tools and polish and sharpen surfaces.

Tasks include:

- hammering and forging iron, steel and other metals to make and repair various kinds of tools, equipment and other articles
- setting machine tools for operators or setting and operating various machine tools working to fine tolerances
- polishing and sharpening metal surfaces and tools

Occupation(s) in this Unit Group:

- 72210 Blacksmith, hammersmith and forging-press worker

Occupation 72210 Blacksmith, hammersmith and forging-press worker

Blacksmith, hammersmith and forging-press worker, hammers and forges bars, rods or ingots of iron, steel and other metals to make and repair various kinds of tools, equipment and other articles, sets machine tools for operators or sets and operates various machine tools and polishes and sharpens surfaces.

Example(s) of job classified under this code:

- Toolsmith
- Drop forger
- Hot-press operator (forging)
- Ironmongery worker

Example(s) of job not classified under this code:

- Machine-tool operator, see 81251

Unit Group 7222 Toolmakers and Related Workers

Toolmakers and related workers make and repair custom made and specialised tools, sports guns, locks, dies, patterns machinery components and other metal articles using hand and machine tools to work metal to fine tolerances.

Tasks include:

- reading and interpreting engineering drawings and specifications of tools, dies, prototypes or models
- preparing templates and sketches and determining work processes
- visualising and computing dimensions, sizes, shapes, and tolerances of assemblies, based on specifications
- positioning, securing and measuring metal stock or castings to lay out for machining

- setting up, operating and maintaining conventional and computer numerically controlled machine tools to cut, turn, mill, plane, drill, bore, grind or otherwise shape workpiece to prescribed dimensions and finish
- fitting and assembling parts to make and repair jigs, fixtures and gauges
- repairing and modifying sports guns and other small arms
- making, fitting, assembling, repairing and installing lock parts and locks
- making and repairing metal patterns for preparation of foundry moulds
- laying out lines and reference points on metal stock to guide other workers who cut, turn, mill, grind or otherwise shape metal
- verifying dimensions, alignments and clearances of finished parts for conformance to specifications, using precision measuring instruments and testing completed items for proper operation

Occupation(s) in this Unit Group:

- 72221 Tool and die maker
- 72222 Locksmith
- 72229 Other toolmakers and related workers

Occupation 72221 Tool and die maker

Tool and die maker fits and assembles parts to make and repair metal-working dies, cutting tools, jig, fixtures, gauges, and machinists' hand tools. He/she studies drawings, models and other specifications, computes dimensions, plans layout and assembly operations.

Example(s) of job classified under this code:

- Press tool maker
- Jig and gauge maker

Occupation 72222 Locksmith

Locksmith assembles, installs and repairs locks. He/she examines lock parts to check accuracy of fit; chisels, files, scrapes and does other supplementary tooling to correct inaccuracies.

Example(s) of job classified under this code:

- Key and lock specialist
- Lock technician

Occupation 72229 Other toolmakers and related workers

This group includes toolmakers and related workers not elsewhere classified.

Example(s) of job classified under this code:

- Gunsmith

Unit Group 7224 Metal Polishers, Wheel Grinders and Tool Sharpeners

Metal polishers, wheel grinders and tool sharpeners polish and grind metal surfaces and sharpen tools.

Tasks include:

- operating fixed or portable buffing and polishing machines
- sharpening cutting tools and instruments using grinding wheels or mechanically operated grinding machines
- repairing, adjusting and sharpening saw blades and metal teeth of cylinders in textile carding machines
- dressing grinding wheels, according to specifications
- monitoring machine operations to determine whether adjustments are necessary; stop machines when problems occur
- inspecting, feeling, and measuring work pieces to ensure that surfaces and dimensions meet specifications
- selecting and mounting grinding wheels on machines, according to specifications, using hand tools and applying knowledge of abrasives and grinding procedures

Occupation(s) in this Unit Group:

- 72240 Metal polisher, wheel grinder and tool sharpener

Occupation 72240 Metal polisher, wheel grinder and tool sharpener

Metal polisher, wheel grinder and tool sharpener polishes and grinds metal surfaces and sharpens tools.

Example(s) of job classified under this code:

- Metal buffing and polishing machine operator
- Edge tool sharpener
- Saw repairer and sharpener
- Tool grinder (except machine-tool)

Example(s) of job not classified under this code:

- Precision grinding machine setter-operator, see 81252

MINOR GROUP 723 MACHINERY MECHANICS, FITTERS AND REPAIRERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7231 Automotive Mechanics
- 7232 Aircraft Engine Mechanics and Repairers
- 7233 Rolling Stock Mechanics
- 7234 Bicycle and Related Repairers
- 7235 Marine Engine Mechanics and Repairers
- 7239 Other Machinery Mechanics and Repairers

Notes:

Occupations are classified in Major Group 8 'Plant and Machine Operators and Assemblers' if the tasks call mainly for experience with and an understanding of the machinery operated and monitored. Occupations are classified in Major Group 9 'Cleaners, Labourers and Related Workers' if the tasks are of a simple and routine nature, mainly entail the use of hand-held tools, some physical effort, little or no previous experience and understanding of the work and limited initiative or judgement.

Unit Group 7231 Automotive Mechanics

Automotive mechanics fit, install, maintain, service and repair engines and the mechanical and related equipment of passenger cars, delivery trucks, motorcycles and other motor vehicles.

Tasks include:

- detecting and diagnosing faults in engines and parts
- fitting, examining, testing and servicing motor vehicle and motorcycle engines
- replacing engine components or complete engines
- fitting, examining, adjusting, dismantling, rebuilding and replacing defective parts of motor vehicles
- installing or adjusting motors and brakes, and adjusting steering or other parts of motor vehicles
- installing, adjusting, servicing and replacing mechatronics components of motor vehicles
- performing scheduled maintenance services, such as oil changes, lubrications and engine tune ups, to achieve smoother running of vehicles and ensure compliance with pollution regulations
- reassembling engines and parts after being repaired

Occupation(s) in this Unit Group:

- 72310 Automotive mechanic

Occupation 72310 Automotive mechanic

Automotive mechanic fits, installs, maintains, services and repairs engines and the mechanical and related equipment of passenger cars, delivery trucks, motorcycles and other motor vehicles.

Example(s) of job classified under this code:

- Automotive engine tuner
- Garage mechanic (automobile)
- Motor vehicle fitter

Example(s) of job not classified under this code:

- Bicycle repairer, see 72340

Unit Group 7232 Aircraft Engine Mechanics and Repairers

Aircraft engine mechanics and repairers fit, service, repair and overhaul aircraft engines and assemblies, such as airframes, hydraulic, and pneumatic systems.

Tasks include:

- fitting, examining, testing and servicing aircraft engines
- replacing engine components or complete engines
- examining and inspecting airframes and aircraft components, including landing gear, hydraulic systems and deicers to detect wear, cracks, breaks, leaks, or other problems
- maintaining, repairing, overhauling, modifying and testing aircraft structural, mechanical and hydraulic systems
- reading and interpreting manuals, service bulletins, and other specifications to determine the feasibility and method of repairing or replacing malfunctioning or damaged components
- maintaining, repairing, and rebuilding aircraft structures, functional components, and parts such as wings and fuselage, rigging, hydraulic units, oxygen systems, fuel systems, electrical systems, gaskets and seals
- inspecting completed work to certify that maintenance meets standards and the aircraft is ready for operation
- maintaining repair logs, documenting all preventive and corrective aircraft maintenance
- installing and testing electrical and electronic components, assemblies and systems in aircraft
- connecting components to assemblies such as radio systems, instruments, magnetos, inverters and in-flight refuelling systems

Occupation(s) in this Unit Group:

- 72320 Aircraft engine mechanic and repairer

Occupation 72320 Aircraft engine mechanic and repairer

Aircraft engine mechanic and repairer fits, services, repairs and overhauls aircraft engines and assemblies, such as airframes, hydraulic, and pneumatic systems.

Example(s) of job classified under this code:

- Aeronautical mechanic
- Hydraulic systems mechanic (aircraft)
- Aircraft engine fitter-assembler

Unit Group 7233 Rolling Stock Mechanics

Rolling stock mechanics fit, install, examine, service and repair rolling stock equipment and engines.

Tasks include:

- fitting, installing, examining, servicing and repairing rolling stock equipment and engines
- oiling and greasing stationary rolling stock equipment and engines
- inspecting and testing new rolling stock equipment and engines for conformity with standards and specifications
- disassembling rolling stock equipment and engines to remove parts and make repairs
- examining parts for defects such as breakage and excessive wear
- operating newly repaired rolling stock equipment and engines to verify the adequacy of repairs
- recording repairs and maintenance performed

Occupation(s) in this Unit Group:

- 72330 Rolling stock mechanic

Occupation 72330 Rolling stock mechanic

Rolling stock mechanic fits, installs, examines, services and repairs rolling stock equipment and engines.

Example(s) of job classified under this code:

- Diesel engine mechanic (except motor vehicle)
- Internal combustion engine fitter-assembler (except aircraft and marine engine)
- Turbine mechanic (except aircraft turbine)

Unit Group 7234 Bicycle and Related Repairers

Bicycle and related repairers fit, maintain, service and repair the mechanical and related equipment of bicycles, rickshaws, baby carriages, wheelchairs and similar non-motorised transport equipment.

Tasks include:

- examining, servicing and repairing bicycles and other non-motorised transport equipment
- cleaning and lubricating bearings and other moving parts
- replacing and repairing components and accessories such as brakes, gears, driving chain mechanisms, wheels and handlebars
- changing tyres and controlling air pressure
- spray-painting frames
- assembling new bicycles, wheelchairs and similar non-motorised equipment

Occupation(s) in this Unit Group:

- 72340 Bicycle and related repairer

Occupation 72340 Bicycle and related repairer

Bicycle and related repairer fits, maintains, services and repairs the mechanical and related equipment of bicycles, rickshaws, baby carriages, wheelchairs and similar non-motorised transport equipment.

Example(s) of job classified under this code:

- Pedal-cycle repairer
- Bicycle maintenance technician
- Rickshaw mechanic

Unit Group 7235 Marine Engine Mechanics and Repairers

Marine engine mechanics and repairers fit, install, examine, service and repair marine equipment and engines.

Tasks include:

- fitting, installing, examining, servicing and repairing marine equipment and engines
- oiling and greasing marine equipment and engines
- inspecting and testing new marine equipment and engines for conformity with standards and specifications
- disassembling marine equipment and engines to remove parts and make repairs

- examining parts for defects such as breakage and excessive wear
- operating newly repaired marine equipment and engines to verify the adequacy of repairs
- recording repairs and maintenance performed

Occupation(s) in this Unit Group:

- 72350 Marine engine mechanic and repairer

Occupation 72350 Marine engine mechanic and repairer

Marine engine mechanic and repairer fits, installs, examines, services and repairs marine equipment and engines.

Example(s) of job classified under this code:

- Marine engine fitter-assembler
- Marine mechanic

Unit Group 7239 Other Machinery Mechanics and Repairers

Other machinery mechanics and repairers fit, install, examine, service and repair engines, agricultural and industrial machinery and mechanical equipment, except motor vehicles, aircraft, rolling stock, marine, bicycle and electric motors.

Tasks include:

- fitting, installing, examining, servicing and repairing engines, machinery and mechanical equipment
- oiling and greasing stationary engines and machinery
- inspecting and testing new machinery and mechanical equipment for conformity with standards and specifications
- disassembling machinery and equipment to remove parts and make repairs
- examining parts for defects such as breakage and excessive wear
- operating newly repaired machinery and equipment to verify the adequacy of repairs
- recording repairs and maintenance performed

Occupation(s) in this Unit Group:

- 72391 Machinery mechanic
- 72392 Industrial/Office machinery mechanic
- 72399 Other machinery mechanics and repairers n.e.c. (e.g. agricultural machinery mechanic)

Occupation 72391 Machinery mechanic

Machinery mechanic services and repairs various types of machinery, engines and related equipment (except automobile and aircraft engines and electrical apparatus). He/she examines faulty machinery and related equipment to ascertain nature and location of defects.

Example(s) of job classified under this code:

- Machinery fitter
- Machinery erector and installer

Occupation 72392 Industrial/Office machinery mechanic

Industrial/Office machinery mechanic works on new machinery and equipment in operation. He/she sets up for the specific application and builds accessories if necessary in addition to performing maintenance and repair, and running diagnostics to find faults in systems or parts that need replacing.

Example(s) of job classified under this code:

- Accounting and calculating machine mechanic
- Construction machinery mechanic

Occupation 72399 Other machinery mechanics and repairers n.e.c. (e.g. agricultural machinery mechanic)

This group includes machinery mechanics and repairers not elsewhere classified.

Example(s) of job classified under this code:

- Earth moving equipment fitter-assembler
- Plant maintenance mechanic

SUB-MAJOR GROUP 73 PRECISION, HANDICRAFT, PRINTING AND RELATED TRADES WORKERS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 730 SUPERVISORS AND GENERAL FOREMEN (PRECISION, HANDICRAFT, PRINTING AND RELATED TRADES)
- 731 HANDICRAFT AND PRECISION WORKERS
- 732 PRINTING TRADES WORKERS

MINOR GROUP 730 SUPERVISORS AND GENERAL FOREMEN (PRECISION, HANDICRAFT, PRINTING AND RELATED TRADES)

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7300 Supervisors and General Foremen (Precision, Handicraft, Printing and Related Trades)

Unit Group 7300 Supervisors and General Foremen (Precision, Handicraft, Printing and Related Trades)

Supervisors and general foremen (precision, handicraft, printing and related trades) supervise production activities within a distinct unit of an establishment in which precision instruments, musical instruments, jewellery, pottery and glass products are fabricated or within a unit specialising in typesetting and related work in a printing establishment, and control and coordinate the activities of workers in various occupations.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems
- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 73000 Supervisor/General foreman (precision, handicraft, printing and related trades)

Occupation 73000 Supervisor/General foreman (precision, handicraft, printing and related trades)

Supervisor/General foreman (precision, handicraft, printing and related trades) supervises production activities within a distinct unit of an establishment in which precision instruments, musical instruments, jewellery, pottery and glass products are fabricated, or within a unit specialising in typesetting and related work in a printing establishment, and control and coordinate the activities of workers in various occupations.

Example(s) of job classified under this code:

- Ceramics manufacturing supervisor
- Glass products manufacturing supervisor

- Jewellery manufacturing supervisor
- Pottery and bricks manufacturing supervisor

MINOR GROUP 731 HANDICRAFT AND PRECISION WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7311 Precision Instrument Makers and Repairers
- 7312 Musical Instrument Makers, Repairers and Tuners
- 7313 Jewellery and Precious Metal Workers
- 7314 Potters and Related Workers
- 7315 Glass Makers, Cutters, Grinders and Finishers
- 7316 Sign Writers, Decorative Painters, Engravers and Etchers

Unit Group 7311 Precision Instrument Makers and Repairers

Precision instrument makers and repairers make, calibrate, repair, maintain, adjust and install mechanical watches, clocks, nautical, meteorological, optical, orthopaedic and other precision instruments and equipment and set them for correct performance.

Tasks include:

- repairing, cleaning, and adjusting mechanisms of timing instruments, such as watches and clocks
- adjusting timing regulators, using callipers, watch-rate recorders and tweezers
- cleaning, rinsing, and drying timepiece parts, using solutions and ultrasonic or mechanical watch-cleaning machines
- testing timepiece accuracy and performance, using meters and other electronic instruments
- testing accuracy of meters, gauges, indicators, or other recording or controlling instruments to locate defective components and for conformance to standards
- calibrating instruments or scales, using hand tools, computer or electronic devices
- inspecting components, connections, and drive mechanisms to detect defects
- assembling instruments and devices, such as barometers, control valves, gyroscopes, hygrometers, speedometers, tachometers and thermostats
- testing, calibrating, and adjusting electronic, mercurial, aneroid and other types of meteorological instruments for compliance with printed specifications and schematic diagrams, using voltmeters, oscilloscopes, tube testers and other test instruments
- adjusting and repairing masts, supporting structures, clearance lights, control panels, control cabling and wiring and other electrical and mechanical devices

- repairing and setting optical instruments such as microscopes, telescopes, theodolites, sextants
- checking whether assembled units conform to specifications and ensuring stipulated performance and sensitivity by standard tests

Occupation(s) in this Unit Group:

- 73111 Watch and clock assembler/repairer
- 73112 Optical instrument maker/repairer
- 73113 Medical device assembler/repairer
- 73119 Other precision instrument makers and repairers

Occupation 73111 Watch and clock assembler/repairer

Watch and clock assembler/repairer fits, assembles and polishes parts of watches and clocks in addition to checking them for accuracy of fit. He/she repairs, cleans and adjusts watches and clocks, and examines timepieces through magnifying lenses to discover defects. He/she removes and dismantles the clock or watch movements, cleans and lubricates parts, reassembles the movement and regulates it.

Example(s) of job classified under this code:

- Chronometer assembler

Occupation 73112 Optical instrument maker/repairer

Optical instrument maker/repairer reads blueprints and assembly drawings to assemble lenses and optical instruments, such as microscopes, telescopes, projection equipment, and medical diagnostic equipment. He/she processes, grinds, polishes, and coats glass materials, centres lenses according to the optical axis, and cements them to the optical frame.

Example(s) of job classified under this code:

- Optical instrument technician

Occupation 73113 Medical device assembler/repairer

Medical device assembler/repairer tests, adjusts, or repairs biomedical or electromedical equipment.

Example(s) of job classified under this code:

- Hearing aid mechanic
- Dental instrument maker and repairer
- Surgical instrument maker and repairer

Occupation 73119 Other precision instrument makers and repairers

This group includes precision instrument makers and repairers not elsewhere classified.

Example(s) of job classified under this code:

- Camera repairer

Unit Group 7312 Musical Instrument Makers, Repairers and Tuners

Musical instrument makers, repairers and tuners make, assemble, repair, adjust, restore musical instruments and tune them to the required pitch with hand or power tools. They usually specialise in one type of instrument, such as string instruments, brass instruments, pianos, reed instruments or percussion instruments.

Tasks include:

- fabricating and assembling musical instruments and instrument parts of wood, ebonite, metal, leather and other materials
- repairing or replacing musical instrument parts and components, such as strings, bridges, felts, and keys, using hand and power tools
- playing and inspecting instruments to evaluate their sound quality and to locate any defects
- adjusting string tensions to achieve proper tone or pitch of stringed instruments
- adjusting lips, reeds, or toe hole of organ pipes, using hand tools, to regulate airflow and loudness of sound
- tuning and servicing pipe organs by adjusting pitch of organ pipes to conform with pitch of tuning fork and adjusting pitch of other pipes with references to pitch of tuned pipes
- installing new drumheads in percussion instruments
- tuning accordions by aurally comparing pitch of reeds with master reeds and filing reeds to obtain standard pitch
- aligning pads and keys on reed or wind instruments
- tuning percussion instruments to required pitch by tightening or loosening cords holding leather pieces fixed atop or at both ends of instrument
- assembling and installing new pipe organs and pianos in buildings

Occupation(s) in this Unit Group:

- 73120 Musical instrument maker/repairer/tuner

Occupation 73120 Musical instrument maker/repairer/tuner

Musical instrument maker/repairer/tuner makes, assembles, repairs, adjusts, restores musical instruments and tunes them to the required pitch with hand or power tools. He/she

usually specialises in one type of instrument, such as string instruments, brass instruments, pianos, reed instruments or percussion instruments.

Example(s) of job classified under this code:

- Accordion maker
- Metal musical wind instrument maker
- Piano tuner
- Tone regulator (musical instrument)

Unit Group 7313 Jewellery and Precious Metal Workers

Jewellery and precious metal workers design, fabricate, adjust, repair, or appraise jewellery, ceremonial or religious items, gold, silver, other precious metals or gems. They cut, file, polish and set precious and semi-precious stones including gems and diamonds and engrave designs on jewellery and precious metal articles. They cut and polish diamonds for industrial purposes.

Tasks include:

- casting jewellery and other non-ferrous metal articles by hand
- creating new jewellery designs and modifying existing designs, using computers as necessary
- cutting designs in moulds or other materials to be used as models in the fabrication of metal and jewellery products
- altering existing jewellery mountings in order to reposition jewels or to adjust mountings
- repairing, reshaping and restyling old jewellery or precious metal ware following designs or instructions
- making complete jewellery articles such as rings, necklaces, bangles, brooches and bracelets from materials such as gold, silver, platinum, and precious or semiprecious stones
- examining gem surfaces and internal structures, using polariscopes, refractometers, microscopes, and other optical instruments to differentiate between stones, identify rare specimens or to detect flaws, defects, or peculiarities affecting gem values
- cutting and polishing gems and setting them in jewellery articles
- engraving or embossing letters, designs or decorative lines on jewellery and precious metal ware
- grinding, drilling and finishing jewel bearings for use in precision instruments such as compasses and chronometers
- examining assembled or finished products to ensure conformance to specifications, using magnifying glasses or precision measuring instruments

Occupation(s) in this Unit Group:

- 73130 Jewellery and precious metal worker

Occupation 73130 Jewellery and precious metal worker

Jewellery and precious metal worker designs, fabricates, adjusts, repairs, or appraises jewellery, ceremonial or religious items, gold, silver, other precious metals or gems. He/she cuts, files, polishes and sets precious and semi-precious stones including gems and diamonds and engraves designs on jewellery and precious metal articles. He/she cuts and polishes diamonds for industrial purposes.

Example(s) of job classified under this code:

- Jewellery repairer
- Industrial diamond cutter and polisher
- Gold beater
- Hammerman (precious metal article)
- Jewellery enameller

Unit Group 7314 Potters and Related Workers

Potters and related workers prepare pottery, porcelain ware, sanitary ware, bricks, tiles and abrasive wheels by hand or by machine.

Tasks include:

- making articles of pottery and porcelain
- making clay or plaster of Paris moulds
- reading technical drawings to know customer's requirements
- forming articles on potters' wheel by pressing thumbs into centres of revolving clay to form hollows, and press on the inside and outside of emerging clay cylinders with hands and fingers, gradually raising and shaping clay to desired forms and sizes
- adjusting wheel speeds according to the feel of the clay as pieces enlarge and walls become thinner
- operating jigger machines to form ceramic ware, such as bowls, cups, plates, and saucers
- adjusting and setting controls of pug mill that mixes, extrudes, cuts, and deposits clay charges in or over moulds as specified
- smoothing surfaces of finished pieces, using rubber scrapers and wet sponges
- forming abrasive wheels by moulding and pressing an abrasive mixture by hand or by machine
- examining finished ware for defects, verifying accuracy of shapes and sizes of objects, using callipers and templates
- preparing work for sale or exhibition, and maintaining relationships with retail, pottery, art, and resource networks that can facilitate sale or exhibition of work

Occupation(s) in this Unit Group:

- 73140 Potter and related worker

Occupation 73140 Potter and related worker

Potter and related worker prepares pottery, porcelain ware, sanitary ware, bricks, tiles and abrasive wheels by hand or by machine.

Example(s) of job classified under this code:

- Pottery and porcelain modeller
- Tile and brick moulder

Unit Group 7315 Glass Makers, Cutters, Grinders and Finishers

Glass makers, cutters, grinders and finishers blow, mould, press, cut, trim, grind and polish glass, shape molten glass according to patterns.

Tasks include:

- heating glass to pliable stage, using gas flames or ovens, and rotating glass to heat it uniformly
- blowing and bending glass tubing into specified shapes to form scientific apparatus like flasks, retorts, pipettes
- grinding and polishing glass objects or parts to correct defects or to prepare surfaces for further finishing and smoothing and polishing rough edges, using belt sander or polishing wheels
- examining glass stock and finished products and marking or discarding items with defects such as spots, stains, scars, snags, chips, scratches, or unacceptable shapes or finishes
- reading work orders to determine dimensions, cutting locations, and quantities to cut
- observing gauges, computer printouts and video monitors to verify specified processing conditions and make adjustments as necessary
- positioning pattern or drawing on glass, measuring dimensions, and marking cutting lines, using glass cutting tools and cutting glass along marked outlines or around pattern
- setting up, operating and adjusting computerised or robotic glass cutting equipment
- inspecting, weighing, and measuring products to verify conformance to specifications, using instruments such as micrometers, callipers, magnifiers, and rulers
- regulating oven temperatures according to glass types to be processed
- transferring pattern for individual stained glass parts from full size drawing to pattern paper, using stylus to trace drawings
- spraying silver solution on glass to provide mirrored surface, using spray gun

- laying out cutting and grinding optical and other glass to specified dimensions and weight for moulding into lens blanks and for use as watch crystals

Occupation(s) in this Unit Group:

- 73150 Glass maker, cutter, grinder and finisher

Occupation 73150 Glass maker, cutter, grinder and finisher

Glass maker, cutter, grinder and finisher blows, moulds, presses, cuts, trims, grinds and polishes glass, shapes molten glass according to patterns.

Example(s) of job classified under this code:

- Scientific glass blower
- Glass beveller
- Glass tube drawer

Example(s) of job not classified under this code:

- Building glazier, see 71250
- Glass engraver, see 73160

Unit Group 7316 Sign Writers, Decorative Painters, Engravers and Etchers

Sign writers, decorative painters, engravers and etchers decorate articles made of wood, metal, textiles, glass, ceramics and other materials. They plan, lay out and paint letters, figures, monograms and designs to make signs and engrave and etch ornamental and floral designs on glass and other articles.

Tasks include:

- painting decorative free-hand designs on objects, such as pottery, glass, cigarette cases, lampshades
- transferring from paper transfers decorative or ornamental designs on articles
- integrating and developing visual elements, such as line, space, mass, colour, and perspective, in order to produce desired effects such as the illustration of ideas, emotions or moods
- laying out and painting in one or more languages letters, figures, monograms and designs to make signs
- sketching or tracing design or lettering onto work piece or pattern material to prepare pattern or stencil designing pattern or lettering to paint work pieces, such as signs, glassware, pottery or zinc plates
- using software and routing equipment to produce 3D carved images for application onto larger signage as well as engraved and inlaid signs

- designing and producing normal flat cut lettering or lettering that is shadowed with applied vinyl or lettering that is ready cut for application
- writing, painting, or printing signs or show cards used for display or other purposes
- cutting out letters and signs for display purposes from wallboard or cardboard, by hand or machines, such as electrically powered jigsaw or bandsaw
- examining sketches, diagrams, samples, blueprints, or photographs to decide how designs are to be etched, cut or engraved onto work pieces
- measuring and computing dimensions of lettering, designs or patterns to be engraved
- engraving and printing patterns, ornamental designs, etchings, trademarks, figures or lettering onto flat or curved surfaces of a wide variety of metal, glass, plastic or ceramic items
- etching decorative designs, calibration markings and other figures on glass articles

Occupation(s) in this Unit Group:

- 73160 Sign writer, decorative painter, engraver and etcher

Occupation 73160 Sign writer, decorative painter, engraver and etcher

Sign writer, decorative painter, engraver and etcher decorates articles made of wood, metal, textiles, glass, ceramics and other materials. He/she plans, lays out and paints letters, figures, monograms and designs to make signs and to engrave and etch ornamental and floral designs on glass and other articles.

Example(s) of job classified under this code:

- Glass engraver
- Ceramic enameller
- Mirror silverer

Example(s) of job not classified under this code:

- Creative artist (glass and ceramics), see 26519
- Construction painter, see 71311
- Advertisement painter (sign writing), see 71323
- Spray painter (except ships, motor vehicles and signs), see 71324

MINOR GROUP 732 PRINTING TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7321 Pre-Press Trades Workers
- 7322 Printers

Unit Group 7321 Pre-Press Trades Workers

Pre-press trades workers proof, format, set and compose text and graphics into a form suitable for use in various printing processes and representation in other visual media.

Tasks include:

- operating graphic cameras and other photographic equipment to reproduce camera-ready copy onto films, plates and digital output devices
- using computer applications to generate images, text, layouts and impositions for print and other visual media displays
- operating plate making equipment to reproduce images from film to printing plates, digital output devices and presses
- operating computer screen-based equipment for scanning, colour separation, colour correction, masking, creative design, combining, imposing, retouching, and other processes used to transfer copy to film and produce film for plate, digital output and cylinder productions
- carrying out digital and chemical proofing from digital systems, and negative and positive films
- evaluating printed proofs, checking and correcting them for quality
- preparing and exposing carbon tissue for laying on cylinders by transfer method, and developing images

Occupation(s) in this Unit Group:

- 73210 Pre-press trades worker

Occupation 73210 Pre-press trades worker

Pre-press trades worker proofs, formats, sets and composes text and graphics into a form suitable for use in various printing processes and representation in other visual media.

Example(s) of job classified under this code:

- Braille machine operator (plate preparer)
- Composing machine operator (linotype)
- Intertype operator
- Electrotype caster
- Photogravure engraver

Unit Group 7322 Printers

Printers set up and operate digital, letterpress, lithographic, flexographic, gravure, newspaper and other printing presses.

Tasks include:

- setting, adjusting and monitoring substrate-feed mechanisms, delivery mechanisms, inking systems and other printing machine functions
- mixing ink and solvents to standard, and regulating paper and ink supply during print runs
- monitoring, evaluating and determining press to check print quality standards against proofs and detect malfunctions
- producing a variety of printed products using digital, relief, lithographic, flexographic and gravure printing presses, and in-line finishing systems
- preparing plates, blankets and impression cylinders on small offset lithographic printing presses
- loading paper into feeding mechanisms;
- monitoring machine operations and quality of printing
- maintaining, adjusting, repairing and cleaning machines
- producing digital print images, and transferring and outputting images

Occupation(s) in this Unit Group:

- 73220 Printer

Occupation 73220 Printer

Printer sets up and operates digital, letterpress, lithographic, flexographic, gravure, newspaper and other printing presses.

Example(s) of job classified under this code:

- Block printer
- Textile printer

Example(s) of job not classified under this code:

- Printing machine operator, see 81841
- Printing pressman, see 81841

SUB-MAJOR GROUP 74 ELECTRICAL AND ELECTRONIC TRADES WORKERS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 740 SUPERVISORS AND GENERAL FOREMEN (ELECTRICAL AND ELECTRONIC TRADES)
- 741 ELECTRICAL EQUIPMENT RELATED TRADES WORKERS
- 742 ELECTRONICS AND TELECOMMUNICATIONS RELATED TRADES WORKERS

MINOR GROUP 740 SUPERVISORS AND GENERAL FOREMEN (ELECTRICAL AND ELECTRONIC TRADES)

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7400 Supervisors and General Foremen (Electrical and Electronic Trades)

Unit Group 7400 Supervisors and General Foremen (Electrical and Electronic Trades)

Supervisors and general foremen (electrical and electronic trades) supervise production activities within a distinct unit of an establishment concerned with electrical or electronic machinery and equipment, and control and coordinate the activities of workers in various occupations.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems
- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 74001 Lift supervisor
- 74002 Supervisor/General foreman (electrical and electronic trades, excluding lift)

Occupation 74001 Lift supervisor

Lift supervisor supervises lift, escalator and related equipment maintenance, response and recovery, replacement and upgrading activities. He/she conducts risk assessment, develops and conducts safety and technical training and writes reports and resolves disputes.

Example(s) of job classified under this code:

- Senior lift supervisor

Example(s) of job not classified under this code:

- Lift maintenance master Specialist, see 31132

Occupation 74002 Supervisor/General foreman (electrical and electronic trades, excluding lift)

Supervisor/General foreman (electrical and electronic trades, excluding lift) supervises production activities within a distinct unit of an establishment concerned with electrical or electronic machinery and equipment, and controls and coordinates the activities of workers in various occupations.

Example(s) of job classified under this code:

- Electrical and electronic installation and repair (excluding lift) general foreman
- Electrical and electronic installation and repair (excluding lift) supervisor
- Supervisor and general foreman (M&E)

MINOR GROUP 741 ELECTRICAL EQUIPMENT RELATED TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7411 Electricians
- 7412 Electrical Mechanics and Fitters
- 7413 Electrical Line Installers and Repairers

Unit Group 7411 Electricians

Electricians install, maintain and repair electrical wiring systems and related equipment and fixtures.

Tasks include:

- installing, maintaining and repairing electrical wiring systems and related equipment in various buildings such as schools, hospitals, commercial establishments, residential buildings, other structures and machineries
- examining blueprints, wiring diagrams and specifications to determine sequences and methods of operation
- planning layout and installation of electrical wiring, equipment and fixtures, based on job specifications and relevant standards
- inspecting electrical systems, equipment, and components to identify hazards, defects, and the need for adjustment or repair
- selecting, cutting and connecting wire and cable to terminals and connectors
- measuring and laying out installation reference points
- positioning and installing electrical switchboards
- testing continuity of circuit

Notes:

Electricians typically possess an electrical installation licence from the Energy Market Authority (EMA) or its equivalent.

Occupation(s) in this Unit Group:

- 74110 Electrician

Occupation 74110 Electrician

Electrician installs, maintains and repairs electrical wiring systems and related equipment and fixtures.

Example(s) of job classified under this code:

- Aircraft electrician
- Installation electrician (building)

Unit Group 7412 Electrical Mechanics and Fitters

Electrical mechanics and fitters fit, adjust, install and repair electrical machinery and other electrical apparatus and equipment in buildings, factories, workshops or other places.

Tasks include:

- fitting, adjusting and repairing various kinds of electrical machinery and motors, generators, switchgear and control apparatus, instruments, or electrical parts of elevators and related equipment
- fitting, adjusting and repairing electrical parts in domestic appliances, industrial machines and other appliances
- inspecting and testing manufactured electrical products
- installing, testing, connecting, commissioning, maintaining and modifying electrical equipment, wiring and control systems
- designing, installing, maintaining, servicing and repairing electric and hydraulic passenger and freight lifts, escalators, moving walkways and other lift equipment
- connecting electrical systems to power supply
- replacing and repairing defective parts

Occupation(s) in this Unit Group:

- 74121 Electrical fitter
- 74122 Electrical lift, escalator and related equipment fitter
- 74123 Electrical household appliance repairer

Occupation 74121 Electrical fitter

Electrical fitter fits, adjusts, assembles and repairs various kinds of electrical machinery and electrical apparatus in factory, workshop or place of use. He/she examines wiring and assembly diagrams and other specifications, and checks parts for accuracy of fit and if necessary chisels, files, scrapes and does other supplementary tooling.

Example(s) of job classified under this code:

- Dynamo fitter
- Generator fitter
- Rheostat fitter

Example(s) of job not classified under this code:

- Electrical household appliance repairer, see 74123

Notes:

Electrical fitter typically possesses an electrical installation licence from the Energy Market Authority (EMA) or its equivalent.

Occupation 74122 Electrical lift, escalator and related equipment fitter

Electrical lift, escalator and related equipment fitter assembles, installs, repairs, or maintains electric or hydraulic freight or passenger elevators, escalators, or dumbwaiters. He/she fits, adjusts and repairs electrical parts of lifts, escalators and equipment in factory, workshop or place of use.

Example(s) of job classified under this code:

- Elevator fitter (electrical)
- Lift maintenance specialist

Example(s) of job not classified under this code:

- Lift maintenance principal specialist, see 31132
- Electric motor fitter, see 74121

Occupation 74123 Electrical household appliance repairer

Electrical household appliance repairer repairs simple electrical apparatus, mainly of a domestic kind, in workshop or place of use. He/she diagnoses faults with aid of electrical testing equipment and dismantles or partly dismantles equipment if necessary.

Example(s) of job classified under this code:

- Electrical household appliance mechanic

Example(s) of job not classified under this code:

- Electrical household appliance fitter, see 74121

Unit Group 7413 Electrical Line Installers and Repairers

Electrical line installers and repairers install, repair and join electrical transmission and supply cables and related equipment.

Tasks include:

- installing and repairing overhead and underground electrical power and electrical traction lines
- making joints in overhead and underground cables
- adhering to safety practices and procedures, such as checking equipment regularly and erecting barriers around work areas
- opening switches or attaching grounding devices to remove electrical hazards from disturbed or fallen lines or to facilitate repairs
- climbing poles or using truck-mounted buckets to access equipment
- identifying defective sectionalising devices, circuit breakers, fuses, voltage regulators, transformers, switches, relays, or wiring, using wiring diagrams and electrical-testing instruments

Notes:

Electrical line installers and repairers typically possess an electrical installation licence from the Energy Market Authority (EMA) or its equivalent.

Occupation(s) in this Unit Group:

- 74131 Electrical line installer
- 74132 Electric cable joiner
- 74133 Underground electrical line installer and repairer

Occupation 74131 Electrical line installer

Electrical line installer constructs and repairs overhead high-tension or low-tension power lines conducting electricity between generating stations, substations and consumers. He/she climbs poles and pylons and fixes insulators, lightning arresters and other equipment. He/she also strings cables between pylons, poles and buildings, ensuring that proper sag is left in cables to avoid breakage under changing atmospheric conditions.

Example(s) of job classified under this code:

- Electric power cableman (overhead)
- Electric traction lineman
- Overhead wireman (electric power)

Occupation 74132 Electric cable joiner

Electric cable joiner makes joints in surface and underground cables. He/she joins and solders corresponding conductor wires, dries out moisture and wraps joints with insulating material.

Occupation 74133 Underground electrical line installer and repairer

Underground electrical line installer and repairer constructs, maintains and repairs underground electrical power transmission and distribution systems.

Example(s) of job classified under this code:

- Electric power cableman (underground)
- Electric power lineman (underground)
- Underground cable layer

MINOR GROUP 742 ELECTRONICS AND TELECOMMUNICATIONS RELATED TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7421 Electronics Mechanics and Servicers
- 7422 Information and Communications Technology Installers and Servicers

Unit Group 7421 Electronics Mechanics and Servicers

Electronics mechanics and servicers fit, maintain, adjust and repair electronic equipment such as commercial and office machines and electronic instruments and control systems.

Tasks include:

- examining and testing machines, instruments, components, other equipment, instruments and control systems to identify faults
- adjusting, repairing and replacing worn and defective parts and wiring, and maintaining machines, equipment and instruments
- reassembling, test operating and adjusting equipment
- installing electronic instruments and control systems
- coordinating work with that of engineers, technicians and other maintenance personnel
- interpreting test data to diagnose malfunctions and systemic performance problems
- installing, adjusting, repairing or replacing electrical and electronic components, assemblies, and systems using hand tools, power tools or soldering irons

- connecting components to assemblies such as radio systems, instruments, magnetos, inverters and in-flight refuelling systems
- keeping records of maintenance and repair work

Occupation(s) in this Unit Group:

- 74211 Electronics fitter
- 74212 Consumer audio and video equipment mechanic

Occupation 74211 Electronics fitter

Electronics fitter fits, adjusts and repairs various kinds of electronic equipment in factory, workshop or place of use. He/she examines drawings and wiring diagrams, and checks parts for accuracy of fit and, where necessary, files, chisels, scrapes and does other supplementary tooling.

Example(s) of job classified under this code:

- Electronic meteorological equipment fitter

Occupation 74212 Consumer audio and video equipment mechanic

Consumer audio and video equipment mechanic repairs radio and television receivers in workshops or place of use. He/she examines drawings and wiring diagrams, and diagnoses faults with aid of testing equipment.

Example(s) of job classified under this code:

- Sound reproducing and recording equipment mechanic
- Television and radio receiving set mechanic

Unit Group 7422 Information and Communications Technology Installers and Servicers

Information and communications technology installers and servicers install, repair and maintain telecommunications equipment, data transmission equipment, cables, antennae and conduits and repair, fit and maintain computers.

Tasks include:

- maintaining, troubleshooting, testing and repairing computers, data transmission equipment and computer peripherals
- fitting and adjusting computer hardware
- installing, maintaining, repairing, and diagnosing malfunctions of microwave, telemetry, multiplexing, satellite and other radio and electromagnetic wave communications systems

- providing technical advice and information, and monitoring the performance of complex telecommunications networks and equipment
- installing and repairing cabling for computer, radio, telephone and television transmission
- joining telecommunications and data cables and sealing sheathes
- installing, maintaining and repairing antennae used in communications

Occupation(s) in this Unit Group:

- 74221 Radio, television and radar broadcasting/transmitting equipment fitter
- 74222 Computer and related electronic equipment mechanic
- 74223 Telecommunications lineman
- 74224 Telecommunications installer/servicer

Occupation 74221 Radio, television and radar broadcasting/transmitting equipment fitter

Radio, television and radar broadcasting/transmitting equipment fitter fits, adjusts, installs and repairs radio, television, transmitters and radar equipment in factory, workshop or place of use. He/she specialises in television transmitters, radar equipment, radio transmitters and two way radio communications equipment.

Example(s) of job classified under this code:

- Aerial erector (radio and television)
- Radar mechanic
- Signalling equipment fitter (electronic)
- Television transmitter mechanic

Occupation 74222 Computer and related electronic equipment mechanic

Computer and related electronic equipment mechanic fits, adjusts and repairs computers and related electronic equipment in factory, workshop or place of use. He/she specialises in computers and related electronic equipment.

Example(s) of job classified under this code:

- Data processing equipment fitter
- Electronic computer and related equipment fitter

Occupation 74223 Telecommunications lineman

Telecommunications lineman installs and repairs overhead, underground and submarine wires and cables for telephone and telecommunications transmission, attaching terminal boxes, repeaters and other specialised equipment to poles. He/she installs auxiliary equipment such as terminal boxes and repeaters and makes connections to complete underground telephone and telecommunications cable systems.

Example(s) of job classified under this code:

- Overhead wireman (telephone and telegraph)
- Telephone and telegraph cable jointer
- Telephone and telegraph cableman

Example(s) of job not classified under this code:

- Telecommunications technician, see 35220

Occupation 74224 Telecommunications installer/servicer

Telecommunications installer/servicer installs and repairs telephone and telecommunications equipment. He/she examines drawing and wiring diagrams, and installs or services telephone switchboards, relay racks, dial-switching equipment, receiving sets, telegraphic typewriters and other equipment in position.

Example(s) of job classified under this code:

- Telecommunications and telephone mechanic
- Telegraphic mechanic

Example(s) of job not classified under this code:

- Telecommunications technician, see 35220

SUB-MAJOR GROUP 75 FOOD PROCESSING, WOODWORKING, GARMENT, LEATHER AND OTHER CRAFT AND RELATED TRADES WORKERS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 750 SUPERVISORS AND GENERAL FOREMEN (FOOD PROCESSING, WOODWORKING, GARMENT, LEATHER AND RELATED)
- 751 FOOD PROCESSING AND RELATED TRADES WORKERS
- 752 WOOD TREATERS, CABINET MAKERS AND RELATED TRADES WORKERS
- 753 GARMENT, LEATHER AND RELATED TRADES WORKERS
- 754 OTHER CRAFT AND RELATED WORKERS

MINOR GROUP 750 SUPERVISORS AND GENERAL FOREMEN (FOOD PROCESSING, WOODWORKING, GARMENT, LEATHER AND RELATED)

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7500 Supervisors and General Foremen (Food Processing, Woodworking, Garment, Leather and Related Trades).

Unit Group 7500 Supervisors and General Foremen (Food Processing, Woodworking, Garment, Leather and Related Trades).

Supervisors and general foremen (food processing, woodworking, garment, leather and related trades) supervise production activities within a distinct unit of an establishment in which specific knowledge and skills are used for processing foodstuffs and beverages, preparation of fibres, treatment of wood, manufacture of wooden furniture, fur articles, made-to-order garments, footwear and leather goods, and control and coordinate the activities of workers in various occupations.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems
- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 75000 Supervisor/General foreman (food processing, woodworking, garment, leather and related trades).

Occupation 75000 Supervisor/General foreman (food processing, woodworking, garment, leather and related trades).

Supervisor/General foreman (food processing, woodworking, garment, leather and related trades) supervises production activities within a distinct unit of an establishment in which specific knowledge and skills are used for processing foodstuffs and beverages, preparation of fibres, treatment of wood, manufacture of wooden furniture, fur articles, made-to-order garments, footwear and leather goods, and controls and coordinates the activities of workers in various occupations.

Example(s) of job classified under this code:

- Leather goods making general foreman
- Furniture and related products manufacturing supervisor
- Shoemaking supervisor
- Tobacco products manufacturing supervisor

MINOR GROUP 751 FOOD PROCESSING AND RELATED TRADES WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 7511 Butchers, Fishmongers and Related Food Preparers
- 7512 Bakers, Pastry and Confectionery Makers
- 7515 Food and Beverage Tasters and Graders
- 7519 Food Processing and Related Trades Workers Not Elsewhere Classified

Unit Group 7511 Butchers, Fishmongers and Related Food Preparers

Butchers, fishmongers and related food preparers slaughter animals, clean, cut and dress meat and fish, remove bones and prepare related food items or preserve meat, fish and other foods and food products by drying, salting or smoking.

Tasks include:

- slaughtering animals
- flaying and trimming carcasses
- boning, cutting and dressing meat and fish for sale or further processing
- preparing ingredients and making sausages and similar products using chopping, mixing and shaping machines
- curing meat, fish and other foods

- 81 STATIONARY PLANT AND MACHINE OPERATORS
- 82 ASSEMBLERS AND QUALITY CHECKERS
- 83 DRIVERS AND MOBILE MACHINERY OPERATORS

SUB-MAJOR GROUP 81 STATIONARY PLANT AND MACHINE OPERATORS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 810 STATIONARY PLANT AND MACHINE SUPERVISORS AND GENERAL FOREMEN
- 811 MINING AND MINERAL PROCESSING PLANT OPERATORS
- 812 METAL PROCESSING, FINISHING AND PRODUCTS PLANT OPERATORS
- 813 CHEMICAL PROCESSING, CHEMICAL AND PHOTOGRAPHIC PRODUCTS PLANT AND MACHINE OPERATORS
- 814 RUBBER, PLASTIC AND PAPER PRODUCTS MACHINE OPERATORS
- 815 TEXTILE, FUR AND LEATHER PRODUCTS MACHINE OPERATORS
- 816 FOOD AND RELATED PRODUCTS MACHINE OPERATORS
- 817 WOOD PROCESSING AND PAPERMAKING PLANT OPERATORS
- 818 OTHER STATIONARY PLANT AND MACHINE OPERATORS

Notes:

Operators of machinery that involves automated control of multiple processes or functions are included in Minor Group 313 'Process Control Technicians'.

MINOR GROUP 810 STATIONARY PLANT AND MACHINE SUPERVISORS AND GENERAL FOREMEN

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8100 Stationary Plant and Machine Supervisors and General Foremen

Unit Group 8100 Stationary Plant and Machine Supervisors and General Foremen

Stationary plant and machine supervisors and general foremen supervise production activities of a distinct unit at a well drilling site, or an establishment engaged in processing of mineral ore and stone, metal, wood, or chemicals, or an establishment concerned with the production and distribution of electricity, steam or gas, or with water supply, sewage disposal and treatment, or with refrigeration and assimilated services, or within an establishment in which machines are used in the manufacturing

of various products on an industrial basis. They control and coordinate the activities of workers in various occupations.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems
- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 81000 Stationary plant and machine supervisor/general foreman

Occupation 81000 Stationary plant and machine supervisor/general foreman

Stationary plant and machine supervisor/general foreman supervises production activities of a distinct unit at a well drilling site, or an establishment engaged in processing of mineral ore and stone, metal, wood, or chemicals, or an establishment concerned with the production and distribution of electricity, steam or gas, or with water supply, sewage disposal and treatment, or with refrigeration and assimilated services, or within an establishment in which machines are used in the manufacturing of various products on an industrial basis. He/she controls and coordinates the activities of workers in various occupations.

MINOR GROUP 811 MINING AND MINERAL PROCESSING PLANT OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8113 Well Drillers and Borers and Other Mining Related Workers
- 8114 Cement and Other Mineral Products Machine Operators

Unit Group 8113 Well Drillers and Borers and Other Mining Related Workers

Well drillers and borers and other mining related workers operate, assemble and monitor machines for cutting channels in a mine workface or for the drilling and sinking of wells, extraction of ore, liquids and gases or for a variety of other purposes.

Tasks include:

- operating and monitoring machinery and equipment used for continuous mining or for drilling holes or cutting channels in a mine or quarry workface
- operating and monitoring machinery and equipment used for the drilling and sinking of wells
- dismantling, moving and assembling drilling rigs and auxiliary equipment
- assembling and dismantling pipes, casings and drill heads and replacing dysfunctional equipment
- preparing drilling fluid and checking the operation of pumps to ensure adequate circulation of fluid in drill pipes and wells
- maintaining records of drilling and servicing operations
- closing and sealing wells no longer in use

Occupation(s) in this Unit Group:

- 81130 Well driller and borer and other mining related worker

Occupation 81130 Well driller and borer and other mining related worker

Well driller and borer and other mining related worker operates, assembles and monitors machines for cutting channels in a mine workface or for the drilling and sinking of wells, extraction of ore, liquids and gases or for a variety of other purposes.

Unit Group 8114 Cement and Other Mineral Products Machine Operators

Cement and other mineral products machine operators operate and monitor machines for manufacturing and finishing precast concrete, bitumen and making cast stone for building purposes.

Tasks include:

- setting up and operating stationary plant and machinery which grind, crush, cut, saw and slice rocks, minerals and stones according to the specifications for the job

- operating extrusion, moulding, mixing, pumping, compacting, grinding and cutting machinery to manufacture and finish precast concrete and other mineral products
- operating machines to produce cement, lime and clinker, including loading and unloading ingredients and operating continuous feed equipment such as pumps and conveyors
- operating machines which weigh and mix sand, gravel, cement, water and other ingredients to make concrete
- operating machines which assembles and fills moulds with concrete and artificial stone mixtures, removes castings from moulds and finishes surfaces of precast products
- cutting, grinding, drilling, sandblasting and polishing concrete products and stone blocks, slabs and products to the specifications for the job
- collecting and examining samples of mixtures and finished products for conformity to specifications and adjusting machine settings accordingly
- arranging and assisting with machinery maintenance and repair

Occupation(s) in this Unit Group:

- 81140 Cement and other mineral products machine operator

Occupation 81140 Cement and other mineral products machine operator

Cement and other mineral products machine operators operate and monitor machines for manufacturing and finishing precast concrete, bitumen and making cast stone for building purposes.

MINOR GROUP 812 METAL PROCESSING, FINISHING AND PRODUCTS PLANT OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8121 Metal Melters, Casters and Rolling Mill Operators
- 8122 Metal Heat Treating Plant Operators
- 8123 Metal Drawers and Extruders
- 8124 Metal Finishing, Plating and Coating Machine Operators
- 8125 Machine-Tool Setter-Operators

Unit Group 8121 Metal Melters, Casters and Rolling Mill Operators

Metal melters, casters and rolling mill operators operate, monitor, adjust and maintain single-function machinery and equipment to process and convert mineral ores, cast or roll metals.

Tasks include:

- setting up, preparing and adjusting metal processing machinery to carry out one step in the overall mineral ores or cast metals or roll metals processing
- operating single-function machinery to convert, cast or roll metals and mineral ores
- observing gauges, meters, computer printouts, video monitors and products to ensure correct operation of machine and verify specified processing conditions
- adjusting equipment, valves, pumps, controls and process equipment
- controlling process start-up and shut-down, troubleshooting and monitoring outside process equipment
- verifying equipment for malfunctions, carrying out routine operating tests and arranging for maintenance
- analysing sample products, performing tests, recording data and writing production logs

Occupation(s) in this Unit Group:

- 81210 Metal melter, caster and rolling mill operator

Occupation 81210 Metal melter, caster and rolling mill operator

Metal melter, caster and rolling mill operator operates, monitors, adjusts and maintains single-function machinery and equipment to process and convert mineral ores, cast or roll metals.

Unit Group 8122 Metal Heat Treating Plant Operators

Metal heat treating plant operators operate, monitor, adjust and maintain machinery and equipment to treat and process metals.

Tasks include:

- setting up, preparing and adjusting metal processing machinery to treat and process metals
- operating machinery to treat and process metals
- observing gauges, meters, computer printouts, video monitors and products to ensure correct operation of machine and verify specified processing conditions
- adjusting equipment, valves, pumps, controls and process equipment
- controlling process start-up and shut-down, troubleshooting and monitoring outside process equipment
- verifying equipment for malfunctions, carrying out routine operating tests and arranging for maintenance
- analysing sample products, performing tests, recording data and writing production logs

Occupation(s) in this Unit Group:

- 81220 Metal heat treating plant operator

Occupation 81220 Metal heat treating plant operator

Metal heat treating plant operator operates, monitors, adjusts and maintains machinery and equipment to treat and process metals.

Example(s) of job classified under this code:

- Cyanide hardener
- Metal annealer
- Metal case hardener
- Metal temperer

Unit Group 8123 Metal Drawers and Extruders

Metal drawers and extruders draw and extrude metals through dies to make wire, pipes, tubes and similar products.

Tasks include:

- setting up, preparing and adjusting metal processing machinery to make wires, pipes tubes and similar metal products
- setting and operating a wire-drawing machine
- setting and operating a machine to draw seamless metal tubing
- setting and operating a hydraulic press to extrude metal rods, bars and seamless tubing

Occupation(s) in this Unit Group:

- 81230 Metal drawer and extruder

Occupation 81230 Metal drawer and extruder

Metal drawer and extruder draws and extrudes metals through dies to make wire, pipes, tubes and similar products.

Example(s) of job classified under this code:

- Wire drawer
- Seamless pipe and tube drawer
- Road extruder operator

Unit Group 8124 Metal Finishing, Plating and Coating Machine Operators

Metal finishing, plating and coating machine operators operate and monitor equipment which finishes, plates and coats metal articles or parts, in order to give them improved resistance to corrosion and abrasion, for decorative purposes, or to impart electrical or magnetic properties.

Tasks include:

- operating and monitoring equipment which cleans metal articles in preparation for electroplating, galvanising, enamelling or similar processes
- operating and monitoring electroplating equipment
- operating and monitoring hot-dip equipment used to coat iron and steel products
- operating and monitoring machines which automatically coat wire with non-ferrous metal
- operating and monitoring equipment used to spray molten metal or other substances on metal products to provide a protecting or decorative coating or to build up worn or damaged surfaces
- operating and monitoring equipment used to impart a rust-resistant finish to metal articles by treating them with chemicals and heating them
- checking proper thickness of plating using micrometers, callipers or other devices recording data and writing production logs
- preparing and mixing metalising solutions according to formulas or specifications

Occupation(s) in this Unit Group:

- 81240 Metal finishing, plating and coating machine operator

Occupation 81240 Metal finishing, plating and coating machine operator

Metal finishing, plating and coating machine operator operates and monitors equipment which finishes, plates and coats metal articles or parts, in order to give them improved resistance to corrosion and abrasion, for decorative purposes, or to impart electrical or magnetic properties.

Example(s) of job classified under this code:

- Tin dipper
- Galvaniser
- Anodiser
- Casting finisher
- Sandblaster (castings)

Example(s) of job not classified under this code:

- Spray painter (except ships, motor vehicles and signs), see 71324

Unit Group 8125 Machine-Tool Setter-Operators

Machine-tool setter-operators set up and operate various machine tools working to fine tolerances.

Tasks include:

- setting one or more types of machine tools for production of metal articles in standardised series
- operating and monitoring metalworking machines, such as lathes, milling, planing, boring, drilling, grinding or honing machines, including multi-purpose numerically controlled metalworking machines
- observing machine operations to detect work piece defects or machine malfunctions, adjusting machines as necessary
- inspecting work pieces for defects, and measuring work pieces to determine accuracy of machine operation, using rules, templates, or other measuring instruments
- changing worn machine accessories, such as cutting tools and brushes, using hand tools

Occupation(s) in this Unit Group:

- 81251 Metalworking machine setter-operator
- 81252 Precision grinding machine setter-operator
- 81259 Other machine-tool setter-operators

Occupation 81251 Metalworking machine setter-operator

Metalworking machine setter-operator sets up and operates a variety of power-driven precision metal-cutting machines and tools, such as lathes, milling, planing and boring machines.

Example(s) of job classified under this code:

- Machine-tool operator
- Plane mill setter-operator
- Cylinder honer
- Punching press operator
- Stamping press operator

Example(s) of job not classified under this code:

- Blacksmith, see 72210

Occupation 81252 Precision grinding machine setter-operator

Precision grinding machine setter-operator sets up, programs and controls grinding machines to remove small amounts of excess material and smoothen metal workpieces by using an

abrasive wheel with diamond teeth as a cutting device for very precise and light cuts. He/she reads grinding machine blueprints and tooling instructions, performs regular machine maintenance, and makes adjustments to the grinding controls, such as the depth of cuts and the rotation speed.

Example(s) of job classified under this code:

- Metal grinding machine setter-operator

Example(s) of job not classified under this code:

- Buffing and polishing machine operator, see 72240

Occupation 81259 Other machine-tool setter-operators

This group includes machine-tool setter-operators not elsewhere classified.

Example(s) of job classified under this code:

- Engraving machine operator
- Laser cutting machine operator
- Water jet cutter operator

MINOR GROUP 813 CHEMICAL PROCESSING, CHEMICAL AND PHOTOGRAPHIC PRODUCTS PLANT AND MACHINE OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8131 Chemical Processing and Products Plant and Machine Operators
- 8132 Photographic Products Machine Operators
- 8139 Chemical Processing, Chemical and Photographic Products Plant and Machine Operators Not Elsewhere Classified

Unit Group 8131 Chemical Processing and Products Plant and Machine Operators

Chemical processing and products plant and machine operators monitor and operate units and machinery to blend, mix, process and package a wide range of chemical products.

Tasks include:

- setting up, starting, controlling, adjusting and stopping machines and plant
- monitoring reaction processes and transfers of products in conformity with safety procedures
- monitoring meters, gauges and electronic instrumentation on one or more chemical or formulation units, such as mixers, kettles, blenders, dryers, or tableting, encapsulation, granulation and coating machines

- measuring, weighing and loading chemical ingredients following formulation cards
- making samples and performing routine chemical and physical tests of products and recording production data
- cleaning and performing minor repairs to machines and plant

Occupation(s) in this Unit Group:

- 81311 Chemical processing and products plant and machine operator
- 81312 Pharmaceutical products machine operator

Occupation 81311 Chemical processing and products plant and machine operator

Chemical processing and products plant and machine operator monitors and operates units and machinery to blend, mix, process and package a wide range of chemical products (excluding pharmaceutical products).

Example(s) of job classified under this code:

- Fibre maker (synthetic)

Example(s) of job not classified under this code:

- Pharmaceutical products machine operator, see 81312

Occupation 81312 Pharmaceutical products machine operator

Pharmaceutical products machine operator monitors and operates units and machinery to blend, mix, process and package a wide range of pharmaceutical products.

Example(s) of job not classified under this code:

- Chemical processing and products plant and machine operator, see 81311

Unit Group 8132 Photographic Products Machine Operators

Photographic products machine operators operate and monitor equipment which makes photographic film and paper and which processes exposed photographic film and makes prints.

Tasks include:

- operating and monitoring equipment which makes photographic film and paper
- operating, monitoring and testing photographic processing and printing equipment, and maintaining operational standards
- preparing exposed film for different processing batches in dark rooms and dark chambers
- inspecting images, films, prints and adjusting settings on print-making equipment to produce required colour, brightness, contrast, number, size and type of prints

- adjusting settings and running automatic developing equipment
- operating equipment to transfer film to video tape or other electronic media
- performing photographic processing related tasks
- operating automatic equipment (in retail establishments) to develop colour negatives, prints and slides

Occupation(s) in this Unit Group:

- 81320 Photographic products machine operator

Occupation 81320 Photographic products machine operator

Photographic products machine operator operates and monitors equipment which makes photographic film and paper and which processes exposed photographic film and makes prints.

Unit Group 8139 Chemical Processing, Chemical and Photographic Products Plant and Machine Operators Not Elsewhere Classified

This unit group covers chemical processing, chemical and photographic products plant and machine operators not elsewhere classified in Minor Group 813 'Chemical Processing, Chemical and Photographic Products Plant and Machine Operators'.

Tasks include:

- operating and monitoring equipment which produces electric cells or other chemical and photographic products

Occupation(s) in this Unit Group:

- 81390 Chemical processing, chemical and photographic products plant and machine operator n.e.c.

Occupation 81390 Chemical processing, chemical and photographic products plant and machine operator n.e.c.

This group covers chemical processing, chemical and photographic products plant and machine operators not elsewhere classified in Minor Group 813 'Chemical Processing, Chemical and Photographic Products Plant and Machine Operators'.

MINOR GROUP 814 RUBBER, PLASTIC AND PAPER PRODUCTS MACHINE OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8141 Rubber Products Machine Operators

- 8142 Plastic Products Machine Operators
- 8143 Paper and Paperboard Products Machine Operators

Unit Group 8141 Rubber Products Machine Operators

Rubber products machine operators monitor and operate machines which knead and blend rubber and rubber compounds to produce various components and products from natural and synthetic rubber, such as moulded footwear, domestic articles, insulating materials, industrial accessories or tyres.

Tasks include:

- operating and monitoring machines which knead, mix and blend rubber and rubber compounds for further processing
- operating and monitoring machines which produce sheets of rubber or rubberised fabric by a rolling process
- operating and monitoring machines which extrude compounded rubber or shape vulcanised rubber by moulding
- operating and monitoring machines which build up tyres on a form, vulcanise tyres and mould or rebuild used tyres
- examining outputs for defects and conformity to specifications
- locating defects and repairing worn and faulty tyres by vulcanising or other processes

Occupation(s) in this Unit Group:

- 81410 Rubber products machine operator

Occupation 81410 Rubber products machine operator

Rubber products machine operator monitors and operates machines which knead and blend rubber and rubber compounds to produce various components and products from natural and synthetic rubber, such as moulded footwear, domestic articles, insulating materials, industrial accessories or tyres.

Example(s) of job classified under this code:

- Rubber millman
- Bead builder (tyre making)
- Hose maker
- Tyre recapper

Example(s) of job not classified under this code:

- Rubber stamp maker, see 75490

Unit Group 8142 Plastic Products Machine Operators

Plastic products machine operators monitor and operate machines which knead and blend compounds to obtain plastic materials, which make various plastic components and articles.

Tasks include:

- operating and monitoring machines which knead and blend compounds to obtain plastic materials
- operating and monitoring machines which shape plastic materials by moulding, extrusion, blowing, cutting and other means
- operating and monitoring machines which laminate plastics and plastic impregnated materials
- encasing uncoated wire, cord, cable and optic fibre in plastic
- examining outputs for defects and conformity to specifications
- making and repairing spectacle frames and plastic parts of orthopaedic appliances

Occupation(s) in this Unit Group:

- 81420 Plastic products machine operator

Occupation 81420 Plastic products machine operator

Plastic products machine operator monitors and operates machines which knead and blend compounds to obtain plastic materials, which make various plastic components and articles. He/she may operate and monitor machines which laminate plastics and plastic impregnated materials or may encase uncoated wire, cord, cable and optic fibre in plastic.

Example(s) of job classified under this code:

- Plastic button maker
- Plastic goods casting machine operator

Example(s) of job not classified under this code:

- Fibreglass maker, see 81812

Unit Group 8143 Paper and Paperboard Products Machine Operators

Paper and paperboard products machine operators monitor and operate machines which produce boxes, envelopes, bags and other goods from paper, paperboard and other similar materials.

Tasks include:

- operating and monitoring machines which glue paper to cardboard, cut it to the required length or cut and crease cardboard or paperboard to form box blanks
- operating and monitoring machines which form drinking cups or other containers from paper, paperboard or cardboard

- operating and monitoring machines which cut, fold and glue paper to make envelopes and paper bags, or which form bags from other similar materials

Occupation(s) in this Unit Group:

- 81430 Paper and paperboard products machine operator

Occupation 81430 Paper and paperboard products machine operator

Paper and paperboard products machine operator monitors and operates machines which produce boxes, envelopes, bags and other goods from paper, paperboard and other similar materials.

Example(s) of job classified under this code:

- Paper mill operator
- Paper box cutting and creasing press operator
- Envelope and paper bag maker
- Paper novelty maker

Example(s) of job not classified under this code:

- Paper coating machine operator, see 31399

MINOR GROUP 815 TEXTILE, FUR AND LEATHER PRODUCTS MACHINE OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8150 Textile, Fur and Leather Products Machine Operators

Unit Group 8150 Textile, Fur and Leather Products Machine Operators

Textile, fur and leather products machine operators monitor and operate machines which prepare fibres and spin, double, twist and wind yarn and thread from natural textile fibres. They twist two or more strands of yarn to prepare single stronger, uniform and heavier strands and treat textiles to make them stiff and water resistant.

Tasks include:

- operating and monitoring machines for tearing woollen rags into fibre
- operating and monitoring machines for cleaning and turning woollen yarn waste into fluffed wool
- operating and monitoring machines which combine textile fibres into uniform blends
- operating and monitoring machines which clean and fluff textile fibres, transform them into sliver, comb them into sliver for first drawing, combine slivers into sliver lap or sliver laps into ribbon lap

- operating draw frame (machine) having number of drawing sets, each set combining several slivers into one of nearly same weight and thickness as any of original sliver
- operating and monitoring machines which spin thread and yarn from roving, wind two or more threads onto bobbin, twist two or more strands of yarn or thread into single strands of yarn to increase strength, smoothness and/or uniformity of yarn, or wind yarn or thread from one package to another
- operating and monitoring spinning frame that draws out and twists roving or sliver into yarn
- operating and monitoring machines for drawing slivers received from drawing machine into loosely twisted strands
- preparing sizing for use in stiffening and finishing cloth and yarn by mixing ingredients such as starch, tallow, resins, soap and water and boiling mixture for specified time in steam
- treating textiles with chemicals to make them water resistant
- cleaning rollers and cylinders of caring machines to remove wool waste
- operating and resurfacing metal drawing rolls of various spinning, combing and lapping machines with new rubber or leather covers

Occupation(s) in this Unit Group:

- 81501 Sewing machine operator
- 81502 Laundry and dry cleaning worker (machine, non-household)
- 81509 Other textile, fur and leather products machine operators (e.g. shoemaking and related machine operators)

Occupation 81501 Sewing machine operator

Sewing machine operator operates and monitors sewing machines to make, repair, darn and renovate textile, fur, synthetic or leather garments or embroider ornamental designs on garments or non garment products. He/she operates button hole making and eyelet holing machines to cut holes, stitch around holes, stitch buttons and fix eyelets to garments.

Example(s) of job classified under this code:

- Embroidering machine operator
- Garment sewing machine operator
- Machine sewer

Example(s) of job not classified under this code:

- Thread and yarn doubling machine operator, see 81509
- Weaving machine operator, see 81509

Occupation 81502 Laundry and dry cleaning worker (machine, non-household)

Laundry and dry cleaning worker (machine, non-household) operates and monitors machines that use chemicals to wash or dry-clean articles such as cloth and leather garments, linens, drapes or carpets, ensuring the colour and texture of these articles are being maintained. He/she sorts the articles received from clients by fabric type and determines the cleaning technique to be applied.

Example(s) of job not classified under this code:

- Textile bleacher, see 81509
- Laundry service washer, see 91210

Occupation 81509 Other textile, fur and leather products machine operators (e.g. shoemaking and related machine operators)

This group covers textile, fur and leather products machine operators not elsewhere classified.

Example(s) of job classified under this code:

- Yarn spinner
- Carpet weaving loom operator
- Garment knitting machine operator
- Textile bleaching machine operator
- Textile press operator

Example(s) of job not classified under this code:

- Sewing machine operator, see 81501

MINOR GROUP 816 FOOD AND RELATED PRODUCTS MACHINE OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8160 Food and Related Products Machine Operators

Unit Group 8160 Food and Related Products Machine Operators

Food and related products machine operators set, operate and attend machinery used to slaughter animals and trim meat from carcasses; bake, freeze, heat, crush, mix, blend and otherwise process foodstuffs, beverages and tobacco leaves.

Tasks include:

- operating and monitoring machinery used to restrain, stun and slaughter animals and to trim carcasses into standard meat and fish cuts

- setting, operating and attending machinery and ovens to mix, bake and otherwise prepare bread and flour confectionery products
- operating machinery to crush, mix, malt, cook and ferment grains and fruits to produce beer, wines, malt liquors, vinegar, yeast and related products
- attending equipment to make jam, toffee, cheese, processed cheese, margarine, syrup, ice, pasta, ice-cream, sausages, chocolate, maize starch, edible fats and dextrin
- operating equipment to cool, heat, dry, roast, blanch, pasteurize, smoke, sterilize, freeze, evaporate and concentrate foodstuffs and liquids used in food processing
- mixing, pulping, grinding, blending and separating foodstuffs and liquids with churning, pressing, sieving, grinding and filtering equipment
- processing tobacco leaves by machine to make cigarettes, cigars, pipe and other tobacco products

Occupation(s) in this Unit Group:

- 81601 Meat and fish products machine operator
- 81602 Dairy and confectionery products machine operator
- 81603 Baked and cereal products machine operator
- 81604 Brewer and wine and other beverages machine operator
- 81609 Other food and related products machine operators

Occupation 81601 Meat and fish products machine operator

Meat and fish products machine operator operates machines and performs routine tasks to make various kinds of meat and fish products, such as sausages and fishballs. He/she weighs out various ingredients according to the recipes and minces, mixes and combines the ingredients using machine.

Example(s) of job classified under this code:

- Sausage making machine operator
- Foodstuffs drier operator
- Foodstuffs refrigerating process worker
- Foodstuffs vacuum oven operator

Example(s) of job not classified under this code:

- Butcher, see 75110
- Fishmonger, see 75110

Occupation 81602 Dairy and confectionery products machine operator

Dairy and confectionery products machine operator sets up and operates continuous flow or vat-type equipment to process milk, cheese, ice cream, and other dairy products following specific instructions, methods and formulas.

Example(s) of job classified under this code:

- Dairy product pasteurising machine operator
- Ice-cream making machine operator
- Chocolate making machine operator
- Sugar confectionery making machinery operator

Occupation 81603 Baked and cereal products machine operator

Baked and cereal product machine operator makes baked products or cereal based products, such as biscuits and noodles and pasta, with the use of machines.

Example(s) of job classified under this code:

- Biscuit baker
- Biscuit making machine operator
- Noodle making machine operator
- Baked goods products machine operator

Occupation 81604 Brewer and wine and other beverages machine operator

Brewer and wine and other beverages machine operator sets, operates and attends to machinery used to process and produce beer, wines, malt liquors, coffee, tea, syrup and other beverages.

Example(s) of job classified under this code:

- Germination worker (malting)
- Malt fireman
- Tea blending machine operator
- Malt vinegar maker
- Wine blender

Occupation 81609 Other food and related products machine operators

This group covers food and related products machine operators not elsewhere classified.

Example(s) of job classified under this code:

- Grain miller
- Spice miller
- Sugar refining crystalliser operator
- Bean curd making machine operator

MINOR GROUP 817 WOOD PROCESSING AND PAPERMAKING PLANT OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8170 Wood Processing and Papermaking Plant Operators

Unit Group 8170 Wood Processing and Papermaking Plant Operators

Wood processing and papermaking plant operators monitor, operate and control machinery to saw wood, cut veneer, make plywood, produce pulp and paper and to otherwise prepare wood, pulp and paper for further use.

Tasks include:

- examining logs and rough lumber to determine size, condition, quality and other characteristics to decide best lumber cuts to carry out, or operating automated equipment to convey logs through laser scanners which determine the most productive and profitable cutting patterns
- operating and monitoring log-in feed and conveyor systems
- operating and monitoring automated lumber mill equipment from control rooms or equipment consoles such as head saws, resaws and multiblade saws to saw logs, cants, flitches, slabs or wings and remove rough edges from sawn timber into dressed lumber of various sizes, and saw or split shingles and shakes
- operating and monitoring plywood core-laying machines and hot-plate plywood presses and machines which cut veneer
- cleaning and lubricating sawmill equipment
- co-ordinating and monitoring the operation of screening equipment, washing equipment, digesters, mixing tanks and other pulp processing equipment from automated panel boards in central control room to control the processing of wood, scrap pulp, recyclable paper and other cellulose materials
- operating and monitoring screening equipment, bleaching equipment, digesters, mixing tanks, washers and other pulp processing machinery and equipment to carry out one or more cellulose processing steps
- controlling start-up and shut-down of process machinery and equipment, and observing equipment and machinery panel indicators, gauges, level indicators and other equipment

instruments to detect machinery and equipment malfunctions and ensure process steps are carried out according to specifications

- analysing instrument readings and production test samples and making adjustments to pulp production process and equipment as required
- completing and maintaining production reports

Occupation(s) in this Unit Group:

- 81700 Wood processing and papermaking plant operator

Occupation 81700 Wood processing and papermaking plant operator

Wood processing and papermaking plant operator monitors, operates and controls machinery to saw wood, cut veneer, make plywood, produce pulp and paper and to otherwise prepare wood, pulp and paper for further use.

Example(s) of job classified under this code:

- Clipping machine operator (veneer cutting)
- Veneer cutter
- Veneer sheet gluer
- Wood grader

Example(s) of job not classified under this code:

- Paper and paperboard products machine operator, see 81430

MINOR GROUP 818 OTHER STATIONARY PLANT AND MACHINE OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8181 Glass and Ceramics Plant Operators
- 8182 Steam Engine and Boiler Operators
- 8183 Packing, Bottling and Labelling Machine Operators
- 8184 Printing, Binding and Related Machine Operators
- 8189 Stationary Plant and Machine Operators Not Elsewhere Classified

Unit Group 8181 Glass and Ceramics Plant Operators

Glass and ceramic plant operators monitor and operate kilns, furnaces and other machinery and equipment used in the manufacture of glass, ceramics, porcelain, tiles or bricks. They operate machines to anneal, harden or decorate glass and ceramics.

Tasks include:

- operating and monitoring glass-making furnaces to make glass by melting and fusing pre-mixed ingredients
- tending hot or cold-end spray equipment used to coat glassware with surface hardener
- operating and maintaining machines that press or blow molten glass in moulds to form or shape containers, such as bottles, jars and drinking glasses
- operating a hand press to mould glass into the required shape
- operating a drawing kiln to process molten glass into a continuous sheet of flat glass
- operating and monitoring floating-glass production plant
- operating and maintaining finishing machines to grind, drill, sand, bevel, decorate, wash or polish glass or glass products
- setting and operating press machines to mould ceramic articles from moist clay
- operating machines to mix clay with water to knead it into a suitable plastic condition or semi-liquid form for making ceramic products
- operating and monitoring kilns which bake pottery, porcelain ware and bake bricks and tiles
- operating and monitoring machines for making glaze or abrasives
- operating and monitoring machines which extrude molten glass to form fibreglass filaments
- observing finished products to identify splits, cracks, breaks, colour and other imperfections

Occupation(s) in this Unit Group:

- 81811 Glass/Ceramics kiln machine operator
- 81812 Fibreglass maker
- 81819 Other glass and ceramics plant operators

Occupation 81811 Glass/Ceramics kiln machine operator

Glass/Ceramics kiln machine operator monitors and operates kilns used in the manufacture of glass, ceramics, porcelain, tiles or bricks. He/she operates machines to anneal, harden or decorate glass and ceramics.

Example(s) of job classified under this code:

- Biscuit placer (ceramics)
- Pottery oven fireman
- Glass annealing furnaceman

Occupation 81812 Fibreglass maker

Fibreglass maker operates a machine to extrude molten glass through a die to form fibreglass filaments. He/she sets and maintains the furnace temperature, starts the machine and observes the passage of glass over drawing apparatus to detect beads or breaks.

Example(s) of job not classified under this code:

- Plastic goods casting machine operator, see 81420

Occupation 81819 Other glass and ceramics plant operators

This group includes glass and ceramics plant operators not elsewhere classified.

Example(s) of job classified under this code:

- Abrasives mixer
- Clay mixer
- Glass float bath operator
- Glass making mixer

Unit Group 8182 Steam Engine and Boiler Operators

Steam engine and boiler operators maintain and operate various types of steam engines, boilers, turbines and auxiliary equipment to provide power and other utility services for commercial, industrial and institutional buildings, at work sites and aboard ships or self-propelled vessels.

Tasks include:

- operating, cleaning, lubricating and monitoring steam engines, boilers and auxiliary equipment such as pumps, compressors and air-conditioning equipment to supply and maintain steam and power for buildings, marine vessels or pneumatic tools
- analysing and recording instrument readings, troubleshooting and performing minor repairs to prevent equipment or system failure
- monitoring and inspecting performance of equipment for efficient operation and ensuring boiler water, chemical and fuel levels are maintained at required levels
- firing coal furnaces by hand or with stokers and gas or oil-fed boilers, using automatic gas feeds or oil pumps
- testing boiler water quality or arranging for testing, adjusting and taking necessary corrective action, such as adding chemicals to prevent corrosion and harmful deposits
- monitoring ship's engine, machinery and equipment indicators, recording variables and reporting abnormalities to the ship engineer officer on watch
- operating and maintaining off-loading liquid pumps and valves

Occupation(s) in this Unit Group:

- 81821 Boiler fireman
- 81822 Ship's oiler/greaser
- 81829 Other steam turbine, boiler and engine operators

Occupation 81821 Boiler fireman

Boiler fireman tends one or more boilers which produce steam for heat or power. He/she controls valves to maintain the required level of water in boiler, shovels fuel into fireboxes and pokes the fire to obtain maximum heat or sets devices which feed gas, oil or other fuel automatically. He/she checks the temperature and pressure of steam by reading gauges and feeds fuel or adjusts the stoking mechanism accordingly. He/she may remove ashes from ash pans, clean boilers and flues, and condition boiler water by adding chemicals.

Example(s) of job classified under this code:

- Boiler attendant
- Steam boiler fireman

Occupation 81822 Ship's oiler/greaser

Ship's oiler/greaser lubricates bearings and moving parts of engines and other mechanical equipment on vessels afloat. He/she makes regular rounds of machinery, checks gauges and thermometers and adjusts pressure and flow of lubricants to working parts of machinery. He/she also pours oil and applies grease with grease-guns at specified points of machinery not automatically lubricated. He/she assists engineers and engine-room mechanics in overhauling and repairing engines and other shipboard machinery.

Example(s) of job classified under this code:

- Ship motorman

Occupation 81829 Other steam turbine, boiler and engine operators

This group includes steam turbine, boiler and engine operators not elsewhere classified.

Example(s) of job classified under this code:

- Ship's fireman
- Ship's stocker
- Railway engine fireman
- Ship's engine-room rating

Unit Group 8183 Packing, Bottling and Labelling Machine Operators

Packing, bottling and labelling machine operators monitor and operate machines which weigh, pack and label various products or fill different containers with products.

Tasks include:

- operating and monitoring machines that weigh, wrap, seal and pack various products
- operating and monitoring machines that fill and seal tubes, bottles, cans, boxes, bags and other containers with products such as food, beverages, paints, oils and lotions
- operating and monitoring machines that, by gluing or other methods, label products, packages and various containers

Occupation(s) in this Unit Group:

- 81830 Packing/Bottling/Labelling machine operator

Occupation 81830 Packing/Bottling/Labelling machine operator

Packing/Bottling/Labelling machine operator monitors and operates machines which weigh, pack and label various products or fill different containers with products.

Example(s) of job classified under this code:

- Goods branding machine operator
- Machine packer

Example(s) of job not classified under this code:

- Industrial robot operator, see 31392
- Hand packer, see 93201
- Manufacturing labourer, see 93209

Unit Group 8184 Printing, Binding and Related Machine Operators

Printing, binding and related machine operators monitor and operate various types of printing and copying machines which print and copy onto paper or machines which bind and emboss books.

Tasks include:

- operating and monitoring machines that print or photocopy onto paper
- operating and monitoring machines which bind and emboss books
- setting up and supervising the operation of automatic binding and finishing equipment
- binding full, half and limp-bound books and repairing bindings
- folding, collating and sewing signatures by machine

- operating paper guillotines for pre-press and post-press paper cutting and trimming and programming electronically operated units
- operating systems to insert printed materials into newspapers, magazines and envelopes
- embellishing printed products automatically
- operating photographic and electronic reproduction devices

Occupation(s) in this Unit Group:

- 81841 Printing machine operator
- 81842 Bookbinding machine operator
- 81849 Other printing, binding and related machine operators

Occupation 81841 Printing machine operator

Printing machine operator monitors and operates various types of printing and copying machines which print and copy onto paper.

Example(s) of job classified under this code:

- Braille duplicating machine operator
- Direct lithographic pressman
- Letterpress operator
- Offset pressman

Example(s) of job not classified under this code:

- Block printer, see 73220

Occupation 81842 Bookbinding machine operator

Bookbinding machine operator performs a series of tasks in binding books with machines. He/she sews together signatures to form book bodies with a sewing machine, compresses sewn-together signatures of book bodies to uniform thickness with a smashing machine, trims books to size with a powered cutting machine, inserts each book into a machine which rounds backs and forms grooves at the back edge in which covers are hinged, stacks and aligns books, glues the superlining and back-lining on each book, glues the cover to the end sheets, and places books in a press to dry.

Example(s) of job classified under this code:

- Book sewing machine operator
- Bookbinding machine sewer

Occupation 81849 Other printing, binding and related machine operators

This group includes printing, binding and related machine operators not elsewhere classified.

Example(s) of job classified under this code:

- Book embosser (machine)
- Book embossing machine operator
- Stapling machine operator

Unit Group 8189 Stationary Plant and Machine Operators Not Elsewhere Classified

This unit group includes stationary plant and machine operators not elsewhere classified in Minor Group 818 'Other Stationary Plant and Machine Operators'.

Tasks include:

- operating and monitoring machines that fills containers with gases (except compressed or liquefied gas) or liquids
- operating and monitoring machines that bale press paper

Occupation(s) in this Unit Group:

- 81890 Stationary plant and machine operator n.e.c.

Occupation 81890 Stationary plant and machine operator n.e.c.

This group includes stationary plant and machine operators not elsewhere classified in Minor Group 818 'Other Stationary Plant and Machine Operators'.

Example(s) of job classified under this code:

- Container filling machine operator (except compressed and liquefied gas)
- Paper baling machine operator
- Rubber baling press operator

SUB-MAJOR GROUP 82 ASSEMBLERS AND QUALITY CHECKERS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 820 SUPERVISORS AND GENERAL FOREMEN OF ASSEMBLERS
- 821 ASSEMBLERS, QUALITY CHECKERS AND TESTERS

MINOR GROUP 820 SUPERVISORS AND GENERAL FOREMEN OF ASSEMBLERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8200 Supervisors and General Foremen of Assemblers and Quality Checkers

Unit Group 8200 Supervisors and General Foremen of Assemblers and Quality Checkers

Supervisors and general foremen of assemblers and quality checkers supervise the production activities of a distinct unit within an establishment concerned with manufacturing and assembling of electrical and electronic equipment and components and control and coordinate the activities of workers.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems
- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 82000 Supervisor/general foreman of assemblers and quality checkers

Occupation 82000 Supervisor/general foreman of assemblers and quality checkers

Supervisor/general foreman of assemblers and quality checkers supervises the production activities of a distinct unit within an establishment concerned with manufacturing and assembling electrical and electronic equipment and components and controls and coordinates the activities of workers.

Example(s) of job classified under this code:

- Electrical equipment manufacturing and repairing supervisor
- Electrical equipment manufacturing and repairing general foreman

Example(s) of job not classified under this code:

- Beverage making general foreman, see 81000
- Beverage making supervisor, see 81000

MINOR GROUP 821 ASSEMBLERS, QUALITY CHECKERS AND TESTERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8211 Mechanical Machinery Assemblers
- 8212 Electrical and Electronic Equipment Assemblers
- 8213 Quality Checkers and Testers
- 8219 Assemblers Not Elsewhere Classified

Unit Group 8211 Mechanical Machinery Assemblers

Mechanical machinery assemblers assemble, according to procedures strictly laid down, component parts of mechanical machinery such as engines, motor vehicles, turbines and aircraft.

Tasks include:

- assembling and installing prefabricated parts or components to form subassemblies, mechanical machinery, engines and finished motor vehicles
- reviewing work orders, specifications, diagrams and drawings to determine materials needed and assembly instructions
- recording production and operational data on specified forms
- inspecting and testing completed components and assemblies
- rejecting faulty assemblies and components

Occupation(s) in this Unit Group:

- 82110 Mechanical equipment/component assembler

Occupation 82110 Mechanical equipment/component assembler

Mechanical equipment/component assembler assembles, according to procedures strictly laid down, component parts of mechanical machinery such as engines, motor vehicles, turbines and aircraft.

Unit Group 8212 Electrical and Electronic Equipment Assemblers

Electrical and electronic equipment assemblers assemble or modify, according to strictly laid down procedures, components of electrical, electro-mechanical and electronic equipment.

Tasks include:

- assembling component parts and electrical and electronic systems and positioning, aligning and fastening units to assemblies, sub-assemblies, or frames using hand or power tools, soldering and micro-welding equipment

- reviewing work orders, specifications, diagrams and drawings to determine materials needed and assembly instructions
- recording production and operational data on specified forms
- operating wire-coiling machines to wind wire coils used in electrical equipment and components such as registers, transformers, armature wires, electric motors and generators

Occupation(s) in this Unit Group:

- 82121 Electrical equipment/component assembler
- 82122 Electronic equipment/component assembler
- 82123 Battery assembler

Occupation 82121 Electrical equipment/component assembler

Electrical equipment/component assembler assembles various parts into finished electrical components, sub-assemblies or machinery and apparatus. He/she assembles parts or mounts them on chassis by means of adjusting, fitting, wiring, positioning and/or welding operations using assembly equipment.

Example(s) of job classified under this code:

- Electrical component assembler
- Electrical equipment assembler
- Office machine assembler (electrical)

Example(s) of job not classified under this code:

- Electrical installations technician, see 31131
- Manufacturing labourer, see 93209

Occupation 82122 Electronic equipment/component assembler

Electronic equipment/component assembler assembles various parts into finished electronic components, sub-assemblies or equipment. He/she installs and connects wiring and parts by clamping or soldering.

Example(s) of job classified under this code:

- Microelectronics assembler

Example(s) of job not classified under this code:

- Semi-conductor technician, see 31142
- Radar technician, see 31141

Occupation 82123 Battery assembler

Battery assembler assembles cells and other components in a container (battery case) to make a complete storage battery. He/she inserts cells into containers according to the prescribed polarity arrangement, installs covers on cells and fits intercell connectors on posts. He/she burns connectors to posts, pours compound over cells to fill cracks and seal the battery in the case.

Unit Group 8213 Quality Checkers and Testers

Quality checkers and testers inspect finished products or parts for compliance with manufacturer standards.

Tasks include:

- checking and testing finished products or parts for accuracy of assembly
- checking and testing finished products for compliance with weight and other specifications
- checking and testing finished products for defects in finish or operation

Occupation(s) in this Unit Group:

- 82131 Electrical/Electronic products quality checker and tester
- 82132 Mechanical products quality checker and tester
- 82139 Other quality checkers and testers

Occupation 82131 Electrical/Electronic products quality checker and tester

Electrical/Electronic products quality checker and tester inspects and tests electrical or electronic equipment for conformance to manufacturer's standards. He/she checks equipment and parts according to technical specifications, rejects faulty products and records information on inspection tickets. He/she may inspect mechanical operation of equipment and may inspect components and equipment in various stages of production.

Example(s) of job classified under this code:

- Electronic products quality control operator

Example(s) of job not classified under this code:

- Electrical testing technician, see 31131
- Quality assurance technician, see 31175

Occupation 82132 Mechanical products quality checker and tester

Mechanical products quality checker and tester inspects and tests machinery and related mechanical equipment for finish, mechanical operation and conformance to manufacturer

standards. He/she may do minor adjustments and may inspect articles in various stages of production.

Example(s) of job not classified under this code:

- Quality assurance technician, see 31175

Occupation 82139 Other quality checkers and testers

This group includes quality checks and testers not elsewhere classified.

Example(s) of job classified under this code:

- Chemical products quality control operator
- Petrochemical products tester

Unit Group 8219 Assemblers Not Elsewhere Classified

This unit group includes assemblers not elsewhere classified. Assemblers in this unit group, assemble, according to strictly laid down procedures, various products that do not include electronic or electrical components.

Tasks include:

- assembling component parts and positioning, aligning and fastening units to assemblies, sub-assemblies or frames using power tools, soldering and micro-welding equipment
- reviewing work orders, specifications, diagrams and drawings to determine materials needed and assembly instructions
- recording production and operational data on specified forms

Occupation(s) in this Unit Group:

- 82190 Assembler n.e.c.

Occupation 82190 Assembler n.e.c.

This group includes assemblers not elsewhere classified.

Example(s) of job classified under this code:

- Doll and stuffed toy maker
- Toy assembler
- Toymaker (stuff toys)
- Metal products assembler

SUB-MAJOR GROUP 83 DRIVERS AND MOBILE MACHINERY OPERATORS

Occupation(s) in this Sub-major Group are classified into the following Minor Group(s):

- 830 MOBILE MACHINERY SUPERVISORS AND GENERAL FOREMEN
- 831 TRAIN OPERATORS AND RELATED WORKERS
- 832 CAR AND LIGHT GOODS VEHICLE DRIVERS
- 833 HEAVY TRUCK AND BUS DRIVERS
- 834 MOBILE MACHINERY OPERATORS
- 835 SHIPS' DECK CREW AND RELATED WORKERS

MINOR GROUP 830 MOBILE MACHINERY SUPERVISORS AND GENERAL FOREMEN

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8300 Mobile Machinery Supervisors and General Foremen

Unit Group 8300 Mobile Machinery Supervisors and General Foremen

Mobile machinery supervisors and general foremen supervise activities of a distinct unit within an establishment concerned with the transport of passengers, material and goods and control the activities of workers in related occupations.

Tasks include:

- interpreting specifications and job orders
- determining sequence of operations and use of equipment
- estimating manpower requirements
- assigning duties to workers
- analysing and resolving work problems
- coordinating the work of one or more units with other units
- recommending or initiating personnel action
- supervising co-workers and helping them in their work

Occupation(s) in this Unit Group:

- 83000 Mobile machinery supervisor and general foreman

Occupation 83000 Mobile machinery supervisor and general foreman

Mobile machinery supervisor and general foreman supervises activities of a distinct unit within an establishment concerned with the transport of passengers, material and goods and controls the activities of workers in related occupations.

MINOR GROUP 831 TRAIN OPERATORS AND RELATED WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8311 Train Operators
- 8312 Railway Brakers and Related Workers

Unit Group 8311 Train Operators

Train operators drive trains to transport passengers and goods.

Tasks include:

- operating trains
- watching for track hazards, observing signals and indicator gauges
- operating communication systems to communicate with train crews and traffic controllers to ensure safe operation and scheduling of trains
- conducting visual inspections from moving trains to check for obstructions on train tracks
- conducting security patrols in trains prior to and after train service
- broadcasting train service information to commuters
- assisting in the investigation of rail incidents and/or accidents

Occupation(s) in this Unit Group:

- 83110 Train operator

Occupation 83110 Train operator

Train operator drives trains to transport passengers and goods. He/she watches for track hazards, observes signals and indicator gauges and operates communication systems to communicate with train crews and traffic controllers to ensure safe operation and scheduling of trains.

Example(s) of job classified under this code:

- Train driver

Example(s) of job not classified under this code:

- Tram driver, see 83312

Unit Group 8312 Railway Brakers and Related Workers

Railway brakers and related workers take charge of and safeguard railway freight trains during runs, control the movement of railway traffic by operating signals, switch rolling stock and make up trains in railway yards or train depots.

Tasks include:

- taking charge of and safeguarding freight trains during run
- controlling flow of railway traffic over section of line by operating signals and switches from control panel or signal box
- switching and coupling rolling stock in railway yards or train depots and sidings in accordance with orders about loading, unloading and make-up of trains
- making up trains for hauling by locomotive or cable and directing their movement along haulage ways
- checking train systems and equipment such as air conditioning and heating systems, brakes and brake hoses prior to train run

Occupation(s) in this Unit Group:

- 83121 Railway brakeman/signalman/shunter
- 83129 Other railway brakers and related workers

Occupation 83121 Railway brakeman/signalman/shunter

Railway brakeman/signalman/shunter assists in preparing train for run, safeguards train during trip and switches cars. He/she checks car mechanisms such as couplings, air-brake lines and hand brakes before train departure, examines signalling equipment such as lamps, flags, detonators and fuses, observes train operation to detect over-heated journal boxes, loose couplings or other defects.

Example(s) of job not classified under this code:

- MRT train operator, see 83110

Occupation 83129 Other railway brakers and related workers

This group includes railway brakers and related workers not elsewhere classified.

Example(s) of job classified under this code:

- Railway engine driver
- Railway gateman

- Railway yardmaster

MINOR GROUP 832 CAR AND LIGHT GOODS VEHICLE DRIVERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8321 Motorcycle (Including Motorised Personal Mobility Devices) Delivery Men
- 8322 Car, Taxi, Van and Light Goods Vehicle Drivers

Unit Group 8321 Motorcycle (Including Motorised Personal Mobility Devices) Delivery Men

Motorcycle (including motorised personal mobility devices) delivery men drive and tend motorcycles or motorised personal mobility aids/devices to transport non-mail items.

Tasks include:

- driving and tending motorcycles or motorised personal mobility aids/devices to transport non-mail items such as food and beverage
- observing traffic rules and signals
- cleaning and washing vehicle as well as performing maintenance and minor repairs
- keeping a record of journeys
- delivering messages

Notes:

Non-mail items refer to letters, packages etc. that are sent or delivered by means other than through the postal system.

Occupation(s) in this Unit Group:

- 83211 Motorcycle delivery man
- 83212 Delivery man using motorised personal mobility aids/devices

Occupation 83211 Motorcycle delivery man

Motorcycle delivery man transports and delivers non-mail items by motorcycle.

Example(s) of job classified under this code:

- Motorcyclist (delivery man)
- Motor-tricycle driver (goods)

Example(s) of job not classified under this code:

- Bicycle rider (not motorised), see 93310

Occupation 83212 Delivery man using motorised personal mobility aids/devices

Delivery man using motorised personal mobility aids/devices transports and delivers non-mail items by motorised personal mobility aids/devices.

Example(s) of job classified under this code:

- Electrical bicycle delivery man
- Motorised personal mobility device (PMD) delivery man

Example(s) of job not classified under this code:

- Bicycle food deliverer, see 93310
- Food delivery on foot, see 96299

Unit Group 8322 Car, Taxi, Van and Light Goods Vehicle Drivers

Car, taxi, van and light goods vehicle drivers drive and tend motor cars and vans to transport passengers and non-mail items.

Tasks include:

- driving and tending ambulances, vans, cars or taxis, to transport passengers
- driving and tending cars, vans or small trucks to deliver non-mail items such as food and beverage
- assisting passengers with handling of luggage
- collecting fares, payments for deliveries, or documents certifying deliveries
- operating telecommunications equipment to report location and availability and follow directions of control centre
- determining most appropriate route
- assisting physically challenged passengers
- operating equipment to facilitate the loading and unloading of physically challenged passengers

Notes:

Non-mail items refer to letters, packages etc. that are sent or delivered by means other than through the postal system.

Occupation(s) in this Unit Group:

- 83221 Taxi driver
- 83222 Chauffeur
- 83223 Van driver

- 83224 Ambulance driver
- 83225 Parking valet
- 83226 Private-hire car driver
- 83229 Other car and light goods vehicle drivers

Occupation 83221 Taxi driver

Taxi driver drives a motorised vehicle to transport passengers on demand at a charge usually based on a meter fare, from one point to another. He/she does not have a fixed route to drive around and he/she also assists passengers boarding or leaving the vehicle.

Example(s) of job classified under this code:

- Cab driver
- Motor car driver (taxi)

Example(s) of job not classified under this code:

- Private-hire car driver, see 83226

Occupation 83222 Chauffeur

Chauffeurs drives a motorised vehicle to transport personnel and visitors of businesses, government or other organisations or members of private households. He/she is usually employed by businesses, government and other organisations, or private individuals or families.

Example(s) of job classified under this code:

- Car driver (private service)
- Motor car driver (private)

Occupation 83223 Van driver

Van driver drives a van to pick up and deliver (non-mail) documents and parcels.

Example(s) of job classified under this code:

- Mail van driver
- Postal van driver

Occupation 83224 Ambulance driver

Ambulance driver drives an ambulance vehicle to carry sick, injured and emergency cases to hospital in a safe, efficient and courteous manner. He/she places the patient on a stretcher and loads the stretcher into the ambulance, coordinates transport requests including handling of patient transfers to other hospitals.

Example(s) of job not classified under this code:

- Ambulance paramedic, see 32591

Occupation 83225 Parking valet

Parking valet provides assistance to clients by moving their vehicles to a specific parking location. He/she may provide information on parking rates.

Example(s) of job not classified under this code:

- Valet attendant, see 96254

Occupation 83226 Private-hire car driver

Private-hire car driver drives a motorised vehicle to transport passengers on a pre-booked basis and charges a fixed fare, usually a flat fare. He/she does not pick passengers up via street hails and does not drive around a fixed route.

Example(s) of job not classified under this code:

- Taxi driver, see 83221

Occupation 83229 Other car and light goods vehicle drivers

This group includes car and light goods vehicle drivers not elsewhere classified.

Example(s) of job classified under this code:

- Car delivery driver
- Pick-up driver

Example(s) of job not classified under this code:

- Bus driver, see 83311

MINOR GROUP 833 HEAVY TRUCK AND BUS DRIVERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8331 Bus and Tram Drivers

- 8332 Heavy Truck and Lorry Drivers

Unit Group 8331 Bus and Tram Drivers

Bus and tram drivers drive and tend buses or tramcars to transport passengers or goods.

Tasks include:

- driving and tending motor buses, trolley buses or motor coaches to transport passengers or goods locally or over long distances
- driving and tending tramcars transporting passengers
- opening and closing doors before or after passengers board or alight
- assisting passengers with luggage
- controlling lighting and ventilation on buses and trams
- observing traffic to ensure safe progress
- collecting fares or verifying that passengers have the necessary ticket

Occupation(s) in this Unit Group:

- 83311 Bus driver
- 83312 Tram driver

Occupation 83311 Bus driver

Bus driver drives a bus to transport passengers. He/she adheres to service routes schedules and complies with transportation and traffic rules and regulations. He/she responds to incidents or accidents as per advice by Bus Operation Control Centre and provides customer service to commuters to enhance service delivery on board buses e.g. assist wheelchair commuters to board/alight the bus safely.

Example(s) of job classified under this code:

- Bus captain
- Coach driver

Occupation 83312 Tram driver

Tram driver operates a tram along the designated route and may need to provide live commentary to enhance the guest experience.

Example(s) of job not classified under this code:

- Train driver, see 83110

Unit Group 8332 Heavy Truck and Lorry Drivers

Heavy truck and lorry drivers drive and tend heavy motor vehicles to transport goods, liquids and heavy materials over short or long distances.

Tasks include:

- driving and tending a heavy motor vehicle, such as a lorry with or without a trailer or a dump-truck, to transport goods, liquids or heavy materials over short or long distances
- determining the most appropriate routes
- ensuring goods are stowed and securely covered, to prevent loss and damage
- assisting with or carrying out loading or unloading operations, using various lifting or tipping devices
- carrying out minor maintenance to vehicles and arranging major maintenance and repairs
- estimating weights to comply with load limitations and ensuring the safe distribution of weights

Occupation(s) in this Unit Group:

- 83321 Lorry driver
- 83322 Trailer-truck driver (including prime mover driver)
- 83323 Concrete mix truck driver
- 83324 Waste truck driver (including hooklift trucks with roll-on containers)
- 83329 Other heavy truck and lorry drivers

Occupation 83321 Lorry driver

Lorry driver drives a heavy motor vehicle such as a lorry for the transport of passengers and freight. He/she may assist with delivering parcels and documents. He/she may make minor repairs and keep the vehicle clean and in good running order.

Example(s) of job classified under this code:

- Truck driver

Occupation 83322 Trailer-truck driver (including prime mover driver)

Trailer-truck driver (including prime mover driver) drives a tractor-trailer combination or a truck or a tow truck. He/she may assist with unloading the trailer-truck.

Example(s) of job classified under this code:

- Container truck driver

Occupation 83323 Concrete mix truck driver

Concrete mix truck driver drives and operates trucks to haul concrete from the plant to project sites, and operates pumps to disperse concrete at the site. He/she cleans and maintains the truck and its mechanical parts.

Example(s) of job classified under this code:

- Concrete truck driver

Occupation 83324 Waste truck driver (including hooklift trucks with roll-on containers)

Waste truck driver (including hooklift trucks with roll-on containers) drives large vehicles used for refuse collection. He/she drives the vehicles from the homes and facilities where the refuse is collected by the refuse collectors on the lorry and transports the waste to the waste treatment and disposal facilities.

Example(s) of job classified under this code:

- Hooklift trucks with roll-on container driver
- Waste truck driver

Example(s) of job not classified under this code:

- Lifting truck operator, see 83449
- Waste truck loader, see 96111

Occupation 83329 Other heavy truck and lorry drivers

This group includes heavy truck and lorry drivers not elsewhere classified.

Example(s) of job classified under this code:

- Water-tank driver

MINOR GROUP 834 MOBILE MACHINERY OPERATORS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8342 Earth Moving and Related Machinery Operators
- 8343 Crane, Hoist and Related Equipment Operators
- 8344 Lifting Truck Operators
- 8349 Mobile Machinery Operators Not Elsewhere Classified

Unit Group 8342 Earth Moving and Related Machinery Operators

Earth moving and related machinery operators operate machines to excavate, grade, level, smooth and compact earth or similar materials.

Tasks include:

- operating and monitoring excavating machinery equipped with a movable shovel, grab-bucket or dragline bucket to excavate and move earth, rock, sand, gravel or similar materials
- operating and monitoring machinery for digging trenches for sewers, drainage, water, oil, gas or similar pipelines
- operating and monitoring machinery equipped with a concave steel blade to move, distribute and level earth, sand and other similar materials
- operating and monitoring equipment to remove sand, gravel and mud from the bottom of a body of water
- operating and monitoring machines for hammering wooden, concrete or steel piles into the ground
- operating and monitoring power rollers to compact and smooth layers of materials in making roads, pavements and similar work
- operating and monitoring machines which spread and smooth concrete or bituminous or tar preparations to construct roadways, roads or similar surfaces

Occupation(s) in this Unit Group:

- 83421 Excavating/Trench digging machine operator
- 83422 Dredge operator
- 83423 Pile driver/Drilling machine operator
- 83424 Tunnelling machine operator (including pipe jacking machine operator)
- 83429 Other earth moving and related machinery operators

Occupation 83421 Excavating/Trench digging machine operator

Excavating/Trench digging machine operator operates a power-driven machine, mounted on wheels or crawler tracks, equipped with a moveable shovel, grab-bucket or dragline bucket to excavate and move earth, rock, sand, gravel and similar material. He/she may operate a particular type of machine and be designated accordingly. He/she also conducts pre-operational checks on equipment to ensure proper functioning.

Example(s) of job classified under this code:

- Dragline bucket operator
- Grab-bucket operator
- Bulldozer operator

Notes:

Excavating/Trench digging machine operator typically possesses an excavator licence or its equivalent.

Occupation 83422 Dredge operator

Dredge operator operates various kinds of excavating equipment, mounted on a dredge, to remove sand, gravel and mud from the bottom of a body of water. He/she watches the tide gauge and adjusts the mechanism to keep work uniform. He/she may make minor repairs.

Occupation 83423 Pile driver/Drilling machine operator

Pile driver/Drilling machine operator operates a power-driven machine equipped with a power hammer or drop-hammer to drive wooden, concrete or steel piles into dry ground or the bottom of a body of water. He/she hoists the pile and lowers it into position for driving, manipulates controls to operate the hammer, makes adjustments to the hoisting engine and hammer and assists in maintaining the machine.

Example(s) of job classified under this code:

- Piling machine operator

Occupation 83424 Tunnelling machine operator (including pipe jacking machine operator)

Tunnelling machine operator (including pipe jacking machine operator) works on large pieces of tunnelling equipment commonly known as tunnel boring machines. He/she regulates the operation of the machine, adjusting the torque of the rotating cutting wheel and screw conveyor to maximise the stability of the tunnel before tunnel rings are installed. He/she also puts reinforced concrete rings in place using remote controls.

Example(s) of job classified under this code:

- Earth boring machine operator (construction)

Occupation 83429 Other earth moving and related machinery operators

This group includes earth moving and related machinery operators not elsewhere classified.

Example(s) of job classified under this code:

- Asphalt spreading machine operator
- Bituminous paving machine operator
- Stone spreader operator (construction)

Example(s) of job not classified under this code:

- Precast concrete erector, see 71149

Unit Group 8343 Crane, Hoist and Related Equipment Operators

Crane, hoist and related equipment operators monitor and operate stationary and mobile cranes and other hoisting equipment.

Tasks include:

- operating and monitoring stationary or mobile cranes by raising and lowering jibs and booms, to lift, move, position or place equipment and materials
- operating and monitoring equipment for hoisting, lowering or raising workers and materials on construction sites
- operating and monitoring machinery used to haul a ferry or barge with goods, passengers and vehicles across short stretches of water
- operating and monitoring cranes equipped with dredging attachments to dredge waterways and other areas
- operating and monitoring cranes mounted on boats or barges to lift, move and place equipment and materials

Occupation(s) in this Unit Group:

- 83431 Crane/Hoist operator (excluding port)
- 83432 Crane operator (on-site)
- 83439 Other crane, hoist and related equipment operators

Occupation 83431 Crane/Hoist operator (excluding port)

Crane/Hoist operator (excluding port) operates a crane mounted on wheels or crawler tracks which can be moved under its own power in any direction. He/she operates power-driven hoisting equipment, usually consisting of a mobile cage or platform, to raise and lower materials and workers employed on construction work. He/she loads or oversees the loading of the cage, platform or other device connected to hoist.

Example(s) of job classified under this code:

- Bridge or gantry crane operator (non-port)
- Drawbridge operator

Example(s) of job not classified under this code:

- Hoisting equipment rigger, see 72150

Notes:

Crane/Hoist operator (excluding port) is required to pass the relevant crane operator course conducted by an accredited training provider or its equivalent.

Occupation 83432 Crane operator (on-site)

Crane operator (on-site) operates port machinery such as quay cranes, yard cranes, fork lifts and prime movers in a safe and efficient manner that complies with port regulations while ensuring all cargo and ship supplies are discharged and loaded. He/she also inspects the equipment and work site prior to equipment set up based on his/her thorough understanding of the equipment's specifications.

Example(s) of job not classified under this code:

- Stevedore, see 93331

Notes:

Crane/Hoist operator (excluding port) is required to pass the relevant crane operator course conducted by an accredited training provider or its equivalent.

Occupation 83439 Other crane, hoist and related equipment operators

This group includes crane, hoist and related equipment operators not elsewhere classified.

Example(s) of job classified under this code:

- Cable car operator
- Material handling equipment (MHE) operator

Unit Group 8344 Lifting Truck Operators

Lifting truck operators drive, operate and monitor lifting trucks or similar vehicles to transport, lift and stack pallets with goods.

Tasks include:

- operating and monitoring lifting trucks and similar equipment to load and unload, transport, lift and stack goods and pallets in terminals, harbours, ware-houses, factories and other establishments
- positioning lifting devices under, over or around loaded pallets, skids and boxes and securing material or products for transport to designated areas
- inspecting equipment to identify wear and damage
- performing routine maintenance on vehicles and equipment
- keeping records of work undertaken and breakdown of lifting truck and similar equipment

Occupation(s) in this Unit Group:

- 83441 Fork lift truck operator
- 83449 Other lifting truck operators

Occupation 83441 Fork lift truck operator

Fork lift truck operator operates power-driven trucks equipped with a fork lift or lifting platform to pick up, transport and raise or mechanically stack bales, crates, cartons and similar objects in a warehouse, storeroom, factory or other establishment. He/she exercises care to prevent damage to goods. He/she may carry out routine servicing of trucks, tow hand trucks and load or unload trucks.

Example(s) of job classified under this code:

- Fork lift operator

Example(s) of job not classified under this code:

- Warehouse worker, see 93334

Occupation 83449 Other lifting truck operators

This group includes lifting truck operators not elsewhere classified.

Example(s) of job classified under this code:

- Industrial truck operator
- Lifting truck operator

Unit Group 8349 Mobile Machinery Operators Not Elsewhere Classified

Mobile machinery operators not elsewhere classified drive, operate and monitor mobile machinery for agriculture, sweeping and farming.

Tasks include:

- operating and monitoring mobile machinery to sweep the roads
- operating and monitoring machinery for agriculture or milking animals

Occupation(s) in this Unit Group:

- 83491 Motorised sweeper operator
- 83492 Airport mobile equipment operator
- 83499 Mobile machinery operators n.e.c. (e.g. mobile farm plant operator)

Occupation 83491 Motorised sweeper operator

Motorised sweeper operator operates and monitors mobile machinery to clean roads and pavements, and perform other duties to ensure public cleanliness.

Example(s) of job classified under this code:

- Mechanical sweeper driver

Occupation 83492 Airport mobile equipment operator

Airport mobile equipment operator drives and operates heavy or light motorised equipment such as tow-trucks, mobile gangways and other specified equipment used at airports for loading and unloading of passengers and goods, towing and servicing aircraft etc. He/she also maintains equipment and checks for serviceability.

Example(s) of job classified under this code:

- Airport mobile equipment driver

Occupation 83499 Mobile machinery operators n.e.c. (e.g. mobile farm plant operator)

This group includes mobile machinery operators not elsewhere classified.

Example(s) of job classified under this code:

- Agricultural machinery operator
- Motorised farm machinery operator
- Pedestrian tractor operator
- Threshing machine operator

MINOR GROUP 835 SHIPS' DECK CREW AND RELATED WORKERS

Occupation(s) in this Minor Group are classified into the following Unit Group(s):

- 8350 Ships' Deck Crew and Related Workers

Unit Group 8350 Ships' Deck Crew and Related Workers

Ships' deck crew and related workers carry out deck duties on board ship and similar duties on board other water-borne craft.

Tasks include:

- standing look-out watches at sea and when entering or leaving harbour or other narrow waters

- steering ship according to instructions
- handling ropes and wires and operating mooring equipment
- maintaining and in some cases, operating the ship's equipment, cargo gear, rigging, life-saving and fire-fighting appliances
- performing deck and hull cleaning, scraping, painting and other maintenance duties as required
- breaking out, rigging and stowing cargo-handling gear, stationary rigging and running gear

Occupation(s) in this Unit Group:

- 83501 Port limit helmsman/steersman/engine driver/tugmaster
- 83502 Deckhand (including lighterman)
- 83509 Other ships' deck crew and related workers

Occupation 83501 Port limit helmsman/steersman/engine driver/tugmaster

Port limit helmsman/steersman/engine driver/tugmaster manoeuvres and handles boats or crafts ferrying ship agents and seafarers between ships and shore, ferrying harbour pilots to board commercial ships, and transporting and supplying ship stores and provisions to ships at anchorages. He/she maintains and services the ship's engine while ensuring compliance with regulatory requirements and organisational procedures.

Example(s) of job classified under this code:

- Kemudi

Occupation 83502 Deckhand (including lighterman)

Deckhand serves as senior deck-hand on a seagoing vessel. He/she stands lookout, steers the vessel as directed, handles mooring lines on board, lowers and raises lifeboats, and takes charge of lifeboats and other small boats. He/she also maintains lifeboats, life-saving gear, deck equipment and makes minor repairs, scrapes and cleans painted surfaces of the vessel and repaints them. He/she washes decks and maintains cleanliness of the ship's hull, fittings, superstructure and cargo spaces.

Example(s) of job classified under this code:

- Boatswain
- Quartermaster (ship)

Occupation 83509 Other ships' deck crew and related workers

This group includes ships' deck crew and related workers not elsewhere classified.

Example(s) of job classified under this code:

- Cable-ship hand
- Ferry boatman
- Motor boatman

MAJOR GROUP 9 CLEANERS, LABOURERS AND RELATED WORKERS

Occupation(s) in this Major Group are classified into the following Sub-major Group(s):

- 91 CLEANERS AND RELATED WORKERS
- 92 AGRICULTURAL, FISHERY AND RELATED LABOURERS
- 93 LABOURERS AND RELATED WORKERS
- 94 FOOD PREPARATION AND KITCHEN ASSISTANTS
- 96 WASTE COLLECTION, RECYCLING AND MATERIAL RECOVERY WORKERS AND OTHER ELEMENTARY WORKERS

SUB-MAJOR GROUP 91 CLEANERS AND RELATED WORKERS

MAJOR GROUP X WORKERS NOT ELSEWHERE CLASSIFIED

Occupation X1000 Worker reporting unidentifiable or inadequately described occupation

This group includes persons reporting occupations which cannot be identified, occupations not sufficiently well described to permit classification in one of the preceding major groups and occupations not classifiable elsewhere because of erroneous reporting or for other reasons.

Occupation X2000 Worker not reporting any occupation

This group includes those not reporting any information as to their occupation.

Occupation X3000 Singapore armed forces personnel

This group includes personnel who are serving in the armed forces, including auxiliary services, whether on a voluntary or involuntary basis. Included are regular members of the army, navy, air force and other military services, as well as temporary members enrolled for full-time training or other services.

Example(s) of job not classified under this code:

- Commercial airline pilot, see 21721

Notes:

This group excludes persons in civilian employment, such as administrative staff of government establishments concerned with defence, police (other than military police), customs inspectors and members of other armed civilian services, members of military reserves not currently on full-time active service and persons who have been temporarily withdrawn from civilian life for a short period of military training.

Many jobs performed by members of the armed forces are similar, in terms of the nature of the work performed, to civilian occupations such as medical doctors, radio operators, cooks, secretaries and heavy truck drivers. Conceptually, it may be appropriate, therefore, to classify such jobs in the armed forces with similar civilian jobs. This approach is adopted in several national occupation classifications. For purposes of international comparability, however, where data pertaining to members of the armed forces are reported and classified by occupation, they should be included, where possible, under ISCO's 'Armed Forces Occupations'.

Occupation X4000 Foreign armed forces personnel

This group includes members of foreign armed forces based in Singapore.

Notes:

This group excludes persons in civilian employment such as administrative staff.

Occupation X5000 Foreign diplomatic personnel

This group includes foreign diplomats and consular representatives such as ambassadors, high commissioners, attachés, etc.
